Learning to Save the World Betsey Behr Brada,2023-02-15 Learning to Save the World provides an innovative analysis of how individuals inhabit refuse and reconfigure the contours of global health In 2001

Botswana's government faced with one of the highest HIV prevalence rates in the world committed itself to sub-Saharan Africa's first free public HIV treatment program. US-based private foundations and medical schools offered support to demonstrate the feasibility of public HIV treatment in Africa. Given US interest and investment in global health, this support created opportunities for US physicians and medical trainees to interact with local practitioners, treat patients, and shape health policy in Botswana. Although global health has emerged as a powerful call to planetary moral action, the nature of this exhortation remains unclear. Is global health a new movement for social justice or is it neocolonial, creating new dependencies under the banner of humanitarianism? Betsey Behr Brada shows that global health is a frontier, an imaginative framework that organizes the space, time, and ethics of encounter. *Learning to Save the World* reveals how individuals and collectivities engaged in global health, visiting experts as well as local clinicians and patients, come to regard themselves and others in terms of this framework. American Educational History Journal Paul J. Ramsey, 2012-10-01. The American Educational History Journal is a peer-reviewed national research journal devoted to the examination of educational topics using perspectives from a variety of disciplines. The editors of AEHJ encourage communication between scholars from numerous disciplines, nationalities, institutions, and backgrounds. Authors come from a variety of disciplines, including political science, curriculum, history, philosophy, teacher education, and educational leadership. Acceptance for publication in AEHJ requires that each author present a well-articulated argument that deals substantively with questions of educational history. A History of Christian Psalmody Charles H. Cosgrove, 2025-10-21. In *A History of Christian Psalmody*, Charles H. Cosgrove traces the history of Christian psalm singing during the church's first five centuries. It describes the nature and development of psalmody in a wide range of settings, including personal and domestic devotion, daily cathedral rituals, annual feasts such as Christmas and Easter, the ascetic practices of city Christians and desert monks, and public events of the church such as martyr parades, episcopal processions, and even protest psalmody in the streets against hostile emperors. It also explains how psalms were performed, including topics such as solo and responsorial singing, antiphony, the earliest choirs, and the melodic character of ancient psalmody. A final chapter describes ancient Christian beliefs about the benefits and pleasures of psalm singing. Written accessibly for both scholars and general readers interested in ancient Christian music, the book offers the most comprehensive account of its subject to date. *Handbook of Digital Public History* Serge Noiret, Mark Tebeau, Gerben Zaagsma, 2022-04-04. This handbook provides a systematic overview of the present state of international research in digital public history. Individual studies by internationally renowned public historians, digital humanists, and digital historians elucidate central issues in the field and present a critical account of the major public history accomplishments, research activities, and practices with the public and of their digital context. The handbook applies an international and comparative approach, looks at the historical development of the field, focuses on technical background, and the use of specific digital media and tools. Furthermore, the handbook analyzes connections with local communities and different publics worldwide.

Foundations of Knowledge E.P. Papanoutsos, 1968-06-30 The inquiry into the foundations of knowledge is a systematic inquiry into the problem of truth This problem constitutes one of the three main concerns of philosophical analysis the others being the problem of beauty and the problem of goodness Thus Evangelos P Papanoutsos Greece's leading contemporary philosopher introduces this third book of his Trilogy of the Mind The first two volumes covered aesthetics and ethics this one is a major work in epistemology Combining rigorous analysis with thorough going scholarship displaying an intimate acquaintance with the physical and humanistic sciences and drawing on a deep understanding of philosophical method and the history of

philosophy Professor Papanoutsos is held in high esteem by his European colleagues This translation of his masterpiece will enhance his reputation and influence among readers of English The themes of *The Foundation of Knowledge* range over the topics that have been continually challenging to the modern era of philosophers being and consciousness experience and reason common sense and science and the domains of knowledge including the nature of philosophical knowledge Special attention is paid to the analysis of theoretical consciousness the problems of categorical thinking the theory of judgment mathematics and logic and the limits of historical understanding Henry David Thoreau and the Moral Agency of Knowing Alfred I. Tauber, 2003-05 Tauber's book is encyclopedic not only a revealing and comprehensive study of Thoreau but also a full vision of the Romantic Weltanschauung and its relevance to contemporary concerns in philosophy science and poetics While this scope is wildly ambitious Tauber admirably delivers always informing his parts with the whole consistently altering the whole with his parts Eric Wilson author of *Emerson's Sublime Science* In arguing for the centrally moral and ethical value of Thoreau's works Tauber is taking a brave stance in these slippery postmodern times It's one thing to praise Thoreau for his opposition to the Mexican War his philosophy of passive resistance and his fervent opposition to slavery It's quite another to argue that his entire project his whole sense of identity self formation and his relation to nature is part of a deeply moral enterprise Thoreau's modernity has been defined in many ways in recent years Tauber adds another important and distinctive dimension to this discussion H Daniel Peck John Guy Vassar Professor of English Vassar College **Historical Dialogue and the Prevention of Mass Atrocities** Elazar Barkan, Constantin Goscler, James Waller, 2020-04-06 This book brings together a diverse range of international voices from academia policymaking and civil society to address the failure to connect historical dialogue with atrocity prevention discourse and provide insight into how conflict histories and historical memory act as dynamic forces actively facilitating or deterring current and future conflict Established on a variety of international case studies combining theoretical and practical points of view the book envisions an integrated understanding of how historical dialogue can inform policy education and the practice of atrocity prevention In doing so it provides a vital basis for the development of preventive policies sensitive to the importance of conflict histories and for further academic study on the topic It will be of interest to all scholars and students of history psychology peace studies international relations and political science *The Parameters of Urban Fiscal Policy* Terrence J. McDonald, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1986 Memory and Authority Jack M. Balkin, 2024-02-27 From one of the nation's preeminent constitutional scholars a sweeping rethinking of the uses of history in constitutional interpretation Fights over history are at the heart of most important constitutional disputes in America The Supreme Court's current embrace of originalism is only the most recent

example of how lawyers and judges try to use history to establish authority for their positions Jack M Balkin argues that fights over constitutional interpretation are often fights over collective memory Lawyers and judges construct and erase memory to lend authority to their present day views they make the past speak their values so they can then claim to follow it The seemingly opposed camps of originalism and living constitutionalism are actually mirror images of a single phenomenon how lawyers use history to adapt an ancient constitution to a constantly changing world Balkin shows how lawyers and judges channel history through standard forms of legal argument that shape how they use history and even what they see in history He explains how lawyers and judges invoke history selectively to construct authority for their claims and undermine the authority of opposing views And he elucidates the perpetual quarrel between historians and lawyers showing how the two can best join issue in legal disputes This book is a sweeping rethinking of the uses of history in constitutional interpretation

Engines of the Black Power Movement James L. Conyers, Jr.,2006-12-26 The decade of the 1960s was an era of protest in America and strides toward racial equality were among the most profound effects of the challenges to America s status quo But have civil rights for African Americans been furthered or even maintained in the four decades since the Civil Rights movement began To a certain extent the movement is popularly perceived as having regressed with the real issues tabled or hidden With a view to assessing losses and gains this collection of 17 essays examines the evolution and perception of the African American civil rights movement from its inception through today

Contemplating Historical Consciousness Anna Clark,Carla L. Peck,2018-12-17 The last several decades have witnessed an explosion of new empirical research into representations of the past and the conditions of their production prompting claims that we have entered a new era in which the past has become more present than ever before *Contemplating Historical Consciousness* brings together leading historians ethnographers and other scholars who give illuminating reflections on the aims methods and conceptualization of their own research as well as the successes and failures they have encountered This rich collective account provides valuable perspectives for current scholars while charting new avenues for future research

The Palgrave Handbook of History and Social Studies Education Christopher W. Berg,Theodore M. Christou,2020-04-03 This Handbook presents an international collection of essays examining history education past and present Framing recent curriculum reforms in Canada and in the United States in light of a century long debate between the relationship between theory and practice this collection contextualizes the debate by exploring the evolution of history and social studies education within their state or national contexts With contributions ranging from Canada Finland New Zealand Sweden the Netherlands the Republic of South Africa the United Kingdom and the United States chapters illuminate the ways in which curriculum theorists and academic researchers are working with curriculum developers and educators to translate and refine notions of historical thinking or inquiry as well as pedagogical practice
