Eucharist Symbol Of Transformation:

Eucharist William R. Crockett, 1989 Doctor Crockett traces the evolution of Eucharistic traditions which reflect the cultural diversity characteristic of the regions in which they were produced and compares them to our Eucharistic celebrations today exploring as well the relationship between Eucharist and justice Change and Transformation Thomas P. Power, 2013-08-21 The integrative theme of this collection of essays is change and transformation explored in the context of diverse expressions within the context of Anglican Church history It addresses some central themes notably the sacraments liturgy biblical interpretation theological education the relationship of church and state governance and authority and Christian education The volume traces Anglican Church history chronologically It includes a comparative study of penance in the thought of John Wyclif and Thomas Cranmer The book also treats the dispersal of authority evident in the development of the Book of Common Prayer and the King James Bible consensus in eucharistic theology in the seventeenth century and developments in biblical interpretation in the early eighteenth century This book also discusses a vision for the Christian education of children change in theological education in the 1830s the metanarrative of continuity developed by High Church historians in the late nineteenth century increasing self government in the Church at the outset of the twentieth century and models of governance at the outset of the twenty first While this collection highlights aspects of change and transformation as an integrative theme it is not its premise that change was normative or pervasive perpetual or constant within Anglicanism Nevertheless these essays raise some new lines of inquiry make some suggestive interpretations or propose revision of accepted views Become What You Receive: A Systematic Study of the Eucharist John H. McKenna, CM, 2022-01-07 In this remarkable book theologian and teacher Rev John McKenna examines our use of sign and symbol as it pertains to the study of the Eucharist the source and summit of the Church In clear and accessible language he clarifies the use of sign and symbol from anthropological phenomenological Old and New Testament perspectives He expertly analyzes historical backgrounds as well as current eucharistic theologies The Presence of Christ in the Gathered Assembly Judith M. Kubicki, 2006-11-15 The Dogmatic Constitution on the Sacred Liturgy of Vatican II reiterates the church's traditional teaching on the manifold presence of Christ in his church especially in liturgical celebrations in the priest the consecrated bread and wine the sacraments and when the gathered church prays and sings Nevertheless there continues to exist in both scholarly writing and popular piety an almost exclusive focus on the presence of Christ in the eucharistic species The purpose of this book is to examine the most elusive mode of the manifold presence of Christ mentioned above that is as it is symbolized within the assembly that gathers for worship Using the resources of several contemporary philosophical approaches including semiotics phenomenology personalism and existentialism the book draws attention to the forgotten or less understood aspects of the belief in the presence of Christ in the gathered assembly and explores the implications of this belief for participating in the liturgy and living the Christian life While the book is scholarly in tone it has extremely practical

ramifications for the ways in which the mass should be celebrated in millions of Catholic parishes around the world The Early Church at Work and Worship - Volume 3 Everett Ferguson, 2017-10-19 This is the third volume of Ferguson's collected essays and includes some of his most memorable work especially on laying on of hands Eucharistic Sacramentality in an Ecumenical Context David J. Kennedy, 2016-04-22 This book explores the epiclesis or invocation of the Holy Spirit in the Eucharistic Prayer using the Anglican tradition as an historical model of a communion of churches in conscious theological and liturgical dialogue with Christian antiquity Incorporating major studies of England North America and the Indian sub Continent the author includes an exposition of Inter Church ecumenical dialogue and the historic divisions between western and eastern Eucharistic traditions and twentieth century ecumenical endeavour This unique study of the relationship between theology and liturgical text commends a theology and spirituality which celebrates the presence of the Holy Spirit in the Eucharist as present and eschatological gift It thus sets historic contemporary and ecumenical divisions in a new theological context **The Eucharistic Liturgies** Paul F. Bradshaw, Maxwell E. Johnson, 2012-06-01 In graduate theology programs across the United States and elsewhere Maxwell Johnson's *The Rites of Christian Initiation Their Evolution and Interpretation* has become a standard text Now Johnson and Paul Bradshaw together offer a companion volume on the historical development of the liturgy and theology of the Eucharist Like the earlier volume this study proceeds historically from the origins of the Eucharist up to our own day Unlike most studies of this kind it includes an introduction to and developmental summary of the diverse eucharistic liturgies of the Christian East It also explores the various Western rites Ambrosian Gallican and Mozarabic in addition to the Roman With regard to theological themes the authors give special attention to the topics of real presence including the consecration of the bread and wine and eucharistic sacrifice the most central and most ecumenically challenging issues since the sixteenth century Reformations Making the book especially teacher and student friendly are the summary points at the end of each chapter Each chapter also contains an abundance of liturgical texts for ease of reference **Eating Christ's Flesh** Steven Nemes, 2023-10-19 What does it mean to eat Christ's flesh John 6:53 And what does this eating have to do with the bread and wine of the eucharistic meal which Jesus called his body and blood 1 Cor 11:23-25 These are central questions in the theology of the Eucharist Memorialism says that to eat Christ's flesh is to take joy in Christ's person and work The bread and wine of the Eucharist make it possible to engage in this sort of eating sacramentally by serving as symbols that represent Christ's person and work This book presents a systematic case for memorialism It addresses the biblical loci classici the bread of life discourse the words of institution and 1 Corinthians important early church sources the Didache Ignatius Justin Martyr Irenaeus and Tertullian and the philosophical phenomenological interpretation of the Eucharist in Huldrych Zwingli and Michel Henry It also argues against the alternative pneumatic and real presence paradigms in conversation with their historic and contemporary advocates **A Companion to Anglican Eucharistic Theology** Brian Douglas, 2011-11-25 Anglican eucharistic theology varies between the different

philosophical assumptions of realism and nominalism Whereas realism links the signs of the Eucharist with what they signify in a real way nominalism sees these signs as reminders only of past and completed transaction This book begins by discussing the multifomity of the philosophical assumptions underlying Anglican eucharistic theology and goes on to present extensive case study material which exemplify these different assumptions from the Reformation to the Nineteenth century By examining the multiformity of philosophical assumptions this book avoids the hermeneutic idealism of particular church parties and looks instead at the Anglican eucharistic tradition in a more critical manner Liturgy for Living Charles P. Eucharistic Presence Robert Sokolowski, 1994 In this insightful interdisciplinary study Robert Sokolowski uses the methods of phenomenology to examine Christian religious beliefs particularly the sacrament of the Eucharist In so doing he comes to terms with many theological and cultural issues raised by modernity Although the Eucharist is the center of focus other issues in Christian faith are also examined such as the Christian understanding of God Creation the Incarnation Redemption and biblical Revelation Sokolowski employs a method that he calls the theology of disclosure which studies the structures of appearance and should be distinguished from both positive and scholastic theology He takes appearances as objective disclosures not as mere psychological events When discussing the Eucharist he shows how it uses the form of quotation and how it draws on various temporal dimensions of human existence as it reenacts the sacrifice of Christ before the eternal Father The author also considers how Christian belief differs from other forms of religion and from modern atheism By demonstrating how the Christian understanding of God differs from other ways of understanding the divine he attempts to show that Christianity is not simply one religion among many but the truth of religion These deeper themes are explored as necessary contexts for the Eucharist which could not be properly understood except against the background of the Christian understanding of God as eternal and as Creator and Redeemer The author provides a comprehensive theological treatment of major issues in Christian faith and does so with categories that are appropriate to our present intellectual and cultural world This study which draws upon the work of many classical and contemporary theologians especially Hans Urs von Balthasar contributes significantly to speculative theology and to Eucharistic studies It will be of great use to theologians and philosophers as well as to students of Christian philosophy and sacramental theology Robert Sokolowski a priest of the Archdiocese of Hartford has taught philosophy at The

Catholic University of America since 1963 He has written six books and numerous articles dealing with phenomenology philosophy and Christian faith moral philosophy and issues in contemporary science He has been an auxiliary chaplain at Bolling Air Force Base in Washington D C since 1976 and was named monsignor in 1993 Indispensable for graduate and divinity programs with interests in Catholic theology and phenomenology of religions Religious Studies Review Intellectually stimulating The author contributes many insights to the theology of the Eucharist some of which I had never seen before and found enlightening and moving The depth of his scholarship is obvious Rev James T O Connor St Joseph s Seminary New York A careful reading of this profound analysis of the Holy Eucharist will be rewarded with a more fruitful participation at Mass Here we find a modern model of the Catholic theologian who shows us in the concrete how to practice faith seeking understanding Kenneth Baker S J Editor Homiletic and Pastoral Review

Metaphors of Eucharistic Presence Stephen R. Shaver, 2021-12-14 One of the most challenging questions for Christian ecumenical theology is how the relationship between the eucharistic bread and wine and Jesus Christ s body and blood can be appropriately described This book takes a new approach to controverted questions of eucharistic presence by drawing on cognitive linguistics Arguing that human cognition is grounded in sensorimotor experience and that phenomena such as metaphor and conceptual blending are basic building blocks of thought the book proposes that inherited models of eucharistic presence are not necessarily mutually exclusive but can serve as complementary members of a shared ecumenical repertoire The central element of this repertoire is the motif of identity grounded in the Synoptic and Pauline institution narratives The book argues that the statement The eucharistic bread and wine are the body and blood of Christ can be understood both as figurative and as true in the proper sense thus resolving a church dividing dichotomy The identity motif is complemented by four major non scriptural motifs representation change containment and conduit Each motif with its entailments is explored in depth and suggestions for ecumenical reconciliation in both doctrine and practices are offered The book also provides an introduction to cognitive linguistics and offers suggestions for further reading in that field

Forms of faith Jonathan Baldo, Isabel Karremann, 2017-06-12 This book explores the role of literature as a means of mediating religious conflict in early modern England Marking a new stage in the religious turn that generated vigorous discussion of the changes and conflicts brought about by the Reformation it unites new historicist readings with an interest in the ideological significance of aesthetic form It proceeds from the assumption that confessional differences did not always erupt into hostilities but that people also had to arrange themselves with divided loyalties between the old faith and the new between religious and secular interests between officially sanctioned and privately held beliefs What role might literature have played here Can we conceive of literary representations as possible sites of de escalation Do different discursive aesthetic or social contexts inflect or deflect the demands of religious loyalties Such questions open a new perspective on post Reformation English culture and literature
