Eunomius Of Cyzicus And The Nicene Revolution:

Eunomius of Cyzicus and the Nicene Revolution Richard Paul Vaggione, 2000 Full and fascinating Vaggione's study is to be welcomed The Expository Times Dr Vaggione's book is the first to provide a full survey of the issues doctrinal and church political involved in the rise and fall of Anomean theology and of its relation to the Nicene settlement Dr Vaggione has read his sources with great subtlety and uses what you might think meagre materials to considerable effect ADAMANTIUS Journal of the Italian Research Group on Origen and the Alexandrian Tradition A distinguished and most learned study Journal of Ecclesiastical History Full and fascinating Vaggione's study is to be welcomed Expository Times The doctrine of the Trinity has been central to Christian faith since the fourth century but it is often the cause of more confusion than understanding The author here overcomes this by looking at it from the point of view of one who vehemently rejected it Eunomius of Cyzicus was condemned as a heretic during his lifetime in the fourth century and after Richard Paul Vaggione uses Eunomius' life to examine how the whole Christian community including ordinary men and women helped determine how this often abused doctrine was and is understood *The Ecumenical Legacy of the Cappadocians* Nicu Dumitra?cu, 2016-04-29 This book brings the Cappadocian Fathers to life and explores their contributions to subsequent Christian thought Melding together a thematic and individualized approach the book examines Cappadocian thought in relation to Greek philosophy and the musings of other Christian thinkers of the time The volume is unique in that it details the Cappadocian legacy upon the three central divisions of Christianity rather than focusing on one confession Providing a multifaceted assessment of the spirituality and beliefs of the fourth century Church contributors interweave historical studies into their philosophical and theological discussions The volume draws together an international team of scholars from a variety of academic backgrounds including philosophy theology and Classics The contributors bring their unique perspectives to bear on their analysis of the Cappadocians' theological contributions Special attention is given to the Cappadocians' influence on pneumatology Christology and ethics *The Ecumenical Legacy of the Cappadocians* sets the Cappadocians' theoretical views in relief against the political and historical background of their day enlivening and vivifying the analysis with engaging biographical sketches **Antioch, Nicaea, and the Synthesis of Constantinople** Dragoş A. Giulea, 2024-03-04 In *Antioch Nicaea and the Synthesis of Constantinople* Drago Andrei Giulea delineates a new map of the theological trajectories involved in the fourth century Christological debates and envisions the solution of Constantinople 381 as a synthesis of the two theoretical paradigms produced at the councils of Antioch 268 and Nicaea 325 The author argues that the main theological trajectories participating in the debate were the Antiochene the Arian the Nicene the Homoian and the pro Nicene Giulea redefines the pro Nicene theology which dominated the discussions of Constantinople 381 as a synthesis of the most effective metaphysical categories of Antioch and Nicaea Basil of Caesarea initiated the pro Nicene synthesis by developing a dual Trinitarian discourse simultaneously securing ontological individuality and divine unity

Storin, 2019-09-03 A seminal figure in late antique Christianity and Christian orthodoxy Saint Gregory of Nazianzus published a collection of more than 240 letters Whereas these letters have often been cast aside as readers turn to his theological orations or autobiographical poetry for insight into his life thought and times *Self Portrait in Three Colors* focuses squarely on them building a provocative case that the finalized collection constitutes not an epistolary archive but an autobiography in epistolary form a single text composed to secure his status among provincial contemporaries and later generations Shedding light on late ancient letter writing fourth century Christian intelligentsia Christianity and classical culture and the Christianization of Roman society these letters offer a fascinating and unique view of Gregory s life engagement with literary culture and leadership in the church As a single unit this autobiographical epistolary collection proved a powerful tool in Gregory s attempts to govern the contours of his authorial image as well as his provincial and ecclesiastical legacy

Kellia Evagrius Ponticus is a fascinating yet enigmatic figure in the history of fourth century mystical thought This historical and theological re evaluation of the teaching of Evagrius brings to bear evidence from the Greek and Syriac Evagriana Focusing on Evagrius concept of perfection as the acquisition of spiritual knowledge this book revisits current perceptions of Evagrius s thought and character by comparing and contrasting him with his contemporaries and predecessors both Christian and pagan Ideas of the three Cappadocians and the author of the *Macariana* as well as Stoic Neo Platonic and earlier Christian writers such as Alcinoos Plotinus Clement and Origen are all explored Konstantinovskiy draws attention to a

lack of uniformity in the fourth century views on the origin of the soul the body soul relation and the eschatological destiny of humankind

Controlling Contested Places Christine Shepardson, 2019-05-14 From constructing new buildings to describing rival controlled areas as morally and physically dangerous leaders in late antiquity fundamentally shaped their physical environment and thus the events that unfolded within it *Controlling Contested Places* maps the city of Antioch Antakya Turkey through the topographically sensitive vocabulary of cultural geography demonstrating the critical role played by physical and rhetorical spatial contests during the tumultuous fourth century Paying close attention to the manipulation of physical places Christine Shepardson exposes some of the powerful forces that structured the development of religious orthodoxy and orthopraxy in the late Roman Empire Theological claims and political support were not the only significant factors in determining which Christian communities gained authority around the Empire Rather Antioch's urban and rural places far from being an inert backdrop against which events transpired were ever shifting sites of and tools for the negotiation of power authority and religious identity This book traces the ways in which leaders like John Chrysostom Theodoret and Libanius encouraged their audiences to modify their daily behaviors and transform their interpretation of the world and landscape around them Shepardson argues that examples from Antioch were echoed around the Mediterranean world and similar types of physical and rhetorical manipulations continue to shape the politics of identity and perceptions of religious orthodoxy to this day

The Spirit of Early Christian Thought Robert Louis Wilken, 2003-01-01 Many of the problems afflicting American education are the result of a critical shortage of qualified teachers in the classrooms The teacher crisis is surprisingly resistant to reforms and is getting worse This analysis of the causes underlying the crisis seeks to offer concrete affordable proposals for effective reform Vivian Troen and Katherine Boles two experienced classroom teachers and education consultants argue that because teachers are recruited from a pool of underqualified candidates given inadequate preparation and dropped into a culture of isolation without mentoring support or incentives for excellence they are programmed to fail Half quit within their first five years Troen and Boles offer an alternative a model of reform they call the Millennium School which changes the way teachers work and improves the quality of their teaching When teaching becomes a real profession they contend more academically able people will be drawn into it colleges will be forced to improve the quality of their education and better prepared teachers will enter the classroom and improve the profession

Byzantine Orthodoxies Augustine Casiday, Andrew Louth, 2017-09-29 The Byzantine Empire the Christianized Roman Empire very soon defined itself in terms of correct theological belief orthodoxy The terms of this belief were hammered out for the most part by bishops but doctrinal decisions were made in councils called by the Emperors many of whom involved themselves directly in the definition of orthodoxy Iconoclasm was an example of such imperial involvement as was the final overthrow of iconoclasm That controversy ensured that questions of Christian art were also seen by Byzantines as implicated in the question of orthodoxy The papers gathered in this volume derive from those presented at the 36th Spring Symposium of Byzantine Studies Durham March 2002 They discuss how orthodoxy was defined and the different interests that it represented how orthodoxy was expressed in art and the music of the liturgy and how orthodoxy helped shape the Byzantine Empire's sense of its own identity an identity defined against the other Jews heretics and especially from the turn of the first millennium the Latin West These considerations raise wider questions about the way in which societies and groups use world views and issues of belief to express and articulate identity At a time when with the enlargement of the European Union questions of identity within Europe are once again becoming pressing there is much in these essays of topical relevance

The Trinitarian Theology of Hilary of Poitiers Mark Weedman, 2007-11-30 When Hilary of Poitiers was exiled from his native Poitiers in Gaul to Cappadocia his entire theological sensibility changed The Latin bishop schooled in the tradition of Tertullian and Novatian became a full throated participant in the Trinitarian controversies of his time This book offers a new reading of Hilary's Trinitarian theology that takes into account the historical context of Hilary's thought It first examines this context and the course of Hilary's engagement with his Homoian opponents It then turns to the key themes of Hilary's theology as he worked them out in that context The result is a work that not only

helps clarify Hilary's theology but that offers new insight into the Trinitarian controversies as a whole *Arianism: Roman Heresy and Barbarian Creed* Guido M. Berndt, 2016-04-15 This is the first volume to attempt a comprehensive overview of the evolution of the Arian churches in the Roman world of Late Antiquity and their political importance in the late Roman kingdoms of the 5th-6th centuries ruled by barbarian warrior elites. Bringing together researchers from the disciplines of theology, history, and archaeology and providing an extensive bibliography, it constitutes a breakthrough in a field largely neglected in historical studies. A polemical term coined by the Orthodox Church, the side that prevailed in the Trinitarian disputes of the 4th century C.E. for its opponents in theology as well as in ecclesiastical politics, Arianism has often been seen as too complicated to understand outside the group of theological specialists dealing with it and has therefore sometimes been ignored in historical studies. The studies here offer an introduction to the subject grounded in the historical context, then examine the adoption of Arian Christianity among the Gothic contingents of the Roman army and its subsequent diffusion in the barbarian kingdoms of the late Roman world.
