East central Europe Milorad M. Drachkovitch, Hoover Institution on War, Revolution, and Peace, 1969 Reader's Guide to the Social Sciences Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense **Problems of Communism**, 1979 The Dialectics of Democracy Dimitrios Kivotidis, 2024-03-05 This book examines how the democratic form and the struggle for democracy reflects influences and shapes the struggle for social emancipation In the context of increased exploitation rising inequality and intensified struggle for social justice in the aftermath of the economic crisis the channelling of populism through liberal democratic institutions has had contradictory effects giving rise to both Corbyn and Brexit Sanders and Trump Syriza and the Golden Dawn to name but a few How can we make sense of these developments In response this book approaches the idea of democracy from a socialist constitutionalist standpoint and explores institutional forms and principles that challenge and aim at the transformation of the extant social order This process involves the challenging of well established ideas of the liberal viewpoint as well as an unwavering focus on the issue of class rule which enables the highlighting of limitations of not only mainstream but also heterodox contemporary approaches to constitutionalism and democracy Ultimately democracy is conceived as a process of struggle for creating the conditions material as well as intellectual for its actualisation This significant work of legal and political theory will be of considerable interest to those working in these areas to make sense of contemporary developments and to further the causes of social justice and social emancipation *The Communist Parties of Italy, France and Spain* Peter Lange, Maurizio Vannicelli, 2021-06-29 First published in 1981 The Communist Parties of Italy France and Spain presents a comparative and integrative overview of the development of three Communist parties in the postwar Europe Through the systematic

presentation of the most important documents of the Communist parties the book provides an access to the basic declarations and positions to illustrate the strategic and ideological evolution of these three parties in the advanced industrial democracies Eurocommunism the editors argue cannot be usefully understood as a phenomenon which suddenly appeared and equally as rapidly disappeared in the 1970s Rather it is a process of adaptation and change which characterizes the development of all three parties since World War II The explicitly comparative organisation of the documents into five basic themes general strategy alliances party organization international policy policy toward the communist movement allows the reader both to follow any single party in a specific policy area or to compare the parties in response to major domestic or international events of significance Rich in archival material this book will be an invaluable resource to scholars and researchers of European Politics comparative politics comparative communism and modern European history

The Rise of Christian Democracy in Europe Stathis N. Kalyvas, 2018-09-05 Although dominant in West European politics for more than a century Christian Democratic parties remain largely unexplored and little understood An investigation of how political identities and parties form this book considers the origins of Christian Democratic confessional parties within the political context of Western Europe Examining five countries where a successful confessional party emerged Belgium the Netherlands Austria Germany and Italy and one where it did not France Stathis N Kalyvas addresses perplexing questions raised by the Christian Democratic phenomenon How can we reconcile the religious roots of these parties with their tremendous success and resilience in secular and democratic Western Europe Why have these parties discarded their initial principles and objectives to become secular forces governing secular societies The author's answers reveal the way in which social and political actors make decisions based on self interest under conditions that constrain their choices and the information they rely on often

with unintended but irrevocable consequences Kalyvas also lays a foundation for a theory of the Christian Democratic phenomenon which would specify the conditions under which confessional parties succeed and would determine the impact of such parties and the way they are formed on politics and society Drawing from political science sociology and history his analysis goes beyond Christian Democracy to address issues related to the methodology of political science the theory of party formation the political development of Europe the relationship between religion and politics the construction of collective political identities and the role of agency and contingency in politics Continuity and Change in Marxism
