Eurocommunism Its Roots And Future In Italy And Elsewhere:

Euro-communism George R. Urban,1978 Eurocommunism Ioannis Balampanidis,2018-11-09 Eurocommunism constitutes a moment of great transformation connecting the past and the present of the European Left a political project by means of which left wing politics in Europe effected a definitive transition to a thoroughly different paradigm It rose in the wake of 1968 that pivotal year of social revolt and rethinking that caused a divide between radical progressive and socialist thinking in western and southern Europe and the Soviet model Communist parties in Italy France Spain and Greece changed tack drew on the dynamics of social radicalism of the time and came to be associated with political moderation liberal democracy and negotiation rather than contentious politics forging a movement that would hold influence until the early 1980s Eurocommunism thus wove an original political synthesis delineated against both the revolutionary Left and the social democracy party of struggle and party of governance **The Communist Parties of Italy, France and Spain** Peter Lange,Maurizio Vannicelli,2021-06-29 First published in 1981 The Communist Parties of Italy France and Spain presents a comparative and integrative overview of the development of three Communist parties in the postwar Europe Through the systematic presentation of the most important documents of the Communist parties the book provides an access to the basic declarations and positions to illustrate the strategic and ideological evolution of these three parties in the advanced industrial democracies Eurocommunism the editors argue cannot be usefully understood as a phenomenon which suddenly appeared and equally as rapidly disappeared in the 1970s Rather it is a process of adaptation and change which characterizes the development of all three parties since World War II The explicitly comparative organisation of the documents into five basic themes general strategy alliances party organization international policy policy toward the communist movement allows the reader both to follow any single party in a specific policy area or to compare the parties in response to major domestic or international events of significance Rich in archival material this book will be an invaluable resource to scholars and researchers of European Politics comparative politics comparative communism and modern European history The Communist International and US Communism, 1919-1929 Jacob Zumoff,2014-08-21 Since the Cold War most historians have set up an opposition between the American and international aspects of early American Communism This book examines the development of the Communist Party in its first decade from 1919 to 1929 Using the archives of the Communist International this book in contrast to previous studies argues that the International played an important role in the early part of this decade in forcing the party to Americanise Special attention is given to the attempts by the Comintern to orient American Communists on the role of black oppression and to see the struggle for black liberation and the fight for socialism as inextricably linked The later sections of the book provide the most detailed account now available of how the Comintern reflecting the Stalinisation of the Soviet Union intervened in the American party to ensure the Stalinisation of American Communism *The Changing Face of Western Communism* David Childs,2015-07-30 This book

first published in 1980 provides both a broad review and detailed analysis of the major issues that had been affecting the changing relations between Moscow and the other European Communist parties In discussing the Spanish Italian French and Scandinavian communist parties the individual contributors expose the weaknesses as well as the strengths of the parties and analyse the ideological and sociological roots This title will be of interest to students of politics

The Communist Party of Great Britain and the National Question in Wales, 1920-1991 Douglas Jones, 2017-10-15 While electorally weak the Communist Party of Great Britain and its Welsh Committee was a constant feature of twentieth century Welsh politics in particular through its influence in the trade union movement Based on original archival research the present volume offers the first in depth study of the Communist Party's attitude to devolution in Wales to Welsh nationhood and Welsh identity as well as examining the party's relationship with the Labour Party Plaid Cymru and the labour and nationalist movements in relation to these issues Placing the party's engagement of these issues within the context of the rapid changes in twentieth century Welsh society debates on devolution and identity on the British left the role of nationalism within the communist movement and the interplay of international and domestic factors the volume provides new insight into the development of ideas by the political left on devolution and identity in Wales during the twentieth century It also offers a broad outline of the party's policy in relation to Wales during the twentieth century and an assessment of the role played by leading figures in the Welsh party in developing its policy on Wales and devolution

The Decline Of The World Communist Movement Heinz Timmermann, 2019-07-11 International Communism today is split on a number of ideological and political issues and is incapable of the kind of unified action implied by the term movement So argues Heinz Timmermann in this assessment of the current state of world Communism Dr Timmermann discusses the historical concept of a world Communist movement in connection with the USSR and China Focusing on Communism in the West he examines such diverse groups as the Communist parties in Italy France Portugal Cyprus Chile and Japan Communist parties in the West are increasingly adjusting their policies to better fit their own cultures and the author links this independence to the emphasis the Soviet Union's Communist Party has been placing on the specifically Russian character of the October Revolution and Soviet state interests Apparently Moscow is now showing some flexibility in its response to tendencies toward differentiation and pluralism within the system of Communist parties Gorbachev is less concerned with ideological orthodoxy than with Communists effectively supporting Soviet foreign policy The author argues that by acceding to the concept of unity in diversity Gorbachev is signaling that the Soviet leadership is willing to look beyond the myth of a world Communist movement

The German Question and the International Order, 1943-48 N. Lewkowicz, 2010-09-30 An analysis of the German Question's influence on the origins of the Cold War arguing that the legal and diplomatic intercourse between the Allies regarding the treatment of the German Question brought forward the elements of intervention and coexistence which formed the basis for a relatively peaceful postwar international order

workers Darragh Golden posits that the likelihood of unions continuing support for European integration is contingent on their coping mechanisms in a transnational labour market This book shows that labour Euroscepticism has sociological rather than ethno culturalist roots By drawing on in depth empirical research the book thus goes beyond methodological nationalism and culturalist explanations both prevalent in current scholarship on European integration **The Institutions of Comecon** Giuseppe Schiavone,1981-06-18 *Modern Italy* Denis Mack Smith,1997 A new edition of the classic historical text on Italy *Eurocommunism* George R. Urban,1978 From Marx to Lenin David W. Lovell,1984-07-19 This study is a contribution to the debate begun just after the October Revolution concerning the relationship between Marx s project and Soviet society It focuses however only on the political aspects of the matter to what extent was early Soviet authoritarianism the necessary outcome of Marx s works Since Lenin s practice and theory largely determined and justified the early political character of the Soviet state we may ask whether Lenin was implementing Marx s project or a project of his own design Lenin influenced by debates within Social Democracy and by the experience of the Russian revolutionary tradition used a one sided interpretation of Marx s work to build and defend a transition which was fundamentally authoritarian Marx was not causally responsible for the theoretical foundation of Soviet authoritarianism **Internationalisms** Glenda Sluga,Patricia Clavin,2017 This book offers a new view of the twentieth century placing international ideas and institutions at its heart
