Books in Early Modern Norway Gina Dahl, 2011-07-12 During recent decades much has been written about early modern book distribution but until now Norway has been absent from the discussion Drawing on book listings this study seeks to fill this lacuna by exploring the market for books in early modern Norway Its approach is multifaceted consideration of the types of books accessed by different elements of Norwegian society is set alongside developments within the book market itself such as the extended life of popular books the gradual replacement of Latin by the vernacular and the rise in the eighteenth century in the number of books available on the market The study demonstrates the internationality of the Norwegian book market while acknowledging specific patterns that determine its Norwegian character

The Oxford Handbook of Early Modern European History, 1350-1750 Hamish Scott, 2015-07-23 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy Judaism and Islam

[The Ashgate Research Companion to the Thirty Years' War](#) Olaf Asbach, Peter Schröder, 2016-03-23 The Thirty Years War 1618 1648 remains a puzzling and complex subject for students and scholars

alike This is hardly surprising since it is often contested among historians whether it is actually appropriate to speak of a single war or a series of conflicts Similarly emphasis is also put on the different motives for going to war as conflicting religious and political interests were involved This research companion brings together leading scholars in the field to synthesize the range of existing research on the war which is still fragmented and divided along national historical lines and to further explore the complexities of the conflict using an innovative comparative approach The companion is designed to provide scholars and graduate students with a comprehensive and authoritative overview of research on one of the most destructive conflicts in European history

Freedom's Progress? Gerard Casey, 2021-10-04 In *Freedom's Progress* Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism from the primacy of the collective to the fragile centrality of the individual person and of freedom Such a transition is he argues neither automatic nor complete nor are relapses to tribalism impossible The reason for the fragility of freedom is simple the importance of individual freedom is simply not obvious to everyone Most people want security in this world not liberty Libertarians writes Max Eastman used to tell us that the love of freedom is the strongest of political motives but recent events have taught us the extravagance of this opinion The herd instinct and the yearning for paternal authority are often as strong Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history The charm of the collective exercises a perennial magnetic attraction for the human spirit In the 20th century Fascism Bolshevism and National Socialism were Casey argues each of them a return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses Thinkers you would expect to feature in a history of political thought feature in this book Plato Aristotle Machiavelli Locke Mill and Marx but you will also find thinkers treated in *Freedom's Progress* who don't usually show up in standard accounts Johannes Althusius Immanuel Kant William Godwin Max Stirner Joseph Proudhon Mikhail Bakunin Pyotr Kropotkin Josiah Warren Benjamin Tucker and Auberon Herbert *Freedom's Progress* also contains discussions of the broader social and cultural contexts in which politics takes its place with chapters on slavery Christianity the universities cities Feudalism law kingship the Reformation the English Revolution and what Casey calls Twentieth Century Tribalisms Bolshevism Fascism and National Socialism and an extensive chapter on human prehistory

Facing Fear Michael Laffan, Max Weiss, 2012-10-14 Fear is ubiquitous but slippery It has been defined as a purely biological reality derided as an excuse for cowardice attacked as a force for social control and even denigrated as an unnatural condition that has no place in the disenchanted world of enlightened modernity In these times of institutionalized insecurity and global terror *Facing Fear* sheds light on the meaning diversity and dynamism of fear in multiple world historical contexts and demonstrates how fear universally binds us to particular presents but also to a broad spectrum of memories stories and states in the past From the eighteenth century Peruvian highlands and the California borderlands to the urban cityscapes of contemporary Russia and India this book

collectively explores the wide range of causes experiences and explanations of this protean emotion The volume contributes to the thriving literature on the history of emotions and destabilizes narratives that have often understood fear in very specific linguistic cultural and geographical settings Rather by using a comparative multidisciplinary framework the book situates fear in more global terms breaks new ground in the historical and cultural analysis of emotions and sets out a new agenda for further research In addition to the editors the contributors are Alexander Etkind Lisbeth Haas Andreas Killen David Lederer Melani McAlister Ronald Schechter Marla Stone Ravi Sundaram and Charles Walker *Witchcraft, Madness, Society, and Religion in Early Modern Germany* H.C. Erik Midelfort, 2024-10-28 H C Erik Midelfort has carved out a reputation for innovative work on early modern German history with a particular focus on the social history of ideas and religion This collection pulls together some of his best work on the related subjects of witchcraft the history of madness and psychology demonology exorcism and the social history of religious change in early modern Europe Several of the pieces reprinted here constitute reviews of recent scholarly literature on their topics while others offer sharp departures from conventional wisdom A critique of Michel Foucault's view of the history of madness proved both stimulating but irritating to Foucault's most faithful readers so it is reprinted here along with a short retrospective comment by the author Another focus of this collection is the social history of the Holy Roman Empire where towns peasants and noble families developed different perceptions of the Protestant and Catholic Reformations and of the options the religious revolutions of the sixteenth century offered Finally this collection also brings together articles which show how Freudian psychoanalysis and academic sociology have filtered and interpreted the history of early modern Germany

Confessional Diplomacy in Early Modern Europe Roberta Anderson, Charlotte Backerra, 2020-12-14 Confessional Diplomacy in Early Modern Europe examines the role of religion in early modern European diplomacy In the period following the Reformations Europe became divided all over the continent princes and their peoples split over theological liturgical and spiritual matters At the same time diplomacy rose as a means of communication and policy and all powers established long or short term embassies and sent envoys to other courts and capitals The book addresses three critical areas where questions of religion or confession played a role papal diplomacy priests and other clerics as diplomatic agents and religion as a question for diplomatic debate especially concerning embassy chapels

Real Lives in the Sixteenth Century Rebecca Ard Boone, 2018-04-19 Real Lives in the Sixteenth Century presents a global history using four sets of biographies to illustrate similar situations in different geographical regions The vibrant narratives span four continents and include the following pairs Henry IV of France and Hideyoshi of Japan H rrem Sultan Roxelana of the Ottoman Empire and Lady Zheng of the Ming Dynasty Afonso I of Kongo and Elizabeth I of England and Pope Clement VII and Moctezuma II of Mexico Through exploring the lives of eight individuals from a variety of cultural settings this book encourages students to think about the big questions surrounding human interactions and the dynamics of power It introduces them to a number of key historical concepts such as feudalism

dynasticism religious syncretism and slavery and is a springboard into the history of the wider world blending together aspects of political cultural intellectual and material history Accessibly written and containing timelines genealogical tables and a number of illustrations for each biography *Real Lives in the Sixteenth Century* is the ideal introductory text for undergraduates of pre modern World History and of the sixteenth century in particular *A World Ablaze* Craig Harline, 2017 It s not always easy to find the human Martin Luther underneath the centuries of accumulated myth *A World Ablaze* focuses on the drama and uncertainty of the first few critical years of Luther s rise when his personal struggles with salvation were transformed into a crisis of Christendom *From the Shadows into the Sunlight* Rick Kelly, 2021-01-27 All Americans should welcome the opportunity to move forward into a better future for America and for all Americans while mending ancient wounds from the nations original sin and at the same time seek to remediate the lingering ills and inflicted hardships still present to this day that divides the nation s people such that some Americans still feel relegated to second class citizenship Courageous people of all faiths of goodwill and of conscience can impart heartfelt support for a new emancipation that moves toward freeing both black and white Americans from the racial disharmony and acrimony that surrounds the issue of racial discrimination in America It is now possible to seek a new direction that promotes self reliance and economic progress from within the black community by redirecting black earned resources through black individuals not through the endless ineffective government programs and bureaucracies It has been more than half a century since the Civil Rights Act of 1964 outlawed the racial discrimination and segregation that persists to this day and the government has clearly failed to abate such daily pathologies Government poverty and affirmative action programs have not reduced the racial wealth gap that remains virtually unchanged since 1964 The black middle class suffers from consistently higher unemployment rates while also being burdened with increasing high student loan debt and home mortgage debt that reduces the opportunity for home ownership and family net worth growth President John F Kennedy in a 1961 speech repeated the time worn saying that the only thing necessary for the triumph of evil is that good men do nothing This book suggests a new direction of self reliance and hope with a new emancipation proclaimed for all Americans if only there is finally the will to put the nation s dark past behind us and move out of the shadows and into the sunlight of a just and moral new future

Placing Europe within an international context, contributors investigate key areas of society, economics, culture, and political development. The book concludes with the French and other European revolutions that brought the century to a close, both chronologically and as regards the Ancien Régime. *A Companion to Eighteenth Century Europe* examines both established and emerging areas of interest in the field, making it an essential guide for students and scholars.

Catholic Pirates and Greek Merchants Molly Greene, 2010-07-12. A new international maritime order was forged in the early modern age, yet until now histories of the period have dealt almost exclusively with the Atlantic and Indian oceans. *Catholic Pirates and Greek Merchants* shifts attention to the Mediterranean, providing a major history of an important but neglected sphere of the early modern maritime world and upending the conventional view of the Mediterranean as a religious frontier where Christians and Muslims met to do battle. Molly Greene investigates the conflicts between the Catholic pirates of Malta, the Knights of St John, and their victims, the Greek merchants who traded in Mediterranean waters, and uses these conflicts as a window into an international maritime order that was much more ambiguous than has been previously thought. The Greeks as Christian subjects to the Muslim Ottomans were the very embodiment of this ambiguity. Much attention has been given to Muslim pirates such as the Barbary corsairs, with the focus on Muslim on Christian violence. Greene delves into the archives of Malta's pirate court, which theoretically offered redress to these Christian victims, to paint a considerably more complex picture and to show that pirates far from being outside the law were vital actors in the continuous negotiations of legality and illegality in the Mediterranean Sea. *Catholic Pirates and Greek Merchants* brings the Mediterranean and Catholic piracy into the broader context of early modern history and sheds new light on commerce and the struggle for power in this volatile age.
