Europe And The Soviet Union:

Détente in Europe John Van Oudenaren, 1991 The monumental events in Eastern Europe and the Soviet Union must be understood Jan Van Oudenaren argues in the context of a process of East West détente begun in 1953 in the aftermath of Stalin's death Van Oudenaren's comprehensive and timely study examines the development of Soviet Western détente from the death of Stalin to the unification of Germany In redefining détente as a process rather than a code of conduct Van Oudenaren looks to its origins in Soviet policy earlier than previously identified and analyzes both its history and character His study explores the restoration of four power negotiations in Germany and Austria in the mid 1950s their subsequent breakdown in the Berlin crisis their unexpected revival in 1990 in the form of two plus four talks on German unity and the future of the Soviet Union as a European power Among the key elements of détente discussed are diplomacy particularly the role of summit conferences cooperation among parliaments political parties and trade unions arms control economic relations and links among cultural institutions churches and peace movements Women in Eastern Europe and the Soviet Union University of Alberta. Division of East European Studies, 1980 Collection of conference papers on women's rights women's political participation and social movements in the USSR Poland and Yugoslavia discusses equal opportunity in relation to political theory of Marxism women's liberation in historical Russia socialism and feminism roles in the communist political party and politics female occupational status and attitudes toward employment fertility correlates of female status etc Bibliography pp 270 to 287 graphs and references Conference held in Edmonton 1978 Oct 20 to 28 America, Europe, and the Soviet Union Walter Laqueur, 1983 Bringing together for the first time his many penetrating and influential essays on U S foreign policy Europe and the Soviet Union Laqueur focuses here on the absence of a U S global strategy He shows that this vacuum has its counterpart in Western European politics Both the United States and Europe exhibit a weakening of political will and Laqueur reveals how the media and the academic community have been unwilling to accept the fact of diminished U S stature in the Western world **U.S. Policy Toward Eastern Europe And The Soviet Union** Robert F. Byrnes, 1989-10-18 The Soviet Union and Europe in the Cold War, 1943-53 Francesca Gori, Silvio Pons, 1997-08-12 After the Cold War its history must be reassessed as the opening of Soviet archives allows a much fuller understanding of the Russian dimension These essays on the classic period of the Cold War 1945-53 use Soviet and Western sources to shed new light on Stalin's aims objectives and actions on Moscow's relations with both the Soviet Bloc and the West European Communist Parties and on the diplomatic relations of Britain France and Italy with the USSR The contributors are prominent European Russian and American specialists The Soviet Union and Eastern Europe in the Global Economy Marie Lavigne, 1992-07-09 The Soviet Union and Eastern Europe are moving away from a centrally planned economy toward integration within the global economy How did this transition begin Is this an aim which all the countries can afford What conditions are to be met so that the countries will achieve a level of development comparable with the average level of their

industrial partners In this 1992 volume leading international political economists from both the East and West provide an in depth analysis of these questions The contributors assess how the transition to the market requires liberalizing foreign trade introducing convertibility and transforming property structures all of which are also part of the ongoing domestic reform They also examine how these countries overcome their development lag and implement a restructuring policy

Nationalism and Communism in Eastern Europe and the Soviet Union W. Kemp, 1999-02-08 Nationalism and Communism in Eastern Europe and the Soviet Union looks at communism s attempts to come to terms with nationalism between Marx and Yeltsin how the inability of communist theorists and practitioners to achieve an effective synthesis between nationalism and communism contributed to communism s collapse and what lessons that holds for contemporary Europe

Economic Adjustment and Reform in Eastern Europe and the Soviet Union Franklyn D. Holzman, 1988 Economic reform structural adjustment macroeconomic stabilization and participation in the world economy are interconnected aspects of the same issue the long term economic viability of centrally planned economies in the rapidly changing economic environment of the modern world Any economic strategy that focuses on only one or two of these aspects at the expense of the others is likely to fail yet even strategies that build on all of these bases may well fail unless political leaders can muster exceptional skill garner international support and enjoy some good luck The contributions to this volume reflect the recent research on this issue by various specialists on the economies of the Soviet Union and Eastern Europe Each author emphasizes macroeconomic stabilization structural adjustment participation in the larger world economy or economic reform

The Soviet Union in Eastern Europe, 1945-89 Sven G. Holtsmark, Iver B. Neumann, Odd Arne Westad, 2016-07-27 This volume brings together a series of recent analyses spanning the whole period of Soviet domination of Eastern Europe The essays by Western Russian and East European experts present a wide and varied picture of the period The authors use newly available materials to investigate different aspects of Soviet East European relations party affairs military and political coordination cultural and mass media policies as well as the crises and conflicts emerging from the relationship itself

Imagining the West in Eastern Europe and the Soviet Union Gyorgy Peteri, 2010-11-28 This volume presents work from an international group of writers who explore conceptualizations of what defined East and West in Eastern Europe imperial Russia and the Soviet Union The contributors analyze the effects of transnational interactions on ideology politics and cultural production They reveal that the roots of an East West cultural divide were present many years prior to the rise of socialism and the Cold War The chapters offer insights into the complex stages of adoption and rejection of Western ideals in areas such as architecture travel writings film music health care consumer products political propaganda and human rights They describe a process of mental mapping whereby individuals captured and possessed Western identity through cultural encounters and developed their own interpretations from these experiences Despite these imaginaries political and intellectual elites devised responses of resistance defiance and counterattack to defy Western impositions Socialists believed

that their cultural forms and collectivist strategies offered morally and materially better lives for the masses and the true path to a modern society Their sentiments toward the West however fluctuated between superiority and inferiority But in material terms Western products industry and technology became the ever present yardstick by which progress was measured The contributors conclude that the commodification of the necessities of modern life and the rise of consumerism in the twentieth century made it impossible for communist states to meet the demands of their citizens The West eventually won the battle of supply and demand and thus the battle for cultural influence

Soviet Union and Europe in the Cold War, 1943-1991 Francesca Gori, 1996

The Soviet Union, Eastern Europe and the Third World Roger E. Kanet, 1987 Soviet policy towards the countries of Asia Africa and Latin America underwent substantial expansion and change during the three decades since Khrushchev first initiated efforts to break out of the USSR's international isolation This 1988 volume examines various aspects of Soviet and East European policy towards the Third World

Eastern Europe and the Soviet Union in the World Economy Susan M. Collins, Dani Rodrik, 1991

The Food Revolution In The Soviet Union And Eastern Europe Robert Deutsch, 2019-07-11 The first study in the Western world to compare the relationship between food and politics in the countries of Eastern Europe this book views the current food revolution as part of the modernization process Robert Deutsch argues that the communist leaders in the Comecon countries increasingly link political stability and preservation of power to the problem of satisfying consumer demand He also assesses the various social forces that have brought about the food revolution The most important is the expanded working class which is no longer willing to defer consumer demands to a hypothetical communist future The CMEA countries thus face the dilemma of either gradually liberalizing their economies in order to meet growing consumer demands or resorting to repression Neither of these options promises a long term solution for implementing economic policies prescribed by Marxist Leninist doctrine Robert Deutsch presents case studies of Hungary Bulgaria and the German Democratic Republic as examples of the relative success of economic reforms To a greater or lesser extent these countries have opted for economic decentralization by liberalizing private ownership and pricing policy and by integrating planning with market oriented concepts The author compares this with the economic problems of the Soviet Union Poland Romania and Czechoslovakia The study is enhanced by an exhaustive bibliography arranged topically and drawn from the specialized literature in several languages

Department of Exploration and Field Research, 1975 **Eastern Europe, the Soviet Union, and Africa** Chris Saunders, Helder Adegar Fonseca, Lena Dallywater, 2023-04-27 It is now widely recognised that a Cold War perspective falls short in unfolding the complex geographies of connections and the multipolarity of actions and transactions that were shaped through the movement of individuals and ideas from Africa to the East and from the East to Africa in the decades in which African countries moved to independence Adopting an interdisciplinary transregional perspective this volume casts new light on aspects of the role of Eastern Europe and the Soviet Union in the decolonisation of Africa Taking further themes explored in a collection of essays published by the editors in 2019 the twelve case studies by authors from South Africa Czech Republic Portugal Russia Hungary Italy Canada Serbia and Germany draw on new sources to explore the history of the ties that existed between African liberation movements and the socialist bloc some of which continue to influence relationships today Chapters contribute to three relevant main themes that resonate in a number of scholarly fields of inquiry ranging from Global Studies Transregional Studies Cold War Studies Global History to African Studies Eastern European Russian and Slavic Studies Reconsiderations Resources and Reverberations Drawing upon newly opened archives and combining transregional perspectives with sources in different languages chapters explicitly point out the shortcomings of past research and debates in the respective field They highlight new avenues which have been developing and which need to be further developed Reconsiderations Selected case studies address the resources of those being active and involved in decolonisation processes be it in East North West and South They reveal Which resources both material and intellectual are the actors drawing upon On the other hand From which resources are individuals on one side or the other reciprocally or intermittently intentionally kept away Resources Finally the third theme puts an emphasis on the historicity of the processes depicted Studies point to the gaps and dead ends of international support the paths that peter out but also to repercussions and reverberations up until today Reverberations Taken these three themes together the individual chapters contribute to the
