Europe In The Age Of Monarchy:

Europe in the Age of Monarchy Metropolitan Museum of Art (New York, N.Y.),1987 This volume reproduces over 125 works of art in every genre and medium from the collections of the Metropolitan Museum They give a breathtaking picture of a turbulent and exciting epoch which was at once the Age of Monarchy and a Golden Age of art Just as its kings and queens are still exemplars of glorious majesty and shrewd statesmanship so the artists of that century remain for us the Old Masters of European art Caravaggio Bernini Tiepolo Guardi El Greco Velazquez Rubens van Dyck Hals Rembrandt Vermeer van Ruisdael de La Tour Poussin Claude Watteau Bourcher Chardin In every medium the clash and complicity of the traditional Classical style and the newer Baroque vision bequeathed us a rich treasure Page 4 of cover [Europe in the Age of Monarchy](#) Metropolitan Museum of Art (New York, N.Y.),1987 *Europe in the Age of Monarchy*,1987 **Europe in the Age of Monarchy** John Spike,1987-03-01 This twelve volume series for the general reader reproduces works of art representing the resources of all eighteen curatorial departments of the Museum **Violence and Legitimacy** Volker Sellin,2017-12-18 Benjamin Constant distinguished two kinds of government unlawful government based on violence and legitimate government based on the general will In Europe monarchy was for over a thousand years considered the natural form of legitimate government The sources of its legitimacy were the dynastic principle religion and the ability to protect against foreign aggression At the end of the eighteenth century the revolutions in America and France called into question the traditional legitimacy of monarchy but Volker Sellin shows that in response to this challenge monarchy opened up new sources of legitimacy by concluding alliances with constitutionalism nationalism and social reform In some cases the age of revolution brought on a new type of leader basing his claim to power on charisma **Southern Europe in the Age of Revolutions** Maurizio Isabella,2025-06-17 An examination of revolutions in the Iberian and Italian peninsulas Sicily and Greece in the 1820s that reveals a popular constitutional culture in the South After the turbulent years of the Napoleonic Wars and the Congress of Vienna s attempt to guarantee peace and stability across Europe a new revolutionary movement emerged in the southern peripheries of the continent In this groundbreaking study Maurizio Isabella examines the historical moment in the 1820s when a series of simultaneous uprisings took the quest for constitutional government to Portugal Spain the Italian peninsula Sicily and Greece Isabella places these events in a broader global revolutionary context and decentering conventional narratives of the origins of political modernity reveals the existence of an original popular constitutional culture in southern Europe Isabella looks at the role played by secret societies elections petitions protests and the experience of war as well as the circulation of information and individuals across seas and borders in politicising new sectors of society By studying the mobilisation of the army the clergy artisans rural communities and urban populations in favour of or against the revolutions he shows that the uprisings in the South although their ultimate fate was determined by the intervention of more powerful foreign countries enjoyed considerable popular support in ideologically divided societies and led to the introduction

of constitutions Isabella argues that these movements informed the political life of Portugal and Spain for many decades and helped to forge a long lasting revolutionary tradition in the Italian peninsula The liberalism that emerged as a popular political force across southern Europe he contends was distinct from French and British varieties

The Image and Perception of Monarchy in Medieval and Early Modern Europe Sean McGlynn, Elena Woodacre, 2014-10-02 Monarchy is an enduring institution that still makes headlines today It has always been preoccupied with image and perception never more so than in the period covered by this volume The collection of papers gathered here from international scholars demonstrates that monarchical image and perception went far beyond cultural symbolic and courtly display although these remain important and were in fact always deeply concerned with the practical expression of authority politics and power This collection is unique in that it covers the subject from two innovative angles it not only addresses both kings and queens together but also both the medieval and early modern periods Consequently this allows significant comparisons to be made between male and female monarchy as well as between eras Such an approach reveals that continuity was arguably more important than change over a span of some five centuries In removing the traditional gender and chronological barriers that tend to lead to four separate areas of studies for kings and queens in medieval and early modern history the papers here are free to encompass male and female royal rulers ranging across Europe from the early thirteenth to the late seventeenth centuries to examine the image and perception of monarchy in England Scotland France Burgundy Spain and the Holy Roman Empire Collectively this volume will be of interest to all those studying medieval and early modern monarchy and for those wishing to learn about the connections and differences between the two

The Greek Revolution in the Age of Revolutions (1776-1848) Paschalis M. Kitromilides, 2021-09-09 The Greek Revolution in the Age of Revolutions 1776 1848 brings together twenty one scholars and a host of original ideas revisionist arguments and new information to mark the bicentennial of the Greek Revolution of 1821 The purpose of this volume is to demonstrate the significance of the Greek liberation struggle to international history and to highlight how it was a turning point that signalled the revival of revolution in Europe after the defeat of the French Revolution in 1815 It argues that the sacrifices of rebellious Greeks paved the way for other resistance movements in European politics culminating in the spring of European peoples in 1848 Richly researched and innovative in approach this volume also considers the diplomatic and transnational aspects of the insurrection and examines hitherto unexplored dimensions of revolutionary change in the Greek world This book will appeal to scholars and students of the Age of Revolution as well as those interested in comparative and transnational history political theory and constitutional law

The Age of Revolutions in Global Context, c. 1760-1840 David Armitage, Sanjay Subrahmanyam, 2009-12-18 A distinguished international team of historians examines the dynamics of global and regional change in the late eighteenth and nineteenth centuries Providing uniquely broad coverage encompassing North and South America the Caribbean Europe Africa the Middle East South and Southeast Asia and China the chapters shed new light on

this pivotal period of world history Offering fresh perspectives on The American French and Haitian Revolutions The break up of the Iberian empires The Napoleonic Wars The volume also presents ground breaking treatments of world history from an African perspective of South Asia s age of revolutions and of stability and instability in China The first truly global account of the causes and consequences of the transformative Age of Revolutions this collection presents a strikingly novel and comprehensive view of the revolutionary era as well as rich examples of global history in practice *Monarchies 1000-2000*

W. M. Spellman, 2001 *Monarchies 1000 2000* surveys a form of government whose legitimacy rests not on voluntary consensus but on age old custom heredity and or religious sanction Global in scope and comparative in approach W M Spellman s survey establishes connections between monarchy as idea and practice in a variety of historical and cultural contexts across a millennium when the system was without serious rival Spellman examines the intellectual assumptions behind different models of monarchy tracing the ways in which each of these assumptions shifted in response to historical factors including expanding literacy the development of modern science and the growth of rationalism and the decline of institutional religion While no human institution has retreated as rapidly as monarchy in the modern period the system s remarkable longevity invites us to weigh the significance of hierarchy subordination and dependence as constants of the human experience book jacket *The First Age of Industrial Globalization* Maartje Abbenhuis, Gordon Morrell, 2019-10-17

This book offers an accessible and lively survey of the global history of the age of industrialization and globalization that arose in the wake of the Napoleonic Wars and collapsed in the maelstrom of the First World War Through a combination of industrialization technological innovation and imperial expansion the industrializing powers of the world helped to create inter connected global space that left few regions untouched In ten concise chapters this book relays the major shifts in global power economics and society outlining the interconnections of global industrial imperial and economic change for local and regional experiences identities and politics It finishes with an expos on the catastrophic impact of the First World War on this global system *The First Age of Industrial Globalization* weaves together the histories of industrialization world economy imperialism international law diplomacy and war which historians usually treat as separate developments and integrates them to offer a new analysis of an era of fundamental historical change It shows that the revolutionary changes in politics society and international affairs experienced in the 19th century were inter connected developments It is essential reading for any student of modern global history *Middle Ages, Modern monarchies, Age of Revolution* John Clark

Monarchisms in the Age of Enlightenment John Christian Laursen,Johan Cornelis Hendrik Blom,J C Laursen,Luisa Simonutti,H. W. Blom,2007-01-01 In recent decades historians of early modern European political thought have tended to neglect the concept of monarchy and monarchism focusing instead on the development of republicanism during this period Monarchisms in the Age of Enlightenment aims to correct this imbalance by illustrating that many thinkers of the seventeenth and eighteenth centuries in fact saw monarchy as a solution to the instability chaos and even violence of experiments with republican government Editors Hans Blom John Christian Laursen and Luisa Simonutti have brought together outstanding scholars in the field to correct many of the misleading stereotypes about monarchy and to explore the variety and dynamism of this form of government in early modern Europe Contributors explore four major themes monarchisms in the political thought of Spinoza Bayle F nelon Hume and Montesquieu enlightened Christian and millenarian monarchisms defending and resisting absolute monarchy and finally reflections on the British monarchy Fascinating and timely Monarchisms in the Age of Enlightenment will be of interest to historians political theorists political philosophers and political scientists **European Theatre Migrants in the Age of Empire** Berenika Szymanski-Düll,Lisa Skwirblies,2024-11-19 This open access volume explores the crucial yet insufficiently addressed phenomenon of European theatre migration in the long nineteenth century It argues that theatre migration went far beyond the popular phenomenon of touring significantly shaping the historical discourse on theatre and mobility The hidden and multifaceted histories of

European theatre migration that this book seeks to explore allow us to rethink national theatre histories as histories of mobility entanglements and negotiations They also allow the reader to challenge and to decenter a European self understanding of insularity and a European cosmopolitanism ignorant of its imperial and colonial roots Unconquered States H. E. Chehabi, David Motadel, 2024-11-25 In the heyday of empire most of the world was ruled directly or indirectly by the European powers Unconquered States explores the struggles for sovereignty of the few nominally independent non Western states in the imperial age It examines the ways in which countries such as China Ethiopia Japan the Ottoman Empire Persia and Siam managed to keep European imperialism at bay whereas others such as Hawai i Korea Madagascar Morocco and Tonga long struggled but ultimately failed to maintain their sovereignty The chapters in this book address four major aspects of the relations these countries had with the Western imperial powers armed conflict and military reform unequal treaties and capitulations diplomatic encounters and royal diplomacy Bringing together scholars from five continents this book provides the first comprehensive global history of the engagement of the independent non European states with the European empires reshaping our understanding of sovereignty territoriality and hierarchy in the modern world order
