Central European Constitutional Courts in the Face of EU Membership Allan F. Tatham,2013-03-27 Central European Constitutional Courts in the Face of EU Membership explores the enduring German legal influence on other systems of constitutional justice concentrating on the impact of the Federal Constitutional Court's approach to EU integration on its counterparts in Hungary and Poland Such a model aims to protect Germany's constitutional identity or essential core of sovereignty the contents of which are not susceptible to transfer or limitation in the face of the requirements of the Union's constitutional legal order The influence of this model on the two Central European courts has encouraged them to take an active part in negotiating the new multilayered judicial construct of Europe Tatham thus firmly places the Hungarian and Polish constitutional courts within the overall context of the continuing dialogue between national courts and the Court of Justice in the evolution of the European constitutional space

Tatham, 2009-01-26 The development of EU enlargement has raised many thorny issues unanticipated by the framers of the EC Treaty A significant upshot of these issues is that the concept of European identity defined in terms of such factors as culture history and economics has supplanted the long dominant theme of widening and deepening particularly since the Union's expansion has become primarily eastward The major contribution of this important book lies in its analysis of the conceptualization and perception of enlargement from various points of view focusing on the concerns of stakeholders and the identity conflicts and uncertainties incurred by enlargement initiatives In the course of its presentation it details the actual pre accession Europeanization process and its complex history Among the key elements discussed are the following the conflict between widening and deepening and the effect on EU institutional reform institutional requirements on candidate countries pre accession criteria and negotiations administrative capacity judicial capacity and legal approximation in accession states capacity of the EU to absorb new Member States and EC law as part of European identity Also covered are specific historical details of particular pre accession negotiations e g Greece Spain Portugal Malta and Cyprus the still inconclusive negotiations with Turkey and the Western Balkan states and political factors involved in the non accession of Norway Iceland and Switzerland Assembling powerful evidence and applying incisive analysis the author's conclusion shows that absent further and major EU institutional reform it will be difficult for an enlarging Union to continue to deliver the goods A watershed in the continuing great debate on the fulfilment of the EC Treaty's determination to foster and promote an ever closer union of the peoples of Europe this book will prove invaluable to anybody interested in the European integration project particularly lawyers academics officials and policymakers in the EU Member States      **Research Handbook on the Politics of Constitutional Law** Mark Tushnet, Dmitry Kochenov, 2023-11-03 This Research Handbook deals with the politics of constitutional law around the world using both comparative and political analysis delivering global treatment of the politics of constitutional law across issues regions and legal systems Offering an innovative critical approach to an array of key concepts and topics this book will be a key resource for legal scholars and political science scholars Students with
