Included here are several of the papers that now belong to the classics of psychoanalysis such as Introjection and Transference On Obscene Words On Onanism Stages in Development of the Sense of Reality and The Ontogenesis of the Interest in Money. In addition it contains Ferenczi's pioneer papers on impotence homosexuality paranoia and symbolism *First Contributions to Psycho-analysis* Sándor Ferenczi, 1952 [The Cut and the Building of Psychoanalysis: Volume II](#) Carlo Bonomi, 2017-07-14 [The Cut and the Building of Psychoanalysis: Volume II](#) explores how the unformulated trauma associated with surgery performed on Emma Eckstein's genitalia and the hallucinations that Eckstein experienced influenced Freud's self-analysis oriented his biological speculations and significantly influenced one of his closest followers Sándor Ferenczi. This thought provoking and incisive work shows how Ferenczi filled the gaps left open in Freud's system and proved to be a useful example for examining how such gaps are transmitted from one mind to another. The first of three parts explores how the mind of the child was viewed prior to Freud what events led Freud to formulate and later abandon his theory of actual trauma and why Freud turned to the phylogenetic past. Bonomi delves deeper into Freud's self-analysis in part two and reexamines the possible reasons that led Freud to discard the impact and effects of trauma. The final part explores the interpersonal effects of Freud's self-dissection dream arguing that Ferenczi managed to dream aspects of Freud's self-dissection dream on various occasions which helped him to incorporate a part of Freud's psyche that Freud had himself failed to integrate. This book questions the subject of a woman's body using discourse between Freud and Ferenczi to build a more integrated and accurate narrative of the origins and theories of psychoanalysis. It will therefore be of interest to psychoanalysts psychotherapists psychologists and social scientists as well as historians of medicine science and human rights. Bonomi's work introduces new arguments to the contemporary debate surrounding Female Genital Mutilation. **Selected Papers of Salman Akhtar** Salman Akhtar, 2023-06-01 Salman Akhtar is a Professor of Psychiatry a Training and Supervising Analyst a member of numerous editorial boards winner of many awards including the highly prestigious Sigourney Award a writer of several hundred articles a poet and the author or editor of over one hundred books.
