First Families The Making Of An American:

First Families Nathaniel Burt, 1970 The Making of an American Ram Galindo, 2006 *God's Interpreters: The Making of an American Mission and an African Church* Les Switzer, 2023-10-20 This study of the pioneer mission to the Zulu people differs from others in South African mission studies by offering a more nuanced understanding of the relationship between mission and church during the formative stages in the making of an African Christian community both in America and in British Natal Critical scholars continue to view the Western mission enterprise as an adjunct if not a tool of colonialism or at best a clash of cultures between white mission powerbrokers and powerless black Christian acolytes The author argues that they were partners from the beginning and in this endeavor the Christian identities of the missionaries as well as the Zulu were changed forever **Gertrude Stein and the Making of an American Celebrity** Karen Leick, 2013-05-13 This book is a cultural history of Stein's rise to fame and the function of literary celebrity in America from 1910 to 1935 By examining not the ways that Stein portrayed the popular in her work but the ways the popular portrayed her this study shows that there was an intimate relationship between literary modernism and mainstream culture and that modernist writers and texts were much more well known than has been previously acknowledged Specifically Leick reveals through the case study of Stein that the relationship between mass culture and modernism in America was less antagonistic more productive and integrated than previous studies have suggested First Family Cassandra A. Good, 2023-06-06 Finalist for the 2024 George Washington Prize For readers of *Never Caught* and *You Never Forget Your First* a revealing true story of celebrity race and the children George Washington raised While it's widely known that George and Martha Washington never had children of their own few are aware that they raised children together In *First Family* we see Washington as a father figure and are introduced to the children he helped raise tracing their complicated roles in American history The children of Martha Washington's son by her first marriage Eliza Patty Nelly and Wash Custis were born into life in the public eye well known as George Washington's family and keepers of his legacy By turns petty and powerful glamorous and cruel the Custises used Washington as a means to enhance their own power and status As enslavers committed to the American empire the Custis family embodied the failures of the American experiment that finally exploded into civil war all the while being celebrities in a soap opera of their own making *First Family* brings new focus and attention to this surprisingly neglected aspect of George Washington's life and legacy shedding a light on What it meant to be a family The complexities of kinship and race in the Custis family Political power fame and the obsession with the celebrity The Custises probable Black half sibling As the country grapples with concerns about political dynasties and the public role of presidential families the saga of Washington's family offers a human story of historical precedent Award winning historian Cassandra A Good shows how the outspoken step grandchildren of George Washington played an overlooked but important role in the development of American society and politics from the Revolution to the Civil War *Founding Families Of Pittsburgh*

Joseph F Rishel, 2005-06-15 As Pittsburgh and its surrounding area grew into an important commercial and industrial center a group of families emerged who were distinguished by their wealth and social position Joseph Rishel studies twenty of these families to determine the degree to which they formed a coherent upper class and the extent to which they were able to maintain their status over time His analysis shows that Pittsburgh's elite upper class succeeded in creating the institutions needed to sustain a local aristocracy and possessed the ability to adapt its accumulated advantages to social and economic changes

some of the pivotal figures in American culture and politics including Herman Melville Frances Harper William James Frederic Remington Charles Francis Adams W E B DuBois George Creel Zora Neale Hurston Louis Chu and others In the course of these essays readers will learn how Americans in different periods and circumstances have grappled with the changing issues of defining race and of defining American as a race as a nationality or as both **Prologue**, 1977 Mrs. Astor's New York Eric Homberger, 2004-09-01 Mrs Astor queen of New York society in the decades before World War I used her prestige to create a social aristocracy in the city Mrs Astor's story told here by Eric Homberger sheds light on the origins extravagant lifestyle and social competitiveness of this aristocracy The Raising of a President Doug Wead, 2005-03-15 God bless my mother all I am or ever hope to be I owe to her Abraham Lincoln What are the family circumstances that have created our presidents How did their upbringing shape their future and ours New York Times bestselling author Doug Wead answers these questions in one of the most comprehensive studies of presidential families to date When one thinks about the leadership qualities of George Washington and Theodore Roosevelt or the intellectual prowess of John Adams and Abraham Lincoln it is hard to imagine them as children It is even more difficult to envision the parents of our leaders especially the larger than life idols of our political past Our greatest presidents have entered the Oval Office armed with overwhelming ambition intellect and political savvy But were these characteristics evident in childhood The Raising of a President is a groundbreaking look at the parents of the American presidents full of never before seen facts and anecdotes as well as psychological profiles based on Wead's findings He analyzes the types of families into which our presidents were born and sheds a fascinating light on how their destinies were shaped during childhood Using countless presidential correspondences and letters as well as notes from hours of his own private conversations and interviews with six presidents and first ladies Wead focuses specifically on the early life of our first president George Washington John Adams John Quincy Adams and the making of our nation's first political empire the humble beginnings of our greatest president Abraham Lincoln the privileged upbringing of Franklin Delano Roosevelt the ambitious rise of John Fitzgerald Kennedy and the quiet dynasty led by George H W Bush and his son George W Bush Throughout The Raising of a President readers will find that the circumstances and events that would destroy most children were often the very things that sparked greatness in our nation's future leaders These are the stories of the presidents' parents but in a truer sense they are the stories of the presidents themselves from a perspective that is long overdue **An American Family** Jeffrey Ruoff, 2002 Before 1973 the Loud family of Santa Barbara California lived in the privacy of their own home With the airing of the documentary An American Family that privacy extended to every American home with a television This book is the first to offer a close look at An American Family the documentary that blurred conventions stirred passions revised impressions of family life and definitions of private and public and began the breakdown of distinctions between reality and spectacle that culminated in cultural phenomena from The Oprah Winfrey Show to Survivor **Feudal America** Vladimir Shlapentokh, Joshua Woods, 2011-01-01 Do Americans live in

a liberal capitalist society where evenhanded competition rules the day or a society in which big money private security and personal relations determine key social outcomes Vladimir Shlapentokh and Joshua Woods argue that the answer to these questions cannot be found among the conventional models used to describe the nation Offering a new analytical tool the authors present a provocative explanation of the nature of contemporary society by comparing its essential characteristics to those of medieval European societies Their feudal model emphasizes five elements the weakness of the state and its inability to protect its territory guarantee the security of its citizens and enforce laws conflicts and collusions between and within organizations that involve corruption and other forms of illegal or semilegal actions the dominance of personal relations in political and economic life the prevalence of an elitist ideology and the use of private agents and organizations for the provision of safety and security Feudal America urges readers to suspend their forward thinking and futurist orientations question linear notions of social and historical progression and look for explanations of contemporary social problems in medieval European history Newsletter United States. Department of State,1970 *Engagement and Disengagement* Howard G. Schneiderman,2017-10-16 Part dialogue part debate between Howard Schneiderman and a small number of social theorists Engagement and Disengagement represents the culmination of a life s work in social theory On the one hand it is about cohesive social cultural and intellectual forces such as authority community status and the sacred that tie us together and on the other hand about forces such as alienation politics and economic warfare that pull us apart With a blend of humanism and social science Engagement and Disengagement highlight this two culture solution to understanding social and cultural history
