better to guard their hives against robbers 84 and against the ravages of the bee moth s larvfe 214 5 They are more prolific in the spring 6 Their bees and queen adhere more tenaciously to the comb 7 They are amiable and it is easy to manipulate them There are other races of bees which are desirable and among them we will mention the Caucasian and the Carniolan but as both of **Calendar** University of Cambridge,1888 The Essential Whole Earth Catalog ,1986 Taking its place beside the instant classic bestseller The Whole Earth Catalog this new practical comprehensive and profusely illustrated guide will prove invaluable to all consumers looking for a quick efficient route to the very best information Over 1 000 black and white illustrations *American Bee Journal* ,1934 Includes summarized reports of many bee keeper associations
