First Look At Commun Theory:

A First Look at Communication Theory Emory A. Griffin, Andrew Ledbetter, Glenn Grayson Sparks, 2019 A Balanced Approach to Theory Selection We've written A First Look for students who have no background in communication theory. It's designed for undergraduates enrolled in an entry-level course regardless of the student's classification. The trend in the field is to offer students a broad introduction to theory relatively early in their program. But if a department chooses to offer its first theory course on the junior or senior level, the course will still be the student's first comprehensive look at theory, so the book will meet them where they are. **A First Look at Communication Theory** Em Griffin, Emory A. Griffin, 2008-03-18

Explores the communication theories at different levels. This book includes 33 theories to strike a balance of scientific and interpretive approaches. **First Look at Communication Theory, A.** Em Griffin, 2011 The most widely used textbook for the communication theory course. A First Look at Communication Theory analyzes the major communication theories at a level that is appropriate for both lower and upper-level courses. The theories represented in the text reflect a mix of foundational and recent scholarship and strike a balance of scientific and interpretive approaches. □□□□ □□ A.·□□□, 2003

Littlejohn, Karen A. Foss, 2009-08-18 With more than 300 entries, these two volumes provide a one-stop source for a comprehensive overview of communication theory, offering current descriptions of theories as well as the background issues and concepts that comprise these theories. This is the first resource to summarize in one place the diversity of theory in the communication field. Key Themes: Applications and Contexts, Critical Orientations, Cultural Orientations, Cybernetic and Systems Orientations, Feminist Orientations, Group and Organizational Concepts, Information Media and Communication Technology, International and Global Concepts, Interpersonal Concepts, Non-Western Orientations, Paradigms, Traditions and Schools, Philosophical Orientations, Psycho-Cognitive Orientations, Rhetorical Orientations, Semiotic, Linguistic and Discursive Orientations, Social Interactional Orientations, Theory, Metatheory, Methodology and Inquiry. **ISE A FIRST LOOK AT COMMUNICATION THEORY** EM. Croucher, 2015-08-20 This book offers students a comprehensive theoretical and practical guide to communication theory. Croucher defines the various perspectives on communication theory: the social, scientific, interpretive, and critical approaches, and then takes on the theories themselves with topics including interpersonal communication, organizational communication, intercultural communication, persuasion, critical and rhetorical theory, and other key concepts. Each theory chapter includes a sample undergraduate written paper that applies the described theory along with edits and commentary by Croucher, giving students an insider's glimpse of the way communication theory can be written about and applied in the classroom and in real life.
