Business and Management Program instructor I would choose this book as the text. If a client asked for a great book to enhance his/her leadership skills, we consult in organization compensation and performance management; this would be one of the first books I would suggest. It's that good. The book offers a comprehensive guide for developing leadership and people management skills. It's a powerful broad spectrum leadership toolkit with a wealth of information about skills and practices and hundreds of suggestions and opinions from business and political leaders, consultants, and academics. This book is an outstanding resource for leaders and aspiring leaders. It is filled with an abundance of insights. The distinction it makes between a leader and a manager is one of the best, if not the best, we've read. Just a few of the subjects covered are: leadership as servant philosophy, leaders as coaches and mentors, communication, motivation, leading and managing teams, women as leaders, managing power, politics and conflict, leading organizational and cultural change, creating an innovative organization, leadership and people management in high tech, networked and virtual organizations. Throughout the book are bullet point lists, exercises, and to the point conclusions. It is clearly written and superbly organized. An excellent bibliography and subject index top off this outstanding work. We highly recommend this book.

Yvette Borcia and Gerry Stern, *Stern's Management Review*. Maximum Performance is a comprehensive business tome. Although it is designed for students, busy executives who use the chapter summaries or chapter sections to focus on topics that interest them will find the book useful. Organizations with large collections on management or leadership will want to buy it. Business researchers with limited library space or who are looking for a good summary of current management topics may also find the book of value. The strength of Maximum Performance is its breadth. Forster touches on everything from whether leaders are born or made to Machiavellian strategies for dealing with toxic work environments. Anyone interested in ideas on leadership will likely find several sections of interest. Those sections that are particularly strong include the discussions on the different roles and organizational context of leadership, key issues in motivating employees, the team development process, and best practices in leading organizational change.

Scott R. Jenkins, *Business Information Alert*. Nick Forster's large text is for MBA students. He writes in a clean, clear style and frankly admits that leadership and people management skills cannot adequately be learned from books. He knows, however, that good books can help and also that clichés of management can be inspirational and will be used widely, though they call for close analysis of substance or context. He is in this a modern day Samuel Smiles, equipped with a variety of diagnostic tools.

The Australian. In my experience, a major shortcoming of most how-to books on leadership and management is that they purport to offer Silver Bullets, magical solutions that once revealed will enrich and transform the reader and his or her organization. Regrettably, *The Agency Growth Book* by Rachel Jacobs, Rob Da Costa, Rachel Gertz, Chris Bantock, Clodagh S. Higgins, Jody Sutter, Karl Sakas, Kelly Campbell, Chris Simmance, Christian Banach, Tim Kilroy, Robert Craven, Jonathan Leafe, Lee Goff, Marcel Petitpas, Peter Levitan, Jason Swenk, DAN, Adzooma, Vendasta, InvisiblePPC, Nikole Mackenzie, ActiveDEMAND, Alejandra Tobón, Duda, 2022-12-15. This book

is the culmination of years of agency growth experience from some of the brightest minds in the industry In it you will find actionable advice on topics that matter to you the Agency Owner the most We put this book together because at Agency Growth Events our mission is to organize must attend events for digital agencies to network with like minded agencies explore partnerships engage with cutting edge marketing technology vendors and learn from community generated content We know that achieving sustainable agency growth can be challenging but it is achievable with the right information and tools

Glocalized Solutions for Sustainability in Manufacturing Jürgen Hesselbach,Christoph Herrmann,2011-03-19 The 18th CIRP International Conference on Life Cycle Engineering LCE 2011 continues a long tradition of scientific meetings focusing on the exchange of industrial and academic knowledge and experiences in life cycle assessment product development sustainable manufacturing and end of life management The theme Glocalized Solutions for Sustainability in Manufacturing addresses the need for engineers to develop solutions which have the potential to address global challenges by providing products services and processes taking into account local capabilities and constraints to achieve an economically socially and environmentally sustainable society in a global perspective Glocalized Solutions for Sustainability in Manufacturing do not only involve products or services that are changed for a local market by simple

substitution or the omitting of functions Products and services need to be addressed that ensure a high standard of living everywhere Resources required for manufacturing and use of such products are limited and not evenly distributed in the world Locally available resources local capabilities as well as local constraints have to be drivers for product and process innovations with respect to the entire life cycle The 18th CIRP International Conference on Life Cycle Engineering LCE 2011 serves as a platform for the discussion of the resulting challenges and the collaborative development of new scientific ideas
