**British Children's Literature and the First World War** David Budgen, 2018-05-17 Perceptions of the Great War have changed significantly since its outbreak and children's authors have continually attempted to engage with those changes explaining and interpreting the events of 1914-18 for young readers *British Children's Literature and the First World War* examines the role novels, textbooks and story papers have played in shaping and reflecting understandings of the conflict throughout the 20th century David Budgen focuses on representations of the conflict since its onset in 1914 ending with the centenary commemorations of 2014 From the works of Percy F Westerman and Angela Brazil to more recent tales by Michael Morpurgo and Pat Mills Budgen traces developments of understanding and raises important questions about the presentation of history to the young He considers such issues as the motivations of children's authors and whether modern children's books about the past are necessarily more accurate than those written by their forebears Why for example do modern writers tend to ignore the global aspects of the First World War Did detailed narratives of battles written during the war really convey the truth of the conflict Most importantly he considers whether works aimed at children can ever achieve anything more than a partial and skewed response to such complex and tumultuous events *Touch and Intimacy in First World War Literature* Santanu Das, 2006-04-06 The First World War ravaged the male body on an unprecedented scale yet fostered moments of physical intimacy and tenderness among the soldiers in the trenches Touch the most elusive and private of the senses became central to war experience War writing is haunted by experiences of physical contact from the muddy realities of the front to the emotional intensity of trench life to the traumatic obsession with the wounded body in nurses' memoirs Through extensive archival and historical research analysing previously unknown letters and diaries alongside literary writings by figures such as Owen and Brittain Santanu Das recovers the sensuous world of the First World War trenches and hospitals This original and evocative study alters our understanding of the period as well as of the body at war and illuminates the perilous intimacy between sense, experience, emotion and language as we try to make meaning in times of crisis **The Cambridge Companion to the Literature of the First World War** Vincent Sherry, 2005-01-20 The Great War of 1914-1918 marks a turning point in modern history and culture This Companion offers critical overviews of the major literary genres and social contexts that define the study of the literatures produced by the First World War The volume comprises original essays by distinguished scholars of international reputation who examine the impact of the war on various national literatures principally Great Britain, Germany, France and the United States before addressing the way the war affected Modernism, the European avant-garde, film, women's writing, memoirs and of course the war poets It concludes by addressing the legacy of the war for twentieth-century literature The Companion offers readers a chronology of key events and publication dates covering the years leading up to and including the war and ends with a current bibliography of further reading organised by chapter topics [Comparing Grief in French, British and Canadian Great War Fiction \(1977-2014\)](#)

Anna Branach-Kallas,Piotr Sadkowski,2018-09-24 Comparing Grief in French British and Canadian Great War Fiction 1977 2014 offers a comparative analysis of twenty three First World War novels Engaging with such themes as war trauma facial disfigurement women s war identities communal bonds as well as the concepts of mourning and post memory Anna Branach Kallas and Piotr Sadkowski identify the dominant trends in recent French British and Canadian fiction about the Great War Referring to historical sociological philosophical and literary sources they show how by both consolidating and contesting national myths fiction continues to construct the 1914 1918 conflict as a cultural trauma illuminating at the same time some of our most recent ethical concerns      **German Literature and the First World War: The Anti-War Tradition** Brian

Murdoch,2016-03-09 The period immediately following the end of the First World War witnessed an outpouring of artistic and literary creativity as those that had lived through the war years sought to communicate their experiences and opinions In Germany this manifested itself broadly into two camps one condemning the war outright the other condemning the defeat Of the former Erich Maria Remarque s All Quiet on the Western Front remains the archetypal example of an anti war novel and one that has become synonymous with the Great War Yet the tremendous and enduring popularity of Remarque s work has to some extent eclipsed a plethora of other German anti war writers such as Hans Chlumberg Ernst Johannsen and Adrienne Thomas In order to provide a more rounded view of German anti war literature this volume offers a selection of essays published by Brian Murdoch over the past twenty years Beginning with a newly written introduction providing the context for the volume and surveying recent developments in the subject the essays that follow range broadly over the German anti war literary tradition telling us much about the shifting and contested nature of the war The volume also touches upon subjects such as responsibility victimhood the problem of historical hiatus in the production and reception of novels drama poetry film and other literature written during the war in the Weimar Republic and in the Third Reich The collection also underlines the potential dangers of using novels as historical sources even when they look like diaries One essay was previously unpublished two have been augmented and three are translated into English for the first time Taken together they offer a fascinating insight into the cultural memory and literary legacy of the First World War and German anti war texts      **The Short Story**

**and the First World War** Ann-Marie Einhaus,2013-07-31 The poetry of the First World War has come to dominate our understanding of its literature while genres such as the short story which are just as vital to the literary heritage of the era have largely been neglected In this study Ann Marie Einhaus challenges deeply embedded cultural conceptions about the literature of the First World War using a corpus of several hundred short stories that until now have not undergone any systematic critical analysis From early wartime stories to late twentieth century narratives and spanning a wide spectrum of literary styles and movements Einhaus s work reveals a range of responses to the war through fiction from pacifism to militarism Going beyond the household names of Owen Sassoon and Graves Einhaus offers scholars and students unprecedented access to new frontiers in twentieth century literary studies      **Humour in British First World War**

**Literature** Emily Anderson, 2023-09-11 This book explores how humorous depictions of the Great War worked to familiarise domestic and tame the conflict While well known examples of First World War literature often emphasize enormous emotional disruption and the war's extremes other writers used humour to encourage a gentle mild amusement drawing on familiar popular genres and forms used before 1914 In humorous portrayals of the war tameness outdoes the unmanageable and the temperate exceeds the extraordinary Humour in British First World War Literature is based on little known primary material uncovered from detailed archival research as well as works that though written by celebrated authors tend not to be placed in the canon of Great War literature Each chapter examines key examples of literary texts ranging from short stories and poetry to theatre and periodicals in doing so investigating the complex representational political and social significance of the tame strand in humorous Great War literature

**Handbook of British Literature and Culture of the First World War** Ralf Schneider, Jane Potter, 2021-09-20 The First World War has given rise to a multifaceted cultural production like no other historical event This handbook surveys British literature and film about the war from 1914 until today The continuing interest in World War I highlights the interdependence of war experience the imaginative re creation of that experience in writing and individual as well as collective memory In the first part of the handbook the major genres of war writing and film are addressed including of course poetry and the novel but also the short story furthermore it is shown how our conception of the Great War is broadened when looked at from the perspective of gender studies and post colonial criticism The chapters in the second part present close readings of important contributions to the literary and filmic representation of World War I in Great Britain All in all the contributions demonstrate how the opposing forces of focusing and canon formation on the one hand and broadening and revision of the canon on the other have characterised British literature and culture of the First World War

**The Great War in Post-Memory Literature and Film** Martin Löschnigg, Marzena Sokolowska-Paryz, 2014-10-14 The twenty seven original contributions to this volume investigate the ways in which the First World War has been commemorated and represented internationally in prose fiction drama film docudrama and comics from the 1960s until the present The volume thus provides a comprehensive survey of the cultural memory of the war as reflected in various media across national cultures addressing the complex connections between the cultural post memory of the war and its mediation In four sections the essays investigate 1 the cultural legacy of the Great War including its mythology and iconography 2 the implications of different forms and media for representing the war 3 national memories foregrounding the differences in post memory representations and interpretations of the Great War and 4 representations of the Great War within larger temporal or spatial frameworks focusing specifically on the ideological dimensions of its remembrance in historical socio political gender oriented and post colonial contexts
