*Toil Under the Sun* R. Phillip Ritter, 2006-11-15 *Toil Under the Sun* is a powerful novel of an adopted boy's growth into manhood as a U S Marine during the Forgotten War in Korea It is an intricately crafted account of friendship and betrayal fear and courage shame and atonement which in exquisitely written prose explores the hidden rage and abnegation of an adopted child Many of the great themes of literature and of life are woven into this masterful story love honor respect courage guilt fear faith and redemption And most importantly the story is guided throughout by the fundamental belief that our lives have meaning far beyond our daily toil under the sun The author R Phillip Ritter is the son of a Korean War veteran and the father of two beloved sons one of whom served as a U S Marine in Operation Iraqi Freedom This novel draws considerably from the author's personal experiences of growing up with a deeply humble father who seldom spoke of his experiences in Korea and of learning to face the many challenges of parenting two adopted sons The historical allusions to the Marine defense of Fox Hill in North Korea a struggle against overwhelming odds imbues the story with a desperate realism that creates an important backdrop to this insightful exploration of the inner turmoil of an adopted child

Teichman, 2018 In the past few decades economic analysis of law has been challenged by a growing body of experimental and empirical studies that attest to prevalent and systematic deviations from the assumptions of economic rationality While the findings on bounded rationality and heuristics and biases were initially perceived as antithetical to standard economic and legal economic analysis over time they have been largely integrated into mainstream economic analysis including economic analysis of law Moreover the impact of behavioral insights has long since transcended purely economic analysis of law in recent years the behavioral movement has become one of the most influential developments in legal scholarship in general Behavioral Law and Economics offers a state of the art overview of the field Eyal Zamir and Doron Teichman survey the entire body of psychological research that lies at the basis of behavioral analysis of law and critically evaluate the core methodological questions of this area of research Following this the book discusses the fundamental normative questions

stemming from the psychological findings on bounded rationality and explores their implications for setting the law's goals and designing the means to attain them. The book then provides a systematic and critical examination of the contributions of behavioral studies to all major fields of law including property contracts consumer protection torts corporate securities regulation antitrust administrative constitutional international criminal and evidence law as well as to the behavior of key players in the legal arena litigants and judicial decision makers
