The First Five Million Miles Byron Moore,1955 *The Cosmic Seeders* David L. Pritchard,2017-03-08 John and Janet Marshall are covert operatives on a mission to meet a strange alien race from a distant galaxy When they arrive they find themselves between two warring armadas bent on war Their infant son born in space is killed in the battle and the Marshall s are forced to re evaluate their plans As they contemplate a future without their son a being appears who offers a key to achieving galactic peace The being claiming to be a conduit to a supreme being provides gifts for humanity that will change our destiny forever From the futuristic red domes of Canada s remaining wilderness preserves to the complexities of interstellar diplomacy this sprawling science fiction epic looks to the future to help understand our present **History of Aeronautics and Astronautics** Katherine Murphy Dickson,1968 Chambers's Edinburgh Journal ,1905 **Pink Knight** C J Harvey,2019-03-06 Some ten thousand years ago Earth was visited by beings from another planet in the Barnard s Star system The Babylonians recorded that beings they called the Oannes were amphibious creatures who came to Earth for the welfare of the human race The historian Hellandus describes them as having fishlike features but the head feet and arms of a man They instructed humans in everything a civilized nation should know They built a city beneath Antarctica near the Davis Sea and have lived there peacefully and secretly ever since But now a rogue Dwarf Star called Zarama threatens the very existence of both Earth and the home planet Nazmos Their mythology predicts that a being from another planet will avert disaster Enter Ashley Bonner into this scenario He has been granted special gifts and the Oannes think he may be the predicted one Can Ashley really prevail against a star a third more massive than the sun This is the story of Ashley s development to manhood from age four to seventy and his ultimate sacrifice to save both worlds C J Harvey **Air University Periodical Index** ,1958 U.S. Air Services ,1929 Spent behind the Wheel Julietta Hua,Kasturi Ray,2021-12-21 Exploring professional passenger driving and the gig economy through feminist theories of labor Are taxi drivers in today s era of the ride hail app performing care work akin to domestic and household labor So argue the authors of Spent behind the Wheel Bringing together sociological and legal perspectives with feminist theoretical insights Julietta Hua and Kasturi Ray examine the case study of contemporary professional passenger driving in the United States On the one hand they show the rise of the gig economy has brought new attention to the industry of professional passenger driving On the other hand the vulnerabilities that professional drivers experience remain hidden Drawing on interviews with drivers labor organizers and members of licensing commissions as well as case law and other published resources Hua and Ray argue that working for ride hail companies like Uber and Lyft shares similarities with driving for taxi companies in the impact on driver lives Lyft and Uber sell the idea of industry disruption but in fact they entrench long standing modes of extracting the reproductive labor of their drivers for the benefit of consumer lives Reproductive labor conventionally understood as feminized labor is extracted but masked behind the masculinized racialized bodies of drivers Professional

driving is thus best understood alongside domestic and other gendered service work as reproductive labors devalued and often demonetized to benefit the national economy Spent behind the Wheel is a must for readers interested in critical studies of technological change and the gig economy showing how drivers capacities are drained for the benefit of riders corporations and the maintenance of the racial state
