Ending the War Between Humanity and Nature Patrick C. Lee, 2020-08-19 This book offers plausible explanations for people's puzzling unwillingness to address the human nature interactions that have led us to the precipice that is climate change today Humanity and nature are at war the evidence is all around us catastrophic weather events rising sea levels extinction of species famine wildfires melting polar ice millions of environmental refugees and toxic pollution of air water and soil The list goes on and on What is causing this war and how can it be stopped Is this war an unintended consequence of economic and environmental imperatives pulling in opposite directions This book takes the question and its answer to a deeper level It argues that the root cause of our war on nature might be found in the time honored historically deep myths narratives and stories we tell ourselves and have been telling ourselves for centuries about humanity's place in or out of the natural world
