First of a Kind Bob Bowman, Southland Paper Mills, Inc, 2001 [A Bibliographic Guide to North American Industry](#) Dale A. Stirling, 2009-03-26 With a view toward the heritage of North American Industry [A Bibliographic Guide to North American Industry](#) Health and Hazardous Waste provides recommended readings in historical and contemporary literature related to the origins of specific industries the health and safety issues they face and how they manage waste and prevent pollution It encompasses three areas of industry that are critical to understanding the whole of industry historical development protection of worker health and management of associated hazardous substances and materials This publication serves the reference needs of researchers examining issues of historical development of industry worker exposure to hazardous substances and materials and historic and contemporary management of hazardous wastes The book is unique in using the North American Industrial Classification System as a framework for organizing bibliographic entries Attorneys historians economists and all others interested in historical and contemporary issues facing North American industry find here a useful and important resource *Boggy Slough* Jonathan K. Gerland, 2022-08-24 Boggy Slough Conservation Area is a 19 000 acre unbroken tract of pine and bottomland hardwood forest situated in East Texas Trinity and Houston counties More than twenty miles of the Neches River one of the last free flowing rivers in the state serves as the eastern boundary and for more than a century the land has been one of the state s leading game and industrial forest management areas A unique blend of natural cultural and business history Boggy Slough presents a highly illustrated narrative of the land people and evolving purpose from time of European contact to the present Gerland traces the many phases of land use in this forest as it transitioned from hunting gathering fishing and subsistence farming to an experimental mix of stock raising and large scale commercial forestry eventually becoming important conservation land along the Neches River Corridor Gerland explores the natural features and adaptive land use practices of the region as well as the environmental history of railroads and logging camps barbed wire fences and company cattle ranches and exclusive hunting clubs The underlying story is the evolution and environmental impact of Southern Pine Lumber Company founded in 1893 by T L L Temple Now owned and maintained by the fifth generation of the Temple family the Boggy Slough lands are the last remnants of what was once a 1 2 million acre forest empire Gerland examines the family s and the lumber company s struggles to grow and manage a second third and fourth generation forest ultimately achieving sustainability while managing changing environmental concerns and attitudes *Forestry in the U.S. South* Mason C. Carter, Robert C. Kellison, R. Scott Wallinger, 2015-11-09 During the second half of the twentieth century the forest industry removed more than 300 billion cubic feet of timber from southern forests Yet at the same time partnerships between public and private entities improved the inventory health and productivity of this vast and resilient resource A comprehensive and multilayered history *Forestry in the U S South* explores the remarkable commercial and environmental gains made possible through the collaboration of industry universities and other agencies This

authoritative assessment starts by discussing the motives and practices of early lumber companies which having exhausted the forests of the Northeast by the turn of the twentieth century aggressively began to harvest the virgin pine of the South with production peaking by 1909 The rapidly declining supply of old growth southern pine triggered a threat of timber famine and inspired efforts to regulate the industry By mid century however industrial forestry had its own profit incentive to replenish harvested timber This set the stage for a unique alliance between public and private sectors which conducted cooperative research on tree improvement fertilization seedling production and other practices germane to sustainable forest management By the close of the 1990s concerns about an inadequate timber supply gave way to questions about how to utilize millions of acres of pine plantations approaching maturity No longer concerned with the future supply of raw material and facing mounting global competition the U S pulp and paper industry consolidated restructured and sold nearly 20 million acres of forests to Timber Investment Management Organizations TIMOs and Real Estate Investment Trusts REITs resulting in an entirely new dynamic for private forestry in the South Incomparable in scope Forestry in the U S South spotlights the people and organizations responsible for empowering individual forest owners across the region tripling the production of pine stands and bolstering the livelihoods of thousands of men and women across the South **Congressional Record**

publishers duty free access to Canadian newsprint providing a tremendous boost to Canadian paper manufacturers and a significant subsidy to American newspaper publishers He also explains how Canada attracted massive American foreign investment in paper mills around the same time that US publishers were able to gain greater access to Canada's vast spruce forests Focusing particularly on the Chicago Tribune Stamm provides a new history of the rise and fall of both the mass circulation printed newspaper and the particular kind of corporation in the newspaper business that had shaped many aspects of the cultural political and even physical landscape of North America For those seeking to understand the travails of the contemporary newspaper business *Dead Tree Media* is essential reading
