R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries

more volumes of poetry four plays that reached the London stage and two novels He numbered among his friends many of the best known authors composers and actors of his day and was himself a perceptive and articulate observer of the contemporary scene As a result this first full study of his life and writings drawing on a mass of unpublished letters has much to divert and entertain It shows him in Japan in the early 1920s in Hollywood during an exciting phase in the development of the film industry in Austria and Bavaria during the rise of Hitler and escaping from France in 1940 He was only fifty one when he died and his life was not a happy one bad health went with an inability despite a generous and affectionate nature to form stable relationships with women What is remarkable is the sometimes impractical single mindedness with which he pursued his vocation as a poet He believed he was born to write poetry and for him that always came first BOOK JACKET
