It brings together relevant factors drawn from social, cultural, economic and political analysis. As a case study in economic growth, it portrays the interplay between individuals and the social and economic conditions which surround them and demonstrates the limitations of the institutions within which they function. Controversial points of interpretation are discussed and supported with documentation gathered from field work. Originally published in 1964.

The Herring and the Herring Fishery, with Chapters on Fishes and Fishing, and Our Sea Fisheries in the Future John William De Caux, 1881

Angling Admonitions Barry Blackstone, 2020-06-02 Contained in this book are one hundred and fifty fish tales from fifty years of fishing shared by an avid fisherman who has also spent the last fifty years fishing for men as a small town pastor in New England. This accounting of passed fishing trips and fish caught reflects on the spiritual application to the techniques and tactics used in fishing for trout and salmon and a few other species of fish to the biblical application for people Jesus called fishers of men. In each of these short stories Pastor Blackstone reveals to his reader the wonderful blessings that come from leading someone to a saving knowledge of his Lord and Savior Jesus Christ. The author is convinced that Jesus deliberately chose fishermen to be his earliest disciples; men he would call apostles because those Galilean fishermen had the necessary characteristics and qualifications to teach, cast his gospel and to share it with the multitudes. It is the hope of the writer that this book will not only be of interest to someone that fishes but ultimately will be found profitable to anyone that wants to share his or her faith in Jesus Christ with others.
