Great Wall And The Empty Fortress Chinas Search For Security:

The Great Wall and the Empty Fortress Andrew J. Nathan, Robert S. Ross, 1998 Many see China and the United States on the path to confrontation The Chinese leadership violates human rights norms It maintains a harsh rule in Tibet spars aggressively with Taiwan and is clamping down on Hong Kong A rising power with enormous assets China increasingly considers American interests an obstacle to its own But the authors argue the United States is the least of China's problems Despite its sheer size economic vitality and drive to upgrade its military forces China remains a vulnerable power crowded on all sides by powerful rivals and potential foes As it has throughout its history China faces immense security challenges and their sources are at and within China's own borders China's foreign policy is calibrated to defend its territorial integrity against antagonists who are numerous near and strong The authors trace the implications of this central point for China's relations with the United States and the rest of the world *The Great Wall and the Empty Fortress* Andrew

Nathan, 2001-11-01 China's Search for Security Andrew J. Nathan, Andrew Scobell, 2015-02-10 Despite its impressive size and population economic vitality and drive to upgrade its military China remains a vulnerable nation surrounded by powerful rivals and potential foes Understanding China's foreign policy means fully appreciating these geostrategic challenges which persist even as the country gains increasing influence over its neighbors Andrew J Nathan and Andrew Scobell analyze China's security concerns on four fronts at home with its immediate neighbors in surrounding regional systems and in the world beyond Asia By illuminating the issues driving Chinese policy they offer a new perspective on the country's rise and a strategy for balancing Chinese and American interests in Asia Though rooted in the present Nathan and Scobell's study makes ample use of the past reaching back into history to illuminate the people and institutions shaping Chinese strategy today They also examine Chinese views of the United States explain why China is so concerned about Japan and uncover China's interests in such problematic countries as North Korea Iran and the Sudan The authors probe recent troubles in Tibet and Xinjiang and explore their links to forces beyond China's borders They consider the tactics deployed by mainland China and Taiwan as Taiwan seeks to maintain autonomy in the face of Chinese advances toward unification They evaluate the strengths and weaknesses of China's three main power resources economic power military power and soft power The authors conclude with recommendations for the United States as it seeks to manage China's rise Chinese policymakers understand that their nation's prosperity stability and security depend on cooperation with the United States If handled wisely the authors believe relations between the two countries can produce mutually beneficial outcomes for both Asia and the world *Chinese Foreign Policy* Suisheng Zhao, 2016-07-22 This volume explores how China is adapting to international norms and practices while still giving primacy to its national interests It examines China's strategic behaviour on the world stage particularly in its relationships with major powers and Asian neighbours *China and International Institutions* Marc Lanteigne, 2005-11-14 China has shifted its foreign policy from one that avoided engagement in international organizations to

one that is now embracing them These moves present a new challenge to international relations theory How will the global community be affected by the engagement of this massive global power with international institutions This new study explores why China has chosen to abandon its previous doctrine of institutional isolation and details how it is currently unable to balance American power unilaterally and details an indirect path to greater power In addition it includes the first major analysis of the Shanghai Cooperation Organization comprising China Russia and most of Central Asia In contrast to many works on the rise of China question which place an emphasis on her material goods and powers this book delivers a new approach It shows how the unique barriers Beijing is facing are preventing the country from taking the traditional paths of territorial expansion and political economic domination in order to develop as a great power One of these barriers is the United States and its inherent military and economic strength The other is the existence of nuclear weapons which makes direct great power conflict unacceptably costly China has therefore opted for a new path using institutions as stepping stones to great power status This book will be of great interest to students and scholars of international relations world politics world history and Asia

Peacemaking from Above, Peace from Below Norrin M. Ripsman, 2016-05-05 In Peacemaking from Above Peace from Below Norrin M Ripsman explains how regional rivals make peace and how outside actors can encourage regional peacemaking Through a qualitative empirical analysis of all the regional rivalries that terminated in peace treaties in the twentieth century including detailed case studies of the Franco German Egyptian Israeli and Israeli Jordanian peace settlements Ripsman concludes that efforts to encourage peacemaking that focus on changing the attitudes of the rival societies or democratizing the rival polities to enable societal input into security policy are unlikely to achieve peace Prior to a peace treaty he finds peacemaking is driven by states often against intense societal opposition for geostrategic reasons or to preserve domestic power After a formal treaty has been concluded the stability of peace depends on societal buy in through mechanisms such as bilateral economic interdependence democratization of former rivals cooperative regional institutions and transfers of population or territory Society is largely irrelevant to the first stage but is critical to the second He draws from this analysis a lesson for contemporary policy Western governments and international organizations have invested heavily in efforts to promote Israeli Palestinian and Indo Pakistani peace by promoting democratic values economic exchanges and cultural contacts between the opponents Such attempts to foster peace are likely to waste resources until such time as formal peace treaties are concluded between longtime adversaries Routledge

Cheng, 2016-09-16 Multilateral security forums in the Asia Pacific region have evolved but bilateral defence alliances continue to form the principle pillars of national security for most nations in the region This text presents a survey of issues confronting the Asia Pacific region as it enters year 2000 *Philippine Security in the Age of Terror* Rommel

Banlaoi, 2009-10-13 As the twelfth most populous nation the Philippines diverse religious and ethnic population makes it an ideal example of the changing tenet of what is deemed national security post 9/11 Issues previously considered social or public are now viewed as security issues Food production is now analyzed in the context of food security and environmental

International History of the Twentieth Century and Beyond Antony Best, Jussi M. Hanhimäki, Joseph A.

Maiolo, Kirsten E. Schulze, 2014-12-17 This hugely successful global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors have produced an authoritative yet accessible and seamless account of the history of international relations in the last century covering events in Europe, Asia, the Middle East, Africa and the Americas They focus on the history of relations between states and on the broad ideological, economic and cultural forces that have influenced the evolution of international politics over the past one hundred years The third edition is thoroughly updated throughout to take account of the most recent research and global developments and includes a new chapter on the international history of human rights and its advocacy organizations including NGOs Additional new features include New material on the Arab Spring including specific focus on Libya and Syria Increased debate on the question of US decline and the rise of China A timeline to give increased context to those studying the topic for the first time A fully revised companion website including links to further resources and self testing material can be found at www.routledge.com/cw/best Antony Best is Associate Professor in International History at the London School of Economics Jussi M Hanhimäki is Professor of International History and Politics at the Graduate Institute of International Studies Geneva Joseph A Maiolo is Professor of International History at the Department of War Studies Kings College London Kirsten E Schulze is Associate Professor in International History at the London School of Economics China, State Sovereignty and International Legal Order Phil C.W. Chan, 2015-05-19

China's rise has aroused apprehension that it will revise the current rules of international order to pursue and reflect its power and that in its exercise of State sovereignty it is unlikely to comply with international law This book explores the extent to which China's exercise of State sovereignty since the Opium War has shaped and contributed to the legitimacy and development of international law and the direction in which international legal order in its current form may proceed It examines how international law within a normative institutional framework has moderated China's exercise of State sovereignty and helps mediate differences between China's and other States approaches to State sovereignty such that State sovereignty and

international law may be better understood **Taiwan's Security in the Post-Deng Xiaoping Era** Martin L. Lasater, Peter Kien-Hong Yu, 2023-09-01 Originally published in 2000 Taiwan's Security in the Post Deng Xiaoping Era analyses the many domestic and international factors comprising Taiwan's security situation in the late 1990s and early 21st Century The security of Taiwan remains of international strategic concern and the military situation in the Taiwan Strait is increasingly volatile nearly 25 years after this book was first published This detailed study concludes that Taiwan's overall security will become increasingly dependent on external factors and that the most important contribution Taipei can make to its own security other than military preparation is political astuteness **Critical Security and Chinese Politics** Juha A.

Vuori, 2014-10-24 This book examines how critical approaches to security developed in Europe can be used to investigate a Chinese security issue the case of the Falungong The past few decades have produced a rich field of theoretical approaches to security in Europe In this book the security specific notions of securitization the politics of insecurity and emancipation are used as analytical approaches to investigate the anti Falungong campaign in the People's Republic of China This campaign launched in 1999 was the largest security related propaganda campaign since 1989 and was directed against a group of qigong practitioners who were presented as a grave threat to society The campaign had major impacts as new security legislation was established and human rights organizations reported severe mistreatment of practitioners This book approaches one empirical case with three approaches in order to transcend the tendency to pit one approach against another It shows how they highlight different aspects in investigation and how they can be combined to gain more comprehensive insights and thereby invigorate renewed debate in the field Furthermore this is used as a vehicle to discuss more general philosophical issues of theory development and theory development and will assist students to comprehend the effects research framework selection has on a piece of research Such discussions are necessary in order to apply the frameworks in investigations that go beyond the socio political context they were originally developed in This book will be of interest to students of critical security studies Chinese politics research methods and IR in general Routledge Handbook of

Contemporary Taiwan Gunter Schubert, 2016-05-20 The Routledge Handbook of Contemporary Taiwan offers a comprehensive overview of both contemporary Taiwan and the Taiwan studies field Each contribution summarises the major findings in the field and highlights long term trends recent observations and possible future developments in Taiwan Written by an international team of experts the chapters included in the volume form an accessible and fascinating insight into contemporary Taiwan Up to date interdisciplinary and academically rigorous the Handbook will be of interest to students academics policymakers and others in search of reliable information on Taiwanese politics economics culture and society

A Dictionary of Politics and International Relations in China Chris Ogden, 2019-03-21 This new dictionary defines critical terms relating to China's politics since 1949 It comprises over 200 succinct definitions covering core political structures ideologies and practices as well as individuals groups and concerns that are essential to them Covering the full spectrum of

Chinese politics authoritative and up to date entries include charm offensive cyber security hukou system Silk Road and UN Peace Keeping Operations Complete with useful web links this new addition to the Oxford Quick Reference series is an indispensable companion for students studying Asian and international politics as well as for professionals whose interests relate to China's expanding domestic and foreign politics

China's Foreign Policy since 1978: Return to Power Nicholas Khoo, 2020-11-27 The success of China's post 1978 reforms has provided it with significant resources to reshape its external environment This book shows how China has leveraged this power from a neorealist perspective projecting military and economic power to advance Chinese interests

Transition Scenarios David P. Rapkin, William R. Thompson, 2013-09-24 China's rising status in the global economy alongside recent economic stagnation in Europe and the United States has led to considerable speculation that we are in the early stages of a transition in power relations Commentators have tended to treat this transitional period as a novelty but history is in fact replete with such systemic transitions sometimes with perilous results Can we predict the future by using the past And if so what might history teach us With *Transition Scenarios* David P. Rapkin and William R. Thompson identify some predictors for power transitions and take readers through possible scenarios for future relations between China and the United States Each scenario is embedded within a particular theoretical framework inviting readers to consider the assumptions underlying it Despite recent interest in the topic the probability and timing of a power transition and the processes that might bring it about remain woefully unclear Rapkin and Thompson's use of the theoretical tools of international relations to crucial transitions in history helps clarify the current situation and also sheds light on possible future scenarios

Collateral Damage Nicholas Khoo, 2011 Although the Chinese and the Vietnamese were Cold War allies in wars against the French and the Americans their alliance collapsed and they ultimately fought a war against each other in 1979 More than thirty years later the fundamental cause of the alliance's termination remains contested among historians international relations theorists and Asian studies specialists Nicholas Khoo brings fresh perspective to this debate Using Chinese language materials released since the end of the Cold War Khoo revises existing explanations for the termination of China's alliance with Vietnam arguing that Vietnamese cooperation with China's Cold War adversary the Soviet Union was the necessary and sufficient cause for the alliance's termination He finds alternative explanations to be less persuasive These emphasize nonmaterial causes such as ideology and culture or reference issues within the Sino Vietnamese relationship such as land and border disputes Vietnam's treatment of its ethnic Chinese minority and Vietnam's attempt to establish a sphere of influence over Cambodia and Laos Khoo also adds to the debate over the relevance of realist theory in interpreting China's international behavior during both the Cold War and post Cold War eras While others see China as a social state driven by nonmaterial processes Khoo makes the case for viewing China as a quintessential neorealist state From this perspective the focus of neorealist theory on security threats from materially stronger powers explains China's foreign policy not only toward the Soviet Union but also in relation to its Vietnamese allies

China's Ascent Robert S. Ross, Zhu Feng, 2008 Assessments of China's importance on the world stage usually focus on a single dimension of China's increasing power rather than on the multiple sources of China's rise including its economic might and the continuing modernization of its military This book offers multiple analytical perspectives constructivist liberal neorealist on the significance of the many dimensions of China's regional and global influence Distinguished authors consider the likelihood of conflict and peaceful accommodation as China grows ever stronger They look at the changing position of China from the inside How do Chinese policymakers evaluate the contemporary international order and what are the regional and global implications of that worldview The authors also address the implications of China's increasing power for Chinese policymaking and for the foreign policies of Korea Japan and the United States Contributors Robert Art Brandeis University Avery Goldstein University of Pennsylvania G John Ikenberry Princeton University Byung Kook Kim Korea University Jonathan Kirshner Cornell University Jeffrey W Legro University of Virginia Jack S Levy Rutgers University Qin Yaqing China Foreign Affairs University Robert S Ross Boston College Akio Takahara University of Tokyo Tang Shiping Nanyang Technological University Singapore Wei Ling China Foreign Affairs University Zhu Feng Peking University

The Routledge Handbook of Asian Security Studies Sumit Ganguly, Andrew Scobell, Joseph Chinyong Liow, 2009-12-04 The Handbook of Asian Security Studies provides a detailed exploration of security dynamics in the three distinct subregions that comprise Asia and also bridges the study of these regions by exploring the geopolitical links between each of them This Handbook is divided geographically into four main parts Part I Northeast Asia Part II South Asia Part III Southeast Asia Part IV Cross Regional Issues Despite the richness and complexity of security issues in Asia and the theoretical and conceptual debates these have spawned there is no single volume that scholars can turn to for succinct cogent and dispassionate analysis of these issues The Handbook of Asian Security Studies fills this important gap in the literature dealing with all major security issues in the area which range from unresolved territorial disputes maritime and inland irredentist claims and intra state conflicts to transnational terrorist movements and nuclear rivalries This volume contains essays by many leading scholars in the field and will be essential reading for all students of Asian security Asian politics and International Relations in general Sumit Ganguly is a professor of Political Science and holds the Rabindranath Tagore Chair in Indian Cultures and Civilizations at Indiana University Bloomington He is the author co author editor or co editor of some 15 books on South Asian politics He is also the founding editor of the only refereed social science journal devoted to the study of contemporary India The India Review and a founding editor of Asian Security Andrew Scobell is Associate Professor of International Affairs and Director of the China Certificate Program at the Bush School of Government and Public Affairs at Texas A M University located in College Station Texas He is co editor of the journal Asian Security and has edited or co edited 12 books on Asian security topics Joseph Chinyong Liow is Associate Professor and Head of Research at the Rajaratnam School of International Studies Nanyang Technical University Singapore He is co editor of Order and Security in Southeast Asia Routledge 2005 and
