**Engineers** DK, 2012-04-16 Engineers have always had a huge influence on the way we live and how our world looks They create lasting solutions to the biggest challenges and construct iconic and incredible buildings that have literally stood the test of time Engineers tells their story from the men who built the Great Pyramid in Egypt to the pioneers of space travel Often many different minds worked together or built on the work of previous generations to achieve a working version of a great idea Engineers explores this progression of ideas from initial concept to prototype and finished design The great achievements of engineers go hand in hand with the world's greatest structures such as aqueducts monuments bridges and dams These works are shown in detail and highlighted with beautiful illustrations photographs and technical drawings

**An Encyclopaedia of British Bridges** David McFetrich, 2019-04-30 An already impressive reference work has been made significantly more valuable a well illustrated alphabetized compendium of notable bridges The Happy Pontist Bridges have a universal appeal as examples of man's mastery of nature from picturesque packhorse bridges to great spans stretching across broad estuaries and the development of the technology that allows ever more audacious constructions is never ending Of the million or more bridges throughout Great Britain David McFetrich has selected those that are significant in terms of their design construction or location or of their connections with people or events of history His definitive book contains 1 600 separate entries for individual bridge sites or related groups of bridges covering more than 2 000 different structures 165 general entries about different types of bridge and such topics as collapses and failures and a summary of about 200 record holding bridges in 50 different categories The concise text is supported by more than 900 illustrations and diagrams The result is a fascinating and readily accessible compendium The Institute of Civil Engineers ICA is also on board A valuable resource to use if you plan to visit some of these structures while on holiday or are merely planning a day out East Yorkshire Family History Society Well

written and researched and eminently readable Because of the ubiquity of bridges throughout Great Britain this volume should have wide appeal NZ Crown Mines Full of details covering the many bridges around the UK I found it fascinating to see the variety of bridges around Britain even the ones not railway related Rail Advent **Raeburn** ,1905 **Reader's Guide to British History** David Loades,2020-12-17 The Reader sGuide to British History is the essential source to secondary material on British history This resource contains over 1 000 A Z entries on the history of Britain from ancient and Roman Britain to the present day Each entry lists 6 12 of the best known books on the subject then discusses those works in an essay of 800 to 1 000 words prepared by an expert in the field The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication **Masters in Art** ,1905 The Children's Story of Westminster Abbey G. E. Troutbeck,1909 *Amazing People of Scotland* - Charles Margerison,2012-11-01 Home to the Loch Ness monster kilts clans and medieval castles Scotland was also the birthplace of some amazing innovators who made major contributions to our world We watch television every day but few of us know that it was invented by a Scottish engineer named John Logie Baird He also developed colour television and other ways of communicating that have become intrinsic parts of everyday life Be inspired by the rags to riches story of Andrew Carnegie an entrepreneurial magnate who amassed riches never seen before He also unselfishly supported the betterment of the lives of others through his generosity as a great philanthropist Meet Thomas Telford the Colossus of Roads who has left an immense legacy in what he designed and built Discover how James Lind became an outstanding clinician responsible for saving countless lives to this very day Be blown away by the life story of James Watt whose work on the steam engine and other innovations has transformed our world Each story comes to life through BioViews These are short biographical narratives similar to interviews They provide an easy way of learning about amazing people who made major contributions and changed our world **Engineering and Finance** ,1925 Industrial Management ,1903 **Journal of the Royal Society of Arts** Royal Society of Arts (Great Britain),1976 *The Surveyor & Municipal & County Engineer* ,1929
