Carr, RaeAnne Thayne, Carla Neggers, Sheila Roberts, 2018-07-16 Four New York Times bestselling authors bring the best of their beloved small town romance series in this new Small Town Romance Collection What We Find by Robyn Carr Under extreme pressure neurosurgeon Maggie Sullivan knows she needs to slow down before she burns out completely and the best place she can do that is Sullivan's Crossing But Maggie's world is rocked and she must now take responsibility for the land that's been in her family for generations When a quiet and serious looking hiker Cal Jones offers to lend a hand Maggie is suspicious of his motives until she finds out the true reason for his deliberate isolation The time Cal and Maggie spend together gives Maggie hope for something brighter just on the horizon if only they can learn to find peace and healing and perhaps love with each other Serenity Harbor by RaeAnne Thayne Computer tech millionaire Bowie Callahan is about the last person that schoolteacher Katrina Bailey wants to work for As far as she can see he's not up to the task of caring for his young half brother Milo But Kat is especially if it brings her closer to her own goal of adopting Bo never imagined he'd be tasked with caring for a sibling he didn't know existed Then again he never pictured himself impulsively kissing vibrant compassionate Katrina in the moonlight Now he's ready to make her dream of family come true and hoping there's room in it for him too Secrets of the Lost Summer by Carla Neggers A wave of hope carries Olivia Frost back to her small New England hometown nestled in the beautiful Swift River Valley She's transforming a historic home into an idyllic getaway picturesque and perfect if only the absentee owner will fix up the eyesore next door Dylan McCaffrey's ramshackle house is an inheritance he never counted on It also holds the key to a generations old lost treasure he can't resist any more than he can resist his new neighbor Against this breathtaking landscape Dylan and Olivia pursue long buried secrets and discover a mystery wrapped in a love story past and present Sweet Dreams on Center Street by Sheila Roberts Sweet Dreams Chocolate Company has been in the Sterling family for generations but now it looks as if they're about to lose it to the bank That would be a disaster for the family and for the town of Icicle Falls Washington Can Samantha the eldest daughter and new head of the company come up with a way to save it Unfortunately the fate of Sweet Dreams is in the hands of her archenemy Blake

Preston the bank manager with the football hero good looks It s enough to drive her to chocolate But Blake s also enough to convince her that believe it or not there s something even better than chocolate Previously published as Better than Chocolate **Bowker's Directory of Videocassettes for Children 1999** R R Bowker Publishing,Bowker,1999-03

Library,Charles Francis Bell,1914 *Progress or Collapse* Roberto De Vogli,2013-01-03 Human progress is heading toward collapse There are converging ecological crises looming on the horizon climate change peak oil water shortages fish depletion and food scarcities The world is on a collision course against the limits of the ecosystem Modern societies are consuming polluting and growing as if there is no tomorrow Indeed there may not be one In *Progress or Collapse* Roberto De Vogli guides us through the multiple converging global crises of economic progress He explores the connections between the environmental crisis and the psychological social cultural political and economic emergencies affecting modern societies It is not a coincidence the author argues that global ecological destruction is occurring in tandem with other crises rising mental disorders mindless consumerism rampant conformism status competition civic disengagement startling social inequalities global financial instability and widespread political impasse In this hard hitting analysis Roberto De Vogli identifies the root cause of all these symptoms of societal breakdown neoliberalism defined as market greed He argues that in recent decades modern societies have been dominated by a suicidal economic doctrine based on two articles of faith the greed creed and the market God The greed creed states that people are nothing but selfish profiteers in a perpetual search for status and wealth The market God is the belief that all societal and human affairs are best regulated as market exchanges What is to be done Can we stop progress toward collapse Given the current distribution of power and wealth and the state of psychological and political inertia in which we are trapped our chances of redefining progress around alternative values and embracing a new philosophy of life are slim Yet the history of human emancipation has often been shaped by giant leaps forward In the past civic struggles have overcome the limits of the possible Whether this will happen again in the future is the central question of our time This book will be of interest to researchers and students of ecology psychology public health epidemiology human development political philosophy economics sociology and politics Measuring the Book Circulation Use of a Small Academic Library Collection Mary Kane,Mary Kane Trochim,Arthur H.
