Dostoevsky's Dialectics and the Problem of Sin Ksana Blank, 2010-07-31 In Dostoevsky's Dialectics and the Problem of Sin Ksana Blank borrows from ancient Greek Chinese and Christian dialectical traditions to formulate a dynamic image of Dostoevsky's dialectics distinct from Hegelian dialectics as a philosophy of compatible contradictions Expanding on the classical triad of Goodness Beauty and Truth Blank guides us through Dostoevsky's most difficult paradoxes goodness that begets evil beautiful personalities that bring about grief and criminality that brings about salvation Dostoevsky's philosophy of contradictions this book demonstrates contributes to the development of antinomian thought in the writings of early twentieth century Russian religious thinkers and to the development of Bakhtin's dialogism Dostoevsky's Dialectics and the Problem of Sin marks an important and original intervention into the enduring debate over Dostoevsky's spiritual philosophy

The Problem of Slavery in Western Culture David Brion Davis, 1988-10-20 Winner of several national awards including the 1967 Pulitzer Prize this classic study by David Brion Davis has given new direction to the historical and sociological research of society's attitude towards slavery Davis depicts the various ways different societies have responded to the intrinsic contradictions of slavery from antiquity to the early 1770s in order to establish the uniqueness of the abolitionists response While slavery has always caused considerable social and psychological tension Western culture has associated it with certain religious and philosophical doctrines that gave it the highest sanction The contradiction of slavery grew more profound when it became closely linked with American colonization which had as its basic foundation the desire and opportunity to create a more perfect society Davis provides a comparative analysis of slave systems in the Old World a discussion of the early attitudes towards American slavery and a detailed exploration of the early protests against Negro bondage as well as the religious literary and philosophical developments that contributed to both sides in the controversies of the late eighteenth century This exemplary introduction to the history of slavery in Western culture presents the traditions in thought and value that gave rise to the attitudes of both abolitionists and defenders of slavery in the late eighteenth century as well as the nineteenth century

Western Culture in Gospel Context David J. Kettle, 2011-04-18 Approaching us in sovereign freedom God comes alive to us we come alive to God and all creation comes alive as a sign pointing to God In the gospel of Jesus Christ God gives and discloses himself in this immediate way as our ultimate context and host within the provisional medium of creation This life

giving gospel is met by blindness however among those who live today in a collapsing Western culture This is because their imaginative world is shaped by habitual assumptions and practices that lie largely unacknowledged deep within that culture and that preclude openness to the gospel Moreover Western Christians themselves widely share these assumptions betraying the gospel into cultural captivity God calls for the conversion of Western culture to the living gospel Crucially this must include as Lesslie Newbigin recognized a repentance from modern Western assumptions about knowledge Part One explores seeking knowing and serving God as providing a true paradigm for understanding all human enquiry knowledge and action Part Two examines ten resulting hot spots where conversion from prevailing cultural assumptions is vital for authentic mission to Western culture

Critical Perspectives in Happiness Research Luka Zevnik, 2014-04-07 This book presents an interdisciplinary exploration of the origins of happiness in the modern Western culture and makes the argument that happiness is not universal but is instead a culturally and historically specific experience characteristic only to the Western world It begins with an overview of the main research approaches to happiness and then studies the important but elusive theme in the context of culture and relations of power The second part of the book analyses the social religious ethical and political processes that lead to the emergence of the experience of happiness including consumer culture in contemporary societies It presents an analysis of the medieval Christian experience which concludes that the modern experience of happiness only emerged in the 17th and 18th century when the ideal of human existence increasingly started to be pursued in the present life In its conclusion this book explores the concept of modernization as the collective pursuit of happiness

Ancient Sins . . . Modern Addictions R. Scott Sullender, 2013-07-05 There is a virtual epidemic of addiction in the United States both traditional addictions to drugs and alcohol but also newer addictions like sex gambling rage work and food eating Some authorities have labeled addictions the number one mental health problem in America We are spending millions of dollars annually trying to prevent understand and treat this epidemic and yet by any measure of success we are

losing this war In this cultural context Dr Sullender invites us to look again at the spiritually based scheme of the Seven Deadly Sins which originated at the dawn of Western civilization He suggests that what our spiritual forebears meant by deadly is best captured in the modern concept of addiction Based on this thesis this book explores what is addictive about the sins of pride envy anger greed gluttony sloth and lust and suggests that these sins are all obsessive and as such become the mental component in the addictive cycle Each chapter concludes by offering some spiritual resources practices and insights that can help us win the battle against addiction which is ultimately won or lost on a mental or spiritual plane

Griffin C.S.C.,2016-03-15 Fr Robert Griffin C S C 1925 1999 was a beloved member of the Notre Dame community With his cocker spaniel Darby O Gill he was instantly recognizable on campus He was well known for his priestly work counseling students as university chaplain for thirty years his summer ministry to the homeless and parishioners in New York City and his weekly columns in the student newspaper The Observer in which he invited the campus community to reflect with him on the challenges and joys of being Catholic in a time of enormous social and religious change This collection draws together essays that Griffin wrote for Notre Dame Magazine between 1972 and 1994 In them he considers many of the challenges that beset church and campus such as the laicization of priests premarital sex the erosion of institutional authority intolerance toward gay people and failure of fidelity to the teachings of the church Griffin also ruminates on the distress that human beings experience in the ordinariness of their lives the difficulty of communication in families grief over the loss of family and friends the agonies of isolation and the need for forgiveness Griffin s shrewd insights still ring true for people today His efforts to temper the winds of institutional rules cultural change and personal suffering reveal a mind keenly attuned to the need for understanding human limitations and to the presence of grace in times of change Griffin quotes from the works of literary modernists such as Fitzgerald and Hemingway whose novels and short stories he loved in these allusions and in his own reflections and experiences Griffin bridges the spiritual and the secular and offers hope for reconciliation and comfort **How to Destroy Western Civilization and Other Topics** Peter Kreeft, Ph.D.,2021-03-18 Peter Kreeft presents a series of brilliant essays about many of the problems that undermine our Western civilization along with ways to address them These essays are not new proposals or solutions to today s problems he says They are old They have been tried and have worked They have made people happy and good That is what makes them so radical and so unusual today In his witty readable style Kreeft implores us to gather wisdom and preserve it as the monks did in the Middle Ages He offers relevant philosophical precepts divided into various categories that can be collected and

remembered in order to guide us and future generations in the days ahead Kreeft emphasizes that the most necessary thing to save our civilization is to have children If we don't have children our civilization will cease to exist The unmentionable elephant in the room he tells us is sex properly understood Religious liberty is being attacked in the name of sexual liberty in other words abortion Kreeft encourages us to fight back with joy and confidence with the one weapon that will win the future children

Religion and Culture Michel Foucault, 2013-09-13 First Published in 1999 Postmodern theorist Michel Foucault is best known for his work on power knowledge and on the regulation of sexuality in modern society Yet throughout his life Foucault was continually concerned with Christianity other spiritual movements and religious traditions and the death of God and these themes and materials scattered are throughout his many writings *Religion and Culture* collects for the first time this important thinker's work on religion religious experience and society Here are classic essays such as *The Battle for Chastity* alongside those that have been less widely read in English or in French Selections are arranged in three groupings *Madness Religion and the Avant Garde Religions Politics and the East and Christianity Sexuality and the Self* Fragments of an Unpublished Volume Ranging from Foucault's earliest studies of madness to *Confessions of the Flesh* the unpublished fourth volume of his *History of Sexuality* his final thoughts on early Christianity *Religion and Culture* makes Foucault's work an indispensable part of contemporary religious thought while also making an important link between religious studies and cultural studies

The Tyranny of Clichés Jonah Goldberg, 2013-04-30 An indispensable and enduring field guide to the arguments the left makes and the ones it tries to avoid *The Claremont Review of Books* According to Jonah Goldberg if the greatest trick the devil ever pulled was convincing the world he didn't exist the greatest trick liberals ever pulled was convincing themselves they're not ideological Today objective journalists academics and moderate politicians peddle some of the most radical arguments by hiding them in homespun aphorisms Barack Obama casts himself as a disciple of reason He's a pragmatist opposed to the ideology and drama of the Right solely concerned with what works And today's liberals follow his lead spouting countless clichés such as One man's terrorist is another man's freedom fighter Sure if the other man is an idiot Was Martin Luther King Jr a terrorist Was Bin Laden a freedom fighter Violence never solves anything Really It solved our problems with King George III and ended slavery We need complete separation of church and state In other words all expressions of faith should be barred from politics except when they support liberal programs With humor and passion Goldberg dismantles these and many other Trojan horses that liberals use to cheat in the war of ideas He shows that the Pro

gressive tradition of denying an ideological agenda while pursuing it vigorously under the false flag of reasonableness is alive and well And he reveals how this dangerous game may lead us further down the path of self destruction **The Missionary Review of the World** ,1916 *How the Catholic Church Built Western Civilization* Thomas Woods Jr.,2012-09-18 Written to highlight the Catholic Church s central role in shaping Western Civilization this book shows how the Church gave birth to modern science international law the free market economy and much much more **Wrong-Doing, Truth-Telling** Michel Foucault,2014-06-04 Three years before his death Michel Foucault delivered a series of lectures at the Catholic University of Louvain that until recently remained almost unknown These lectures which focus on the role of avowal or confession in the determination of truth and justice provide the missing link between Foucault s early work on madness delinquency and sexuality and his later explorations of subjectivity in Greek and Roman antiquity Ranging broadly from Homer to the twentieth century Foucault traces the early use of truth telling in ancient Greece and follows it through to practices of self examination in monastic times By the nineteenth century the avowal of wrongdoing was no longer sufficient to satisfy the call for justice there remained the question of who the criminal was and what formative factors contributed to his wrong doing The call for psychiatric expertise marked the birth of the discipline of psychiatry in the nineteenth and twentieth centuries as well as its widespread recognition as the foundation of criminology and modern criminal justice Published here for the first time the 1981 lectures have been superbly translated by Stephen W Sawyer and expertly edited and extensively annotated by Fabienne Brion and Bernard E Harcourt They are accompanied by two contemporaneous interviews with Foucault in which he elaborates on a number of the key themes An essential companion to *Discipline and Punish* *Wrong Doing Truth Telling* will take its place as one of the most significant works of Foucault to appear in decades and will be necessary reading for all those interested in his thought *The Expository Times* ,1918
