Great Thinkers A-z Julian Baggini, 2007-01-01 **Beyond Animal Rights** Tony Milligan, 2010-12-09 From vegetarianism to scientific experimentation this book is an ethical exploration of our responsibilities To The animals with whom we share the planet **The Ethics of Trade and Aid** Christopher D. Wraight, 2011-02-03 International development is now more topical than ever Billions of dollars have been given in grants or spent on the infrastructure of the development industry The global aid and trade industry is gigantic and high profile It is also hugely controversial Trade deals are accused of being unfair Aid agencies are suspected of wasting funds or engaging with corrupt regimes or encouraging dependency Despite the vast amounts of political capital spent on international development it remains unclear what works and what doesn't Global inequality remains stark Economic analysis can help resolve some of these issues But some of the questions raised are of a more fundamental nature They are issues of fairness equity right and wrong The Ethics of Trade and Aid demonstrates how political philosophy provides us with insights often passed over in modern development jargon Christopher Wraight scrutinises the trade and aid industry through the lens of philosophy and ultimately shows that a compassionate rational and humane engagement with the global economy does hold the promise of a better more equal life

The Comprehensive Handbook of Constructivist Teaching James Pelech, 2010-02-01 While many people talk about the Constructivist philosophy there has not been a publication that provides a detailed description of what a Constructivist classroom sounds like and looks like This book fills that void by examining the philosophy translating it into teaching strategies and providing over forty examples These examples come from the elementary level up to and including the collegiate level and include all content areas These examples show how the Constructivist educator uses the linguistic mode the visual mode and the kinesthetic mode to create a class environment in which the Constructivist philosophy flourishes Examples of student work are provided the book also includes chapters on note taking Problem Based Learning PBL action research and other Constructivist resources Written in user friendly form this book presents a concrete and step by step approach for translating the Constructivist philosophy into classroom practice This book is intended for every Constructivist researcher practitioner and teacher educator The researcher and teacher educator will benefit from topics such as the history of Constructivist thought the principles of Constructivism and action research This book is more than a list of recipes and this will be beneficial to the practitioner Starting with the principles of Constructivism and bridging to four basic teaching strategies the practitioner is guided on how to use different learning modes and meta strategies to create a true Constructivist practice An educator's life is made up of one's philosophy teaching principles daily strategies resources and research tools This book provides an in depth look from the Constructivist perspective at each one of these components In every sense of the word this book is truly comprehensive **Safe Spaces** Cornelia Roux, 2012-10-26 This book examines the

crucial issues affecting Human Rights Education in contexts of culture religious and societal diversity It exhibits an impressive scholarly achievement capturing and combining the insights of both established academics and emerging researchers Each author succeeds in distilling the knowledge of their particular fields of interest as well as conveying the essence of their intuitive understanding and the richness of the context This book considers a variety of connected content and methodological issues in three major sections Philosophical and policy perspectives Gender discourses diverse perspectives and Discourses on narratives as safe spaces The Edition is further strengthened by allowing international reviewers the opportunity of engaging with the contributors in the Introduction and Conclusion an innovative departure from conventional formats and which will provide a global perspective to the readers The focus of the various chapters succeeds in establishing both a foundation and platform for dialogue surrounding human rights and human rights education in modern policy and governance Aptly named Safe Spaces the Edition offers in depth and credible safe nuances spaces in terms of the somewhat reified concept of human rights at a time when human rights remains a highly topical and contested international issue As such the book imparts an immense scope of theoretical and empirical perspectives reflected by the distinguished intellectuals who navigate the terrain of their respective disciplines with profound erudition This book represents a collaborative effort of immeasurable value This exemplary edition is both timeous and will prove timeless [101 Great Philosophers](#) Madsen Pirie,2009-09-01 101 Great Philosophers is a concise and accessible guide to 101 of the greatest minds that contributed to the legacy of western philosophy From the ancient Greeks to present day thinkers Madsen Pirie employs concise entries each on a single page to give a snapshot of the contribution made by 100 key philosophers to the development of this fascinating subject This book provides a sparkling insight into the lives and times of each philosopher covered explaining just why what they had to say was so innovative and inspiring Essential reading for anyone coming to the subject for the first time this book is an indispensable introduction to the most important ideas in the history of western thought [Library of the World's Best Literature: A-Z](#) Charles Dudley Warner,Hamilton Wright Mabie,Lucia Isabella Gilbert Runkle,George H.
