Great Deterrent A Collection Of Lectures:

The Great Deterrent John Slessor,1957 The Great Deterrent: a Collection of Lectures, Articles and Broadcasts on the Development of Strategic Policy in the Nuclear Age Sir John Cotesworth Marshal of the Royal Air Force Slessor,1957

The Great Deterrent John C. Slessor,2003-01 *Soviet Military Doctrine* United States. Department of State. External Research Division,1963 *The John M. Olin Lecture Series in National Security and Defense Studies* ,1996 *The Great Deterrent. Sir John Cotesworth SLESSOR,1957 **External Research Paper** United States Department of State. External Research Staff,United States. Department of State. External Research Division,19?? **Airmen and air theory a review of the**

sources Phillip S. Meilinger,2001 This part of the book reviews the state of American airpower biography and autobiography I have set certain parameters to define the boundaries of my discussion I discuss biographies and autobiographies

anthologies and oral histories of military officers who served in senior positions Thus although the stories of great aviators like Eddie Rickenbacker Charles Lindbergh and Chuck Yeager are important those men did not command large forces either in combat or in peace they had only a temporary effect on the development of strategy and doctrine Similarly excluded are civilian political leaders and industrialists like Stuart Symington and Donald Douglas even though they played key roles In their own spheres What follows are the stories some published some not of America s greatest military airmen some told by themselves others by biographers The order of presentation is roughly chronological according to the time during which these men served The fact that a surprising number of air luminaries do not appear here means that much work remains to be done The Evolution of Strategy Beatrice Heuser,2010-10-14 Is there a Western way of war which pursues battles of

annihilation and single minded military victory Is warfare on a path to ever greater destructive force This magisterial account answers these questions by tracing the history of Western thinking about strategy the employment of military force as a political instrument from antiquity to the present day Assessing sources from Vegetius to contemporary America and with a particular focus on strategy since the Napoleonic Wars Beatrice Heuser explores the evolution of strategic thought the social institutions norms and patterns of behaviour within which it operates the policies that guide it and the cultures that influence it Ranging across technology and warfare total warfare and small wars as well as land sea air and nuclear warfare she demonstrates that warfare and strategic thinking have fluctuated wildly in their aims intensity limitations and excesses over the past two millennia **Accessions List** United States. Department of State. Library Division,1958 *Duncan Sandys*

and British Nuclear Policy-Making Lewis Betts,2016-10-19 This book offers new perspectives on British nuclear policy making at the height of the Cold War arguing that the decisions taken by the British government during the 1950s and 1960s in pursuit of its nuclear ambitions cannot be properly understood without close reference to Duncan Sandys and in particular the policy preferences that emerged from his experiences of the Second World War and his efforts leading Britain s campaign

against the V 1 and V 2 Immersing himself in this campaign against unmanned weaponry Sandys came to see ballistic missiles as the only guarantor of nuclear credibility in the post war world placing them at the centre of his strategic thinking and developing a sincerely held and logically consistent belief system which he carried with him through a succession of ministerial roles allowing him to exert a previously undocumented level of influence on the nature of Britain's nuclear capabilities and its approach to the Cold War This book shows the profound influence Sandys personal belief system had on Britain's attempts to acquire a credible nuclear deterrent *All Hands*, 1958 *Anglo-American Approaches to Alliance Security, 1955-60* W. Rees, 1996-02-05 This book looks at the attitudes and policies of the United States and United Kingdom in the late 1950s towards the three major alliances in Europe the Middle East and South East Asia Drawing upon a wealth of archival material it analyses both the military relationship between the US and UK and the extent to which these two countries were prepared to cooperate with their allies in countering the threats to Western security National Security, Military Power & the Role of Force in International Relations Army Library (U.S.), 1976 **National Security, Military Power & the Role of Force in International Relations** United States. Department of the Army, 1976 **Beyond Nuclear Thinking** Robert W. Malcolmson, 1990 The world is currently undergoing tumultuous political upheaval Recent events have even been taken to indicate that the Cold War is almost over But the nuclear threat informed by a deeply rooted history of nuclear thinking remains Practical Christian sociology, lectures Wilbur Fisk Crafts, 1895 The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University Hoover Institution on War, Revolution, and Peace, 1969 **International Politics**, 1958 *The Great Deterrent* John Slessor, 1957
