## **Great War In Irish Poetry W B Yeats To Michael Longley:**

**The Great War in Irish Poetry** Fran Brearton, 2003 The Great War in Irish Poetry explores the impact of the First World War on the work of W B Yeats Robert Graves and Louis MacNeice in the period 1914-45 and on three contemporary Northern Irish poets Derek Mahon Seamus Heaney and Michael Longley Its concern is to place their work and memory of the Great War in the context of Irish politics and culture in the twentieth century The historical background to Irish involvement in the Great War is explained as are the ways in which issues raised in 1912-20 still reverberate in the politics of remembrance in Northern Ireland particularly through such events as the Home Rule cause the loss of the Titanic the Battle of the Somme the Easter Rising While the Great War is perceived as central to English culture and its literature holds a privileged position in the English literary canon the centrality of the Great War to Irish writing has seldom been recognised This book shows first that despite complications in Irish domestic politics which led to the repression of memory of the Great War Irish poets have been drawn throughout the century to the events and images of 1914-18 This engagement is particularly true of those writing in the troubled Northern Ireland of the last thirty years The second main concern is the extent to which recognition of the importance of the Great War in Irish writing has itself become a casualty of competing versions of the literary canon

**World War I in Irish Art and Literature** Karen Hannel, 2022-11-18 Focusing on Ireland's literary and artistic response to World War I this book explores works from a range of perspectives that intervened in Irish political and cultural discourse Works such as Patrick MacGill's novel *The Amateur Army* 1915 John Lavery's *Daylight Raid* from my Studio 1917 and Margaret Barrington's *My Cousin Justin* 1939 show how the war was fully examined by Irish authors but was disregarded with the beginning of World War II Diverse voices challenged prevailing notions of Irish national identity from the bourgeois cosmopolitanism of Tom Kettle to the working class internationalism of Patrick MacGill to Pamela Hinkson's cynicism about imperial patriarchy

**Touch and Intimacy in First World War Literature** Santanu Das, 2006-04-06 The First World War ravaged the male body on an unprecedented scale yet fostered moments of physical intimacy and tenderness among the soldiers in the trenches Touch the most elusive and private of the senses became central to war experience War writing is haunted by experiences of physical contact from the muddy realities of the front to the emotional intensity of trench life to the traumatic obsession with the wounded body in nurses' memoirs Through extensive archival and historical research analysing previously unknown letters and diaries alongside literary writings by figures such as Owen and Brittain Santanu Das recovers the sensuous world of the First World War trenches and hospitals This original and evocative study alters our understanding of the period as well as of the body at war and illuminates the perilous intimacy between sense experience emotion and language as we try to make meaning in times of crisis

*Memories of the Classical Underworld in Irish and Caribbean Literature* Madeleine Scherer, 2021-09-20 *Classical Memories* is an intervention into the field of adaptation studies taking the example of classical reception to show that adaptation is a process that can be driven by

and produce intertextual memories I see classical memories as a memory driven type of adaptation that draws on and reproduces schematic and otherwise de contextualised conceptions of antiquity and its cultural exports in broadly speaking the twentieth and twenty first centuries These memory driven adaptations differ often in significant ways from more traditional adaptations that seek to either continue or deconstruct a long running tradition that can be traced back to antiquity as well as its canonical points of reception in later ages When investigating such a popular and widespread set of narratives characters and images like those that remain of Graeco Roman antiquity terms like adaptation and reception could and should be nuanced further to allow us to understand the complex interactions between modern works and classical antiquity in more detail particularly when it pertains to postcolonial or post digital classical reception In *Classical Memories* I propose that understanding certain types of adaptations as intertextual memories allows us to do just that

*Restless Secularism* Matthew Mutter, 2017-06-27 A scholarly and deeply sensitive study that explores how religion and secularism are tightly interwoven in the major works of modernist literature Matthew Mutter provides a broad survey of modernist literature examining key works against a background of philosophy theology intellectual and social history while tracing the relationship of modernism's secular imagination to the religious cultures that both preceded and shaped it Mutter's provocative study demonstrates how despite their explicit desire to purify secular life of its religious residues Wallace Stevens Virginia Woolf and other literary modernists consistently found themselves entangled in the religious legacies they disavowed

*Remembering the Revolution* Frances Flanagan, 2015-06-18 Remembering the Irish Revolution chronicles the ways in which the Irish revolution was remembered in the first two decades of Irish independence While tales of heroism and martyrdom dominated popular accounts of the revolution a handful of nationalists reflected on the period in more ambivalent terms For them the freedoms won in revolution came with great costs the grievous loss of civilian lives the brutalisation of Irish society and the loss of hope for a united and prosperous independent nation To many nationalists their views on the revolution were traitorous For others they were the courageous expression of some uncomfortable truths This volume explores these struggles over revolutionary memory through the lives of four significant but under researched nationalist intellectuals Eimar O Duffy P S O Hegarty George Russell and Desmond Ryan It provides a lively account of their controversial critiques of the Irish revolution and an intimate portrait of the friends enemies institutions and influences that shaped them Based on wide ranging archival research Remembering the Irish Revolution puts the history of Irish revolutionary memory in a transnational context It shows the ways in which international debates about war human progress and the fragility of Western civilisation were crucial in shaping the understandings of the revolution in Ireland It provides a fresh context for analysis the major writers of the period such as Sean O Casey W B Yeats and Sean O Faolain as well as a new outlook on the genesis of the revisionist nationalist schism that continues to resonate in Irish society today

**Remembering 1916** Richard S. Grayson, Fearghal McGarry, 2016-03-02 The year 1916 witnessed two events that would profoundly shape both politics and commemoration in Ireland over the course of the following century Although the Easter Rising and the Battle of the Somme were important historical events in their own right their significance also lay in how they came to be understood as iconic moments in the emergence of Northern Ireland and the Irish Republic Adopting an interdisciplinary approach drawing on history politics anthropology and cultural studies this volume explores how the memory of these two foundational events has been constructed mythologised and revised over the course of the past century The aim is not merely to understand how the Rising and the Somme came to exert a central place in how the past is viewed in Ireland but to explore wider questions about the relationship between history commemoration and memory *Yeats* Richard J. Finneran, 2003-10-28 The most recent volume of this distinguished annual **The Palgrave Handbook of Artistic and Cultural Responses to War since 1914** Martin Kerby, Margaret Baguley, Janet McDonald, 2018-12-05 This handbook explores a diverse range of artistic and cultural responses to modern conflict from Mons in the First World War to Kabul in

the twenty first century With over thirty chapters from an international range of contributors ranging from the UK to the US and Australia and working across history art literature and media it offers a significant interdisciplinary contribution to the study of modern war and our artistic and cultural responses to it The handbook is divided into three parts The first part explores how communities and individuals responded to loss and grief by using art and culture to assimilate the experience as an act of survival and resilience The second part explores how conflict exerts a powerful influence on the expression and formation of both individual group racial cultural and national identities and the role played by art literature and education in this process The third part moves beyond the actual experience of conflict and its connection with issues of identity to explore how individuals and society have made use of art and culture to commemorate the war In this way it offers a unique breadth of vision and perspective to explore how conflicts have been both represented and remembered since the early twentieth century
