Great War Memory And Ritual:

The Great War, Memory and Ritual Mark Connelly,2002 *The Great War, Memory and Ritual* Mark Connelly,2015

This title seeks to question the modern idea that the Great War was regarded as a futile waste of life by British society in the disillusioned twenties and thirties It concentrates on the planning of fund raising for and erection of war memorials The Great War Kellen Kurschinski,Steve Marti,Alicia Robinet,Matt Symes,Jonathan F. Vance,2015-10-23 The Great War From Memory to History offers a new look at the multiple ways the Great War has been remembered and commemorated through the twentieth century and into the twenty first Drawing on contributions from history cultural studies film and literary studies this collection offers fresh perspectives on the Great War and its legacy at the local national and international levels More importantly it showcases exciting new research on the experiences and memories of forgotten participants who have often been ignored in dominant narratives or national histories Contributors to this international study highlight the transnational character of memory making in the Great War s aftermath No single memory of the war has prevailed but many symbols rituals and expressions of memory connect seemingly disparate communities and wartime experiences With groundbreaking new research on the role of Aboriginal peoples ethnic minorities women artists historians and writers in shaping these expressions of memory this book will be of great interest to readers from a variety of national and academic backgrounds **Cultural Heritage of the Great War in Britain** Dr Ross J Wilson,2013-10-28 As the hundredth anniversary approaches it is timely to reflect not only upon the Great War itself and on the memorials which were erected to ensure it did not slip from national consciousness but also to reflect upon its rich and substantial cultural legacy This book examines the heritage of the Great War in contemporary Britain It addresses how the war maintains a place and value within British society through the usage of phrases references metaphors and imagery within popular media heritage and political discourse Whilst the representation of the war within historiography literature art television and film has been examined by scholars seeking to understand the origins of the popular memory of the conflict these analyses have neglected how and why wider popular debate draws upon a war fought nearly a century ago to express ideas about identity place and politics By examining the history usage and meanings of references to the Great War within local and national newspapers historical societies political publications and manifestos the heritage sector popular expressions blogs and internet chat rooms an analysis of the discourses which structure the remembrance of the war can be created The book acknowledges the diversity within Britain as different regional and national identities draw upon the war as a means of expression Whilst utilising the substantial field of heritage studies this book puts forward a new methodology for assessing cultural heritage and creates an original perspective on the place of the Great War across contemporary British society **Renegotiating First World War Memory** Ashley Garber,2021-06-29 First World War based ex servicemen s organisations found themselves facing an existential crisis with the onset of the Second World War This book examines how two such groups the British and American

Legions adapted cognitively to the emergence of yet another world war and its veterans in the years 1938 through 1946. With collective identities and socio-political programmes based in First World War memory, both Legions renegotiated existing narratives of that war and the lessons they derived from those narratives as they responded to the unfolding Second World War in real time. Using the previous war as a learning experience for the new one privileged certain understandings of that conflict over others, inflecting its meaning for each Legion moving forward. Breaking the Second World War down into its constituent events to trace the evolution of First World War memory through everyday invocations, this unprecedented comparison of the British and American Legions illuminates the ways in which differing international, national, and organisational contexts intersected to shape this process, as well as the common factors affecting it in both groups. The book will appeal most to researchers of the ex-service movement, First World War memory, and the cultural history of the Second World War.

Youth and Peace in England, 1919-1969 Susannah Wright, 2025-02-03. This book offers an historical analysis of an area of young people's activity which remains significant in the present. It shows that many thousands of young people in England were involved in peace movement activity from 1919 to 1969 in connection with the League of Nations Union before the Second World War, pacifist bodies like the Peace Pledge Union in the 1930s and 1940s, the Council for Education for World Citizenship post 1945, and the Campaign for Nuclear Disarmament from 1957. Young people engaged with the peace movement at school, at home, and in the community, encompassing classroom learning, attending lectures and meetings out of school hours, pageants, international camps and visits, correspondence, and sometimes demonstrations, marches, and other direct action protests. Some were engaged briefly; for others, this became a long-term focus of time, energy, and ideological commitment. Some followed parents, teachers, and friends; others rebelled against those around them. Examining the perspectives of those involved as young people and the adults aiming to involve young people in the peace movement, this book is an important addition to our knowledge about movements and activism in the peace movement, and more broadly, to our knowledge about young people's agency and its limits.

Nationalism in Modern Europe Derek Hastings, 2023-01-12. Derek Hastings's *Nationalism in Modern Europe* is the essential guide to a potent political and cultural phenomenon that featured prominently across the modern era. With firm grounding in transnational and global contexts, the book traces the story of nationalism in Europe from the French Revolution to the present. Hastings reflects on various nationalist ideas and movements across Europe, and always with a keen appreciation of other prevalent signifiers of belonging, such as religion, race, class, and gender, which helps to inform and strengthen the analysis. The text shines a light on key historiographical trends and debates, and includes 20 images, 14 maps, and a range of primary source excerpts which can serve to sharpen vital analytical skills which are crucial to the subject. New content and features for the second edition include a chapter examining region, religion, class, and gender as alternative markers of identity throughout the 19th century. An enhanced global dimension that covers transnational fascism and non-European comparatives. Additional primary source

excerpts and figures Historiographical updates throughout which account for recent research in the field *Recollection in the Republics* Imogen Peck,2021 *Recollection in the Republics* provides the first comprehensive study of the ways Britain's Civil Wars were remembered in the decade between the regicide and the restoration For King and Country Heather Jones,2021-09-23 Was the First World War really For King and Country This is the first full history of the monarchy's role

Ireland's Great Famine in Irish-American History Mary Kelly,2013-11-18 Ireland's Great Famine in Irish American History Enshrining a Fateful Memory offers a new concise interpretation of the history of the Irish in America Author and distinguished professor Mary Kelly's book is the first synthesized volume to track Ireland's Great Famine within America's immigrant history and to consider the impact of the Famine on Irish ethnic identity between the mid 1800s and the end of the twentieth century Moving beyond traditional emphases on Irish American cornerstones such as church party and education the book maps the Famine's legacy over a century and a half of settlement and assimilation This is the first attempt to contextualize a painful memory that has endured fitfully and unquestionably throughout Irish American historical experience

Haig and Kitchener in Twentieth-Century Britain Stephen Heathorn,2016-04-22 Lord Kitchener and Lord Haig are two monumental figures of the First World War Their reputations both in their lifetimes and after their deaths have been attacked and defended scrutinized and contested They have been depicted in film print and public memorials in Britain and the wider world and new biographies of both men appear to this day The material representations of Haig and Kitchener were shaped used and manipulated for official and popular ends by a variety of groups at different times during the twentieth century The purpose of this study is not to discover the real individual nor to attack or defend their reputations rather it is an exploration of how both men have been depicted since their deaths and to consider what this tells us about the nature and meaning of First World War commemoration While Haig's representation was more contested before the Second World War than was Kitchener's with several constituencies trying to fashion and use Haig's memory the Government the British Legion ex servicemen themselves and bereaved families it was probably less contested but overwhelmingly more negative than Kitchener's after the Second World War The book sheds light on the notion of heroic masculinity questioning in particular the degree to which the image of the common soldier replaced that of the high commander in the popular imagination and explores how the military heritage in the twentieth century came into collision with the culture of modernity It also contributes to ongoing debates in British historiography and to the larger debates over the social construction of memory the problematic relation between what is considered heritage and history and the need for historians to be sensitive and attentive to the interconnections between heritage and history and their contexts **Cultural Heritage of the Great War in Britain** Ross J. Wilson,2016-04-22 As the hundredth anniversary approaches it is timely to reflect not only upon the Great War itself and on the memorials which were erected to ensure it did not slip from national consciousness but also to reflect upon its rich and substantial cultural legacy This book examines the heritage of the Great War in contemporary Britain It

addresses how the war maintains a place and value within British society through the usage of phrases references metaphors and imagery within popular media heritage and political discourse Whilst the representation of the war within historiography literature art television and film has been examined by scholars seeking to understand the origins of the popular memory of the conflict these analyses have neglected how and why wider popular debate draws upon a war fought nearly a century ago to express ideas about identity place and politics By examining the history usage and meanings of references to the Great War within local and national newspapers historical societies political publications and manifestos the heritage sector popular expressions blogs and internet chat rooms an analysis of the discourses which structure the remembrance of the war can be created The book acknowledges the diversity within Britain as different regional and national identities draw upon the war as a means of expression Whilst utilising the substantial field of heritage studies this book puts forward a new methodology for assessing cultural heritage and creates an original perspective on the place of the Great War across contemporary British society

Memory, Heritage, and Preservation in 20th-Century England David Strittmatter, 2023-03-09 This book explores commemoration practices and preservation efforts in modern Britain focusing on the years from the end of the First World War until the mid 1960s The changes wrought by war led Britain to reconsider major historical episodes that made up its national narrative Part of this process was a reassessment of heritage sites because such places carry socio political meaning as do the memorials that mark them This book engages the four way intersection of commemoration preservation tourism and urban planning at some of the most notable historic locations in England The various actors in this process from the national government and regional councils to private organizations and interested individuals did nothing less than engineer British national memory The author presents case studies of six famous British places namely battlefields Hastings and Bosworth political sites Runnymede and Peterloo and world s fairgrounds the Crystal Palace and Great White City In all three genres of heritage sites one location developed through commemorations and tourism while the other anti sites simultaneously faltered as they were neither memorialized nor visited by the masses Ultimately the book concludes that the modern social and political environment resulted in the revival creation or erasure of heritage sites in the service of promoting British national identity A valuable read for British historians as well as scholars of memory public history and cultural studies the book argues that heritage emerged as a discursive arena in which British identity was renegotiated through times of transitions both into a democratic age and an era of geopolitical decline

The Oxford Handbook of European History, 1914-1945 Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe s history Despite such undeniably progressive developments as the radical expansion of women s suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause

to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today **Britten's**

Unquiet Pasts Heather Wiebe, 2012-10-04 Heather Wiebe's book looks to the music of Benjamin Britten to elucidate a British postwar vision of cultural renewal *The Great War and Memory in Central and South-Eastern Europe* Oto Luthar, 2016-03-21 This volume presents a series of chapters about the Great War and memory in Central and South Eastern Europe which will widen the insufficient and spotty representations of the Great War in that region The contributors deliver an important addition to present day scholarship on the more or less unknown war in the Balkans and at the Italian fronts Although it might not completely fill the striking gap in the historical representations of the situation between the Slovene Italian So a Isonzo river in the North West and the Greek Macedonian border mountains around Mount Kajmakalan in the South East it will add significantly to the scholarship on the Balkan theatre of war and provide a much needed account of the suffering of civilians ideas loyalties and cultural hegemonies as well as memories and the post war memorial landscape The contributors are Vera Gudac Dodi Silviu Hariton Violeta Herman Kauri Oto Luthar Olga Manojlovi Pintar Ahmed Pa i Ign c Romsics Daniela Schanes Fabio Todero Nikolai Vukov and Katharina Wesener **The Great War and Modern Memory** Paul Fussell, 2013-05-15 Winner of both the National Book Award and the National Book Critics Circle Award and named by the Modern Library one of the twentieth century's 100 Best Non Fiction Books Paul Fussell's *The Great War and Modern Memory* was universally acclaimed on publication in 1970 Today Fussell's landmark study remains as original and gripping as ever a literate literary and unapologetic account of the Great War the war that changed a generation ushered in the modern era and revolutionized how we see the world This brilliant work illuminates the trauma and tragedy of modern warfare in fresh revelatory ways Exploring the work of Siegfried Sassoon Robert Graves Edmund Blunden David Jones Isaac Rosenberg and Wilfred Owen Fussell supplies contexts both actual and literary for those writers who with conspicuous imaginative and artistic meaning most effectively memorialized World War I as an historical experience Dispensing with literary theory and elevated rhetoric Fussell grounds literary texts in the mud and trenches of World War I and shows how these poems diaries novels and letters reflected the massive changes in every area including language itself brought about by the cataclysm of the Great War For generations of readers this work has represented and embodied a model of accessible scholarship huge ambition hard minded research and haunting detail Restored and updated this new edition includes an
