Edinburghs Transport The Early Years V 1:

Paris-Edinburgh Siân Reynolds,2016-05-13 By the end of the nineteenth century Paris was widely acknowledged as the cultural capital of the world the home of avant garde music and art symbolist literature and bohemian culture Edinburgh by contrast may still be thought of as a rather staid city of lawyers and Presbyterian ministers academics and doctors While its great days as a centre for the European Enlightenment may have been behind it however late Victorian Edinburgh was becoming the location for a new set of cultural institutions with its own avant garde that corresponded with a renewed Scottish national consciousness While Morningside was never going to be Montparnasse the period known as the Belle Epoque was a time in both French and Scottish society when there were stirrings of non conformity which often clashed with a still powerful establishment And in this respect French bourgeois society could be as resistant to change as the suburbs of Edinburgh With travel and communication becoming ever easier a growing number of international contacts developed that allowed such new and radical cultural ideas to flourish In a series of linked essays based on research into contemporary archives documents and publications in both countries as well as on new developments in cultural research this book explores an unexpected dimension of Scottish history while also revealing the Scottish contribution to French history In a broader sense and particularly as regards gender it considers what is meant by modern or radical in this period without imposing any single model In so doing it seeks not to treat Paris Edinburgh links in isolation or to exaggerate them but to use them to provide a fresh perspective on the internationalism of the Belle Epoque

deal of material which gives his book an important place as an authority on British emigration The work begins with a short historical survey in which the author discusses the causes of emigration before treating the subject topically as a series of political and economic problems He gives a detailed account of the transport and reception of emigrants of emigration restrictions and colonisation schemes and of the emigration of women and children and presents with much force the conflict of interests that grew up between England and her colonies respecting migration This must still be regarded as an authoritative work on the subject and its bibliography will be of great value to all students of the period
