Du Bois is one of the most prescient sociologists of the twentieth century in his research of Black people in America. These ground-breaking novels establish racialization, colonization, and globalization as processes that continue to dehumanize Black students in education. Africana critical theory, ACT, critical race theory, CRT, and Post-Traumatic Slave Syndrome, PTSS, privilege the research voice and experiences of Blacks. These theoretical frames speak to the pain and effects of the impact of unchecked gross voyeuristic violence that helps define the White supremacist patriarchal culture in which we live. Straight forward and direct, this book shows how the processes of dehumanization contribute to the legacy of trauma. White supremacy exacts upon Black people and their humanity. This study is aimed at highlighting the stark disparities in Black and White education over time. This book offers a candid look at how the myth of Black inferiority and the metaphor of the achievement gap describe conscious economic deprivation, mob violence, and intimidation, and White supremacist curricula yet continues to imply long-standing cultural notions of Blacks' intellectual inferiority. This research is offered to help mitigate the multigenerational education trauma Blacks have experienced since Reconstruction to envision an educational system that is efficacious and socially just in the distribution of resources, expanding diversity in curricula, and exposing pedagogical biases that traumatize not only Black people but all people.

Race, Curriculum, and the Politics of Educational Justice

Wayne Au, 2025-09-26. This one-of-a-kind collection will help today's educators feel and understand the power that communities can harness through organizing and solidarity. This volume highlights some of Wayne Au's most impactful essays and articles across his 25 years as an educator, activist, and scholar. In this carefully curated collection, Au traces the development of his politics and analyses of schooling, education policy, curriculum, and racialization. Featuring concrete examples, chapters address antiracist education and the politics of knowledge, the racial politics of high-stakes testing, and neoliberal education reforms and the racialization of Asian Americans as a model minority and its connection to anti-Blackness. Importantly, this book illustrates the power of writing for different audiences by placing scholarly essays alongside those written for teachers, parents, and community members while also linking educational activism with educational research. In addition to providing a broad examination of the politics of curriculum and educational policy in America, the book features writing by an internationally known scholar in the areas of curriculum, multicultural, and antiracist education, high-stakes testing, and neoliberal reforms, racial justice, and critical education. It provides a model for how to translate educational research and analysis between academic and public discourses, embodying the intersections of theory, practice, and justice. Combining searing political analysis of education with the hope offered through activism, solidarity, and educational justice.
