Pieter Van der Mei, 2003-02-24 This book explores the extent to which European Community law confers upon individuals the right to gain access to public services in other Member States Are European citizens and third country nationals who have moved to other Member States entitled to claim minimum subsistence benefits to receive medical care or to be admitted to education Does Community law provide for a freedom of movement for patients students and persons in need of social welfare benefits If so to what extent does Community law have regard for the Member States fears for and concerns about welfare tourism Besides addressing numerous detailed questions on the precise degree to which Community law allows for cross border access to public services the author analyses how Community law and the Court of Justice in particular have sought to reconcile the Community s objectives of realising freedom of movement and ensuring equality of treatment with the need to develop and maintain adequate social services within the Community In addition the book contains a detailed analysis of United States constitutional law on cross border access to public services exploring the question whether the European Community can possibly learn from the American experience     *Education and Training in the European Union* Andreas Moschonas, 2019-01-15 Published in 1998 Education and training in the European Union is a policy area aiming to enable young people to experience the reality of Europe through various forms of cooperation including training periods in firms in other member states university courses in the Community countries and exchanges This book examines why the Community decided to take actions in the field of education and training what the extent of this involvement is and how the future may affect EU decisions on education and training It argues that the logic of the EU involvement in education and training derives from both economic and political considerations that the extent of this involvement has not so far been very significant but is growing and that the pace of political integration will ultimately condition the Community s competence in the field of education and training     **Making Sense of European Union Law** Monica Claes, Ellen Vos, 2023-01-12 This book reflects on selected issues of European law in dialogue with leading legal scholar Bruno De Witte whose work has enlightened generations of students scholars and practitioners of European law The volume is designed to mark the

impressive academic oeuvre of a great legal mind and true academic whose elegant and insightful writings have decisively contributed to the advancement of the study of European law The contributions attempt to make sense of European Union law reflecting Bruno's mission as a legal scholar and commenting on some of the themes that he has worked on constitutional Europe differentiated Europe social and educational Europe and minorities Europe It culminates in reflections on the very nature of Bruno's scholarship and his academic persona Not only is this book a public recognition and an expression of appreciation for all that Bruno has offered to the European legal community but also an invitation to challenge the way many scholars think of academic careers and their ways to success      Soft Law in European Community Law Linda

Senden, 2004-09-30 This book offers the first systematic investigation of the phenomenon of soft law within the framework of the EC the first pillar of the EU and its use by the European Commission and Council of Ministers It focusses upon how soft law fits into the Community legal system and how it is used and in particular how it relates to Community legislation

Differentiation of the Community instruments including the instruments of soft law is often thought to enhance the effectiveness legitimacy and transparency of the Community This book asks whether soft law indeed provides a satisfactory alternative to legislation from this perspective and if so in what cases and under what conditions Furthermore the author asks to what extent the use of soft law implies good governance and throws fresh light on this very heterogeneous phenomenon by looking at frequently used instruments in many different areas of Community law such as competition law state aid environment social policy etc in the process identifying their different characteristics aims functions and legal effects What emerges is that the conditions under which soft law is used may be problematic in relation to increasing the legitimacy effectiveness and transparency of Community action This is a work which will interest legal practitioners confronted with the use of soft law and the question of its possible legal effect in an increasing number of sectors and academics interested in the vexed question of how the increased use of soft law can be justified in a Community legal order built upon the rule of law It is also critical of developments taking place within the framework of the European Convention and the proposed European Constitution and goes beyond the immediate problems of soft law to touch upon issues such as competence legal protection division of powers between the EC and the Member States institutional balance lawmaking by the Community Courts the scope of Community legal principles and the influence of soft law on the progressive development of both Community and national law      **European Union Law** Damian Chalmers, Erika Szyszczak, 2018-10-26 First

published in 1998 this volume drew upon a variety of primary and secondary sources from a number of academic disciplines European Union Law provides not merely the materials which form the law but also analysis of the pressures ideologies and agents which have shaped it It is suitable for newer types of European Union law courses which trace the development of the European Union from economic to political community as well as for the more traditional courses which focus predominantly upon the law of the Institutions and of the internal market Suitable for both undergraduates and postgraduates

*Implementing European Union Education and Training Policy* D. Phillips, H. Ertl, 2007-05-08 The papers which make up this volume have for the most part emerged from the work of a team of young researchers based for varying periods at the Department of Educational Studies of the University of Oxford as part of an international network funded by the European Union. The network known as PRESTiGE (Problems of Educational Standardisation and Transition in a Global Environment) involves teams at six European universities each of which can only employ young researchers from Member States other than that in which it is situated. The Oxford part of PRESTiGE has been concerned with the interpretation, transmission and implementation of European Union education and training policy in four Member States: France, Germany, Sweden and the United Kingdom. As the leader of the Oxford team I had the good fortune to work with young researchers from Denmark, Germany, Greece, Sweden and Portugal. Their work is included here. So too are contributions from Jake Murdoch, a member of the Dijon team based at the Université de Bourgogne and Professor António Nóvoa, the leader of the Lisbon team. Together the papers which we have allowed to overlap to some extent so that each one can be read independently represent a genuinely international collaborative effort to understand the intentions and the effects of EU education and training policy and we hope that they will contribute to further discussion of the important issues that those with an interest in European co-operation and development will wish to pursue.

**European Community Law of Education** Bruno de Witte, 1989 *The European Union and the Culture Industries* David Ward, 2016-02-17 This edited collection brings together leading academics in their respective fields to examine the European Union's impact on media and public policy. It provides an analysis of the broader areas of EU policy and links these together to give a greater appreciation of the nuances and scope of EU regulatory initiatives and their impact on the member states. Under a broad public interest perspective the authors provide an assessment of the success of EU policy in protecting the public interest in the culture industries and respecting certain normative principles and balancing these with market dynamics.

Citizenship, Nation-building and Identity in the EU Cherry James, 2018-12-17 With Brexit looming a major issue facing UK Higher Education is whether the UK will be able to stay in the Erasmus Programme. This book sits at the intersection of three main interrelated themes: EU citizenship, the current state of the university in Europe and student mobility as they play out in the context of an EU funded programme established not least to promote European identity, European consciousness and European citizenship. Exploring through interviews with students from many countries this book weaves together the themes of citizenship, creation as a device for building a nation and a polity, the university as a public space in the era of the marketization of higher education and communicative interaction as the mechanism by which citizenship is created. Ultimately it asks if the building bricks of national citizenship can be transposed to the transnational scale and assist in creating the transnational EU citizenship. It finds surprisingly that far from encouraging and facilitating the communicative interaction on which the development of EU citizenship was postulated, central features of the Erasmus Programme inadvertently work against this outcome. This book

will be of key interest to scholars and students of EU law and European and EU studies Citizenship Studies sociology and more broadly to higher education in general      *Media and Cultural Policy in the European Union* Katharine Sarikakis, 2007 Articles offer a historical and socio political analysis of major media and cultural policies in the European Union The Place of Media and Cultural Policy in the EU K Sarikakis Can State Aid in the Film Sector Stand The Proof of EU and WTO Liberalisation Efforts C Pauwels S De Vinck B Van Rompuy Cultural Diversity and Subsidiarity The Case of Cultural Tourism In the European Union E Dumont J Teller Mediating Social Cohesion Media and Cultural Policy in the European Union and Canada K Sarikakis The EU Communications Liberalisation and the Future of Public Service Broadcasting P Humphreys More Europe More Unity More Diversity The Enlargement of the European Audiovisual Space H de Smaele Undermining Media Diversity Inaction on Media Concentrations and Pluralism in the EU G Doyle The Construction of European Identity and Citizenship Through Cultural Policy L Tsaliki The EU and the Press Policy or Non policy D Hutchison Diverse Journalists in a Diverse Europe Impulses for a Discussion on Media and Integration S Kretzschmar Whither Cultural Diversity The European Union's Market Vision For the Review of Television Without Frontiers Directive M Wheeler      **Oxford Principles of European Union Law** Robert Schütze, Takis Tridimas, 2018-02-23 Since the 1957 Rome Treaty the European Union has changed dramatically in terms of its composition scope and depth Originally established by six Western European States the EU today has 28 Members and covers almost the entire European continent and while initially confined to establishing a common market the EU has come to influence all areas of political economic and social life In parallel with this enormous geographic and thematic expansion the constitutional and legislative principles underpinning the European Union have constantly evolved This three volume study aims to provide an authoritative academic treatment of European Union law Written by leading scholars and practitioners each chapter offers a comprehensive and critical assessment of the state of the law Doctrinal in presentation each volume nonetheless tries to present a broader historical and comparative perspective Volume I provides an analysis of the constitutional principles governing the European Union It covers the history of the EU the constitutional foundations the institutional framework legislative and executive governance judicial protection and external relations Volume II explores the structure of the internal market while Volume III finally analyses the internal and external substantive policies of the EU      *A Language Policy for the European Community* Florian Coulmas, 1991 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students researchers and practitioners in all of the social and language related sciences carefully selected book length publications dealing with sociolinguistic theory methods findings and applications It approaches the study of language in society in its broadest sense as a truly international and interdisciplinary field in which various approaches theoretical and empirical supplement and complement each other The series invites the attention of linguists language teachers of all interests sociologists political scientists anthropologists historians etc to the development of the sociology of language      The Protection of Minorities and Human Rights Yoram

Dinstein, Mala Tabory, 2023-11-27 From the dawn of modern international law manifold treaties especially peace treaties have recognized the rights of specific minorities in specific territories Today with Eastern Europe once more in turmoil and with minority groups all over the world clamouring for recognition there is a growing awareness that irrespective of the observance of the fundamental freedoms of individuals minority groups have their legitimate interests that must be appreciated and accommodated This collection of essays grew out of an international legal colloquium held at the Faculty of Law of Tel Aviv University in March 1990 Some of the papers have already been published in volume 20 of the Israel Yearbook on Human Rights but others are printed here for the first time The authors come from different parts of the world and represent different legal backgrounds They are by no means at one in their analysis of the human rights of minority groups but they all share the sense that problems of minorities cannot be brushed aside or glossed over It is not too hazardous to forecast that these problems will actually intensify in the 21st century Whereas they cannot be solved through exclusively legal means international and constitutional lawyers must do their utmost to identify flash points and to offer at least some prescriptive guidelines This is the principal purpose of the present volume

**Sixty Years of EU State Aid Law and Policy** Eugene Stuart, Iana Roginska-Green, 2016-04-24 If an EU industrial policy can be said to exist its contours may be found in the complex and evolving concept of State aid Because approaching any State aid issue can be fraught with multiple and sometimes conflicting interpretations an in depth analysis of the rationales initiatives and regulations that constitute the State aid system is much needed In response to this need this book provides a fine grained clarifying context through which recent reforms policy shifts and judicial decisions concerning State aid can be understood and applied to specific situations Focusing on the impacts of landmark cases and policy developments leading up to a deeply informed critique of the current State Aid Modernisation Programme the authors cover such issues and topics as the following linkages to other established and evolving EU common policies and common strategies effect of EU State aid rules in the expanding geopolitical regions of EU influence interaction with the WTO Subsidies and Countervailing Measures Agreement the problem of a subsidies culture how the European Commission's notion of bad State aid has evolved effect of EU policy imperatives e g environmental goals which implicitly argue for increased subsidisation nexus with EU tax harmonisation competition among undertakings versus competition among Member State policies and nature of the quasi devolution of regulatory responsibilities to EU Member States This book is a crucially important source of both theoretical enlightenment and practical wisdom that will greatly enhance confident progress through any legal matter involving EU State aid rules It will prove of immeasurable value to practitioners in house counsel policymakers and academics for many years to come
