John A. Glover

Educational Psychology Principles And Applications:

Educational Psychology John A. Glover,1983 *Educational Psychology* Jeanne Ellis Ormrod,1995 Geared specifically towards future teachers this practical introduction recognizes that an understanding of how children learn and think how they grow and develop why they do what they do and how they differ from one another has implications for effective classroom practice Therefore rather than superficially explore every aspect of educational psychology this text focuses on offering in depth treatment of fundamenatl principles and theories that are of particular educational significance

Methods and Applications in Educational Psychology Antonio P. Gutierrez de Blume,Kai-Yu Tang,María Soledad Segretin,Christelle Declercq,Mei-Shiu Chiu,2023-10-13 **Motivation and Learning Strategies for College Success** Myron H. Dembo,Helena Seli,2008 If you haven t used Motivation and Learning Strategies for College Success in your study skills course it s time for a change This popular text combines theory research and applications to teach college students how to become more self directed learners Study skills are treated as a serious academic course Students learn about human motivation and learning as they improve their study skills The text does not offer recipes for success or lists of quick tips The focus is on relevant information and features designed to help students to identify the components of academic learning that contribute to high achievement to master and practice effective learning and study strategies and then to complete self management studies whereby they are taught a process for improving their academic behavior A framework organized around six components related to academic success motivation methods of learning time management control of the physical and social environment and monitoring performance makes it easy for students to understand what they need to do to become more successful in the classroom Pedagogical Features Exercises help students observe and evaluate their own learning and study skills Follow Up Activities guide students to apply the content to their own academic learning Designated Follow Up Activities help students identify topics to include in Self Management Studies Appendices provide information on

how to conduct these studies and examples of studies conducted by students in a learning to learn course Student Reflections allow students to read about the experiences of other students as they attempt to change their behavior and become more successful students Chapter end Reviews provide a quick guide to specific procedures for implementing a given strategy Key P

Science Education in Theory and Practice Ben Akpan, Teresa J. Kennedy, 2020-09-08 This book provides a collection of applicable learning theories and their applications to science teaching It presents a synthesis of historical theories while also providing practical implications for improvement of pedagogical practices aimed at advancing the field into the future The theoretical viewpoints included in this volume span cognitive and social human development address theories of learning and describe approaches to teaching and curriculum development The book presents and discusses humanistic behaviourist cognitivist and constructivist theories In addition it looks at other theories such as multiple intelligences theory systems thinking gender sexuality theory and indigenous knowledge systems Each chapter follows a reader motivated approach anchored on a narrative genre The book serves as a guide for those aiming to create optional learning experiences to prepare the next generation STEM workforce Chapter The Bildung Theory From von Humboldt to Klafki and Beyond is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com
