Educating African American Males Clifford Watson, 1996 Documents the success stories of Detroit's Malcolm X Academy *Academically Gifted African American Male College Students* Fred A. Bonner II, 2010-01-22 The first ever study of African American giftedness at the collegiate level focusing on two extraordinary case studies At a time when so many studies of African American students focus on the factors of failure *Academically Gifted African American Male College Students* fills a conspicuous void in the research literature on post secondary education by focusing on success Like no other work before it this remarkable study goes deep inside the experiences of academically gifted African American men who successfully navigate their way through rigorous college level programs At the heart of the unique and long overdue work are two real life stories of African American male students one at a Historically Black College and University HBCU and the other at a Traditionally White Institution TWI In presenting comparing and contrasting these two cases the book identifies a number of personal characteristics and institutional approaches driving their notable achievements The result is a guidebook both for gifted African American male students and for the institutions looking to strengthen their support for them particularly in science technology engineering and mathematics STEM disciplines **The Separation Solution?** Juliet A. Williams, 2016-02-02 Since the 1990s there has been a resurgence of interest in single sex education across the United States and many public schools have created all boys and all girls classes for students in grades K through 12 *The Separation Solution* provides an in depth analysis of controversies sparked by recent efforts to separate boys and girls at school Reviewing evidence from research studies court cases and hundreds of news media reports on local single sex initiatives Juliet Williams offers fresh insight into popular conceptions of the nature and significance of gender differences in education and beyond *The African-American Male* Jacob U. Gordon, 1999-07-30 The plight of the Black male in American society has been well documented by scholars and practitioners Although Black males represent only 6 percent of the American population they represent about 40 percent of the prison population the number of Black males in prison and jail exceeds the number of Black males in higher education The homicide rates for Black males were 72.5 percent per 100,000 nearly eight times higher than for White males This bibliographic volume explores the extent to which American academia has addressed these problems It will be an invaluable resource for researchers as well as practitioners in social service programs In addition to more than 400 annotated publications the book includes a selected list of works on the African American male and a compilation of doctoral dissertations This publication will serve as a reference in public as well as academic libraries human service agencies government policymaking agencies and in academic courses in gender and ethnic studies criminal justice and social psychology **City of Dispossession** Kyle T. Mays, 2022-05-24 In July 2013 Detroit became the largest city in U.S. history to declare bankruptcy The underlying causes were decades of deindustrialization white flight and financial mismanagement More recently it has been heralded a comeback city as wealthy white residents resettle there Yet as Kyle T

Mays argues we cannot understand the current state of Detroit without also understanding the longer history of Native American and African American dispossession that has defined the city since its founding. How has dispossession impacted the development of modern U S cities? And how does comparing the historical experiences of Native Americans and African Americans in an urban context help us comprehend histories of race sovereignty and colonialism? Using archives, oral and family histories, and community documents, *City of Dispossession* is a cultural, intellectual, and social history that argues that physical and symbolic forms of dispossession of Native Americans and African Americans and their reactions to dispossession have been central to Detroit's modern development. The book begins with the first settlement by the Frenchman Cadillac in 1701 and chronicles how the logic of dispossession has continued into the present through a wide range of forms that include memorialization of the disappearing Indian, the physical dispossession of African Americans through urban renewal and gentrification. Mays also chronicles the wide-ranging forms of expression through which Black and Indigenous Detroiters have contested dispossession, such as the Red and Black Power movements and culturally relevant education. Through lively, accessible prose as well as historical and contemporary examples, *City of Dispossession* will be of interest to readers of urban studies, Indigenous Studies, and critical ethnic studies.

Young, Gifted, and Black Theresa Perry, Claude Steele, 2012-09-11 An important and powerful book that radically reframes the debates swirling around the academic achievement of African American students Boston Review The solutions offered by each essay are creative inspirational and good old common sense Los Angeles Times In 3 separate but allied essays African American scholars Theresa Perry Claude Steele and Asa Hilliard examine the alleged achievement gap between Black and white students Each author addresses how the unique social and cultural position Black students occupy in a society which often devalues and stereotypes African American identity fundamentally shapes students experience of school and sets up unique obstacles Young Gifted and Black provides an understanding of how these forces work opening the door to practical powerful methods for promoting high achievement at all levels In the first piece Theresa Perry argues that the dilemmas African American students face are rooted in the experience of race and ethnicity in America making the task of achievement distinctive and difficult Claude Steele follows up with stunningly clear empirical psychological evidence that when Black students believe they are being judged as members of a stereotyped group rather than as individuals they do worse on tests Finally Asa Hilliard argues against a variety of false theories and misguided views of African American achievement sharing examples of real schools programs and teachers around the country that allow African American students to achieve at high levels Now more than ever Young Gifted and Black is an eye opening work that has the power to not only change how we talk and think about African American student achievement but how we view the African American experience as a whole
