Educating Beginning Practitioner Challenges For Health Professional Education:

Educating Beginning Practitioners Joy Higgs, Helen Edwards, 1999-01 Major developments in educational research educational technology and the knowledge base of the health sciences continue to occur at an ever increasing rate Higher education through its own striving for excellence and through demands for quality and accountability is paying greater attention than ever to enhancing the quality of teaching and learning The health sciences have a strong commitment to providing professional role models to their students and to ensuring that students develop competence as teachers in their professional roles

Clinical Reasoning in the Health Professions Joy Higgs, Mark A Jones, Stephen Loftus, PhD, MSc, BDS, Nicole Christensen, 2008-02-14 Clinical reasoning is the foundation of professional clinical practice Totally revised and updated this book continues to provide the essential text on the theoretical basis of clinical reasoning in the health professions and examines strategies for assisting learners scholars and clinicians develop their reasoning expertise key chapters revised and updated nature of clinical reasoning sections have been expanded increase in emphasis on collaborative reasoning core model of clinical reasoning has been revised and updated

EDUCATING HEALTH PROFESSIONALS: BECOMING A UNIVERSITY TEACHER Stephen Loftus, Tania Gerzina, Joy Higgs, Megan Smith, Elaine Duffy, 2013-09-03 This book is for health professionals who are becoming involved in the education of people entering their professions It introduces many of the challenges that educators must engage with in the twenty first century challenges that will preoccupy our attention for many years to come The world of professional practice in healthcare is changing and the education we provide to prepare people for that practice is also changing How do we prepare professional practitioners for this changing world How do we prepare them for the changes that are yet to come What challenges and changes do they need to be aware of How do we prepare educators both academics and workplace educators for these challenges This volume opens up and articulates the issues we face in preparing people to enter the contemporary world of healthcare Experienced educators should also find much of interest in these pages Practice based education provides an overarching framework for consideration of the issues involved There are five sections in the book Section 1 Introduction Section 2 Health Professional Education in Context Section 3 Teaching and Research Section 4 Case Studies Section 5 Future Directions

Educating the Deliberate Professional Franziska Trede, Celina McEwen, 2016-06-21 This book takes a fresh look at professional practice and professional education In times of increased managerialism of academic teaching and a focus on graduate learning outcomes it discusses possibilities to teach and learn otherwise A deliberate professional is someone who consciously thoughtfully and courageously makes choices about how to act and be in the practice world A pedagogy of deliberateness is introduced that focuses on developing the following four characteristics of professionals 1 deliberating on the complexity of practice and workplace cultures and environments 2 understanding what is probable possible and impossible in relation to existing and changing practices 3 taking a deliberate stance in positioning oneself in practice as well

as in making technical decisions and 4 being aware of and responsible for the consequences of actions taken or actions not taken in relation to the doing saying knowing and relating in practice Educating the deliberate professional is a comprehensive volume that carves out and explores a framework for a pedagogy of deliberateness that goes beyond educating reflective and deliberative practitioners As a whole this book argues for the importance of educating deliberate professionals because in the current higher education climate there is a need to reconcile critique thinking participation doing and moral responsibility relating to others in professional practice and professional education

Professional Practice in Health, Education and the Creative Arts Joy Higgs, Angie Titchen, 2008-04-15 Society is rapidly changing its expectations of professionals in all arenas In this book we focus on changing patterns of professional practice in health education and the creative arts In each of these areas professional practice care is undergoing major reform in a complex and rapidly changing environment This multi authored text explores professional practice in four key dimensions doing knowing being and becoming These concepts have been chosen to represent professional practice as much more than applying learned knowledge in practice situations The authors present professional practice as a lived and dynamic experience as well as a process a service for and with others and a way of being and behaving The text explores the essential unity of knowledge and practice through discourse narrative imagery and critical debate This is a book for all those seeking to learn and to improve practice

Clinical Reasoning in the Health Professions E-Book Joy Higgs, Mark A Jones, Stephen Loftus, Nicole Christensen, 2008-02-18 Clinical reasoning is the foundation of professional clinical practice Totally revised and updated this book continues to provide the essential text on the theoretical basis of clinical reasoning in the health professions and examines strategies for assisting learners scholars and clinicians develop their reasoning expertise key chapters revised and updated nature of clinical reasoning sections have been expanded increase in emphasis on collaborative reasoning core model of clinical reasoning has been revised and updated

Educating Professionals Steven M. Shardlow, 2016-04-29 How do health and social care professionals learn their practice What can the professions learn from each other This book offers a comprehensively written account of the recent organizational and conceptual changes in UK practice education Using case examples the authors focus on the experiences of students learning in practice settings how this is organized what methods are used to help students learn their trade and how their abilities are assessed The book offers separate chapters on nine professions all by authors well established in writing about practice based learning in their field They present an exploration in areas of similarity and difference in expertise and outlook between professions whilst introducing the general concepts that translate between professions This book will be of great interest to academics and professional in the fields of health studies and social work

Innovations in Allied Health Fieldwork Education, 2010-01-01 This book presents a wide ranging international overview of innovations in fieldwork education in three allied health disciplines It provides theoretical foundations and evaluations of implementation and outcomes of a range of

approaches used in fieldwork education The various chapters identify new models locations and modes of delivery and teaching and learning strategies for fieldwork education They also point to emerging possibilities for fieldwork education for the future This book identifies that there is a developing evidence base for innovation in fieldwork education and there is a need for the practice of educational evaluation and enhancement to become habitual and ongoing

Clinical Education in the Health Professions Clare Delany, Elizabeth Molloy, 2009-09-01 Clinical settings are dynamic educational spaces that present both opportunities and barriers to learning and teaching Designed to inform challenge and educate health professionals about the evidence underpinning clinical education practices and outcomes this multi disciplinary book brings together important concepts in healthcare education and addresses context and processes of learning professional identity and socialisation feedback and assessment ethics and inter professional education The authors encourage teaching and learning practices based on research findings expertise and innovation and the development of individual teaching methods and styles from a theoretical base that provides relevant principles direction and support With clear links between theory research and practice collaboration from a broad range of clinical disciplines and models for learning and teaching grounded in empirical research Clinical Education in the Health Professions will become a standard reference for all health professionals and educators examines patterns of practice in clinical education in the health professions using a qualitative research focus identifies the roles of university and clinical educators students peers and patients in clinical education highlights implicit tensions in clinical education practice and presents strategies to identify and address such tensions challenges the reader to consider new approaches to clinical education that may optimise students learning and enculturation into the health professions

Creek's Occupational Therapy and Mental Health E-Book Wendy Bryant, Jon Fieldhouse, Nicola Plastow, 2022-05-28 Promoting and maintaining mental health continues to be a key challenge in the world today Creek s Occupational Therapy and Mental Health is essential reading for students and practitioners across a wide range of health professions capturing contemporary practice in mental health settings Now fully updated in its sixth edition it retains the clarity and scholarship associated with the renowned occupational therapist Jennifer Creek while delivering new knowledge in a fresh perspective Here readers can find everything they need on mental health for learning practice and continuing professional development Complex topics are presented in an accessible and concise style without being oversimplified aided by summaries case studies and questions that prompt critical reflection The text has been carefully authored and edited by expert international educators and practitioners of occupational therapy as well as a diverse range of other backgrounds Service users have also co authored chapters and commentaries Evidence based links between theory and practice are reinforced throughout This popular title will be an indispensable staple that OTs will keep and refer to time and again Relevant to practice outlines a variety of therapeutic interventions and discusses the implications of a wide range of contexts New chapters on eating disorders cognitive learning based approaches and being a therapist Extended

service user commentaries Expanded scope to accommodate diverse psychosocial perspectives and culturally sensitive practices New questions for readers in every chapter Key reading and reference lists to encourage and facilitate in depth study

Transforming Practice through Clinical Education, Professional Supervision and Mentoring Miranda L. Rose, Dawn L. Best, 2005-09-07 This important resource investigates topics related to clinical education professional supervision and mentoring Beyond student supervision it discusses supervision of professionals in the work place and the emerging importance of professional mentoring for ongoing professional development Its broad perspective is relevant to a wide range of health professions including audiology dietetics nursing occupational therapy pharmacy physiotherapy podiatry prosthetics and orthotics radiography and speech language pathology Complex theoretical material is presented in a straightforward person centered approach that makes information easily accessible and applicable to practice Written by multidisciplinary experts with academic and research backgrounds who also possess extensive practical experience in a variety of professional health fields Reader friendly engaging material is grounded in current theory and evidence Three distinct but interrelated fields clinical education professional supervision and mentoring are addressed together in one book for the first time Supervision of professionals in their workplace is covered as well as professional mentoring for ongoing professional development Presents complex theoretical material in an engaging person centered approach Acknowledges the importance of psychological well being with chapters on the self in supervision and finding meaning and preventing burnout

Clinical Reasoning for Manual Therapists E-Book Mark A Jones, Darren A Rivett, 2003-11-04 A practical text covering the theory and the practice of clinical reasoning skills for all physical therapists Provides readers with activities to improve their own clinical reasoning within their own clinical setting With a range of very high caliber international contributors in the field of physiotherapy practice this book gives the answers to the practitioner's question of how does one apply the theoretical knowledge involved in clinical reasoning to practice and how can one become a better practitioner as a result This book will provide readers with activities to improve their own clinical reasoning within their own clinical setting Increase clinicians awareness of the clinical reasoning process Encourage clinicians reflection of their own reasoning including factors that influence their reasoning typical errors they may be making and how to promote skilled reasoning

Practice and Service Learning in Occupational Therapy Theresa Lorenzo, Madeleine Duncan, Helen Buchanan, Auldeen Alsop, 2006-07-11 While this book is based primarily on experiences of occupational therapy practice education in South Africa it aims to have international appeal as key principles of practice and service learning are drawn from the differing scenarios covered Based on qualitative research some of the book's chapters describe issues faced by students in complex practice situations and highlight educational strategies for promoting socially responsive professional development They show how students engage with the personal and professional challenges of working in a multicultural society and how situated learning can enhance their resourcefulness in meeting the needs of individuals groups and communities The book is

divided into three sections The first on the practice education agenda establishes the academic rationale for various forms of practice learning within an occupational therapy curriculum The second section examines the learning opportunities offered by different practice contexts and highlights mechanisms for developing the professional identity of students The final section on enhancing potential reviews mechanisms that may be used for supporting students in the field and ends with a look at the future of practice education and how it might develop in response to social and international drivers

Forecasting Informatics Competencies for Nurses in the Future of Connected Health Judy Murphy, William Goossen, 2017-01-15 Nursing informatics has a long history of focusing on information management and nurses have a long history of describing their computer use However based on the technical advances and through the ongoing and consistent changes in healthcare today we are now challenged to look to the future and help determine what nurses and patients consumers will need going forward This book presents the proceedings of the Post Conference to the 13th International Conference on Nursing Informatics held in Geneva Switzerland in June 2016 The theme of the Post Conference is Forecasting Informatics Competencies for Nurses in the Future of Connected Health This book includes 25 chapters written as part of the Post Conference a result of the collaboration among nursing informatics experts from research education and practice settings from 18 countries and from varying levels of expertise those beginning to forge new frontiers in connected health and those who helped form the discipline The book content will help forecast and define the informatics competencies for nurses in practice and as such it will also help outline the requirements for informatics training in nursing programs around the world The content will aid in shaping the nursing practice that will exist in our future of connected health when practice and technology will be inextricably intertwined

The Journey from Student to Paramedic in the UK Ambulance Service John Donaghy, Diane Waller, 2024-03-12 Drawing on extensive ethnographic research this fascinating book highlights the challenges and contradictions faced by neophyte paramedics as they transition from a classroom setting into day to day clinical work placements Shining a spotlight on the subculture of the UK Ambulance Service as well as the paramedic profession more widely it examines critically how language cultural meanings institutionalised rules professional identity and working practices determine key behaviours within paramedic practice providing readers with insight into the profession not seen by members of the public or portrayed by media representations The book draws on work of seminal authors and experts in the field to provide a sociological perspective on this not only challenging but also at times chaotic professional environment Supported by fieldnotes as well as interviews with students and paramedics the book will be essential reading for any student on the path to becoming a paramedic It will also be valuable reading for those within the service who wish to better understand the hidden cultural and social components that lie beneath the practice itself

Lecturing Helen Edwards, Brenda Smith, Graham Webb, 2012-10-12 Featuring real life hints tips and examples of good and bad practice this manual provides practical advice on good lecturing techniques and confidence in further and higher education contexts

Educate, Train & Transform: Toolkit On Medical And Health Professions Education Dujeepta D

Samarasekera, Matthew C E Gwee, 2021-04-21 This handbook contextualises medical and health professions education concepts using contemporary best evidence available with the relevant theoretical underpinnings Each section is developed by internationally renowned experts in their respective fields All chapters are succinct and concise providing answers to everyday issues and challenges using practical solutions Through its unique structure this handbook facilitates learning by raising and providing solutions to the questions What Why and How It emphasises lifelong learning and future directions in medical and health professions education highlighting trends issues priorities and strategies TIPS [A Beginner's Guide to Critical Thinking and Writing in Health and Social Care](#) Helen Aveyard, Pam Sharp, Mary Woolliams, 2011-08-01 This book offers an alternative realistic and practical approach to help those in health and social care critically appraise what they read and what they see in the workplace **Staff and Educational Development** David Baume, Helen Edwards, Graham Webb, 2003-12-16 Maintaining the practical and interactive focus of the series this book features a collection of case studies of best practice from around the world covering different situations environments and course types They include key areas such as skills research supervision and curriculum change and development support services implementing change leadership quality assurance and improvement and accreditation The studies are presented in such a way as to encourage readers to engage in critical reflection After each one its author provides a thorough analysis of the case teasing out key issues and providing links to research and experience in the area **EBOOK: A Beginner's Guide to Critical Thinking and Writing in Health and Social Care** Helen Aveyard, Pam Sharp, Mary Woolliams, 2015-03-16 Ever struggled to write a critical essay Ever wondered what critical thinking actually is and how you can apply it in your academic work and practice This bestselling guide takes you through every stage of becoming a critical thinker from approaching your subject to writing your essays or dissertation in health and social care Each chapter tackles a different aspect of critical thinking and shows you how it s done using examples and simple language Beginning with an overview of the importance of critical thinking the book goes on to cover How to think critically about different types of information as potential evidence including books journals articles websites and new to this edition social media How to demonstrate critical thinking in written work and presentations How to adopt critical thinking in practice Updated with more references to online resources and critical appraisal tools this fully revised second edition includes The key tool Six questions for critical thinking which will assist you in developing your skills for academic work and practice updated for this edition in response to student evaluation An expanded worked example of critical analysis New exploration of the connection between theory and practice This book is an essential purchase for students and qualified healthcare staff alike and was highly commended in the BMA Medical Book Awards 2012 This is an amazing book that I recommend to all levels of students as there is something in it for all It is written in an easy to understand and friendly style that is accessible to anyone has an interest in critical thinking whether they are studying or not

I love this book and the sound of the penny dropping for my learners Liz Rockingham Adult Field Lead Teaching Fellow University of Surrey UK In my estimation this is the definitive beginner s guide to critical thinking and writing in health and social care After reading this book any student should understand why and how critical thinking underpins professional practice and the highest endeavours in academic work and research Dr Ruth Davies Associate Professor Child and Family Health Swansea University UK I did not intend to read this book cover to cover but it was such a pleasure I did The book by Aveyard Sharp and Woolliams achieves exactly what it sets out to do and is a comprehensive and highly readable guide Ailsa Espie Senior Lecturer Division of Nursing Queen Margaret University UK Health and social care professionals navigate through extensive quantities of information in the course of their work The ability to think clearly and critically is fundamental for appraising and implementing evidence and knowledge in practice This book is an excellent place to start learning these vital skills and I recommend it to my students and to you Dr Martin Webber Anniversary Reader in Social Work University of York UK I would recommend this book to any health care student not just nurses that require help in starting out how to write critically in essays presentations literature reviews and dissertations Jade Day Student Nurse at Anglia Ruskin University UK
