Security, Education and Development in Contemporary Africa M. Raymond Izarali,Oliver Masakure,Edward Shizha,2016-12-01 This volume delineates the critical link among security education and development in Africa and provides a multidisciplinary framework of analyses and possible solutions Africa has had a long history that embodies layers of mass scale criminality and exploitation not merely from neocolonial and apartheid policies but also from political greed This has impacted adversely on security education and development in a way that deprivation of education and underdevelopment in turn re creates security issues The volume aims firstly to help augment scholarly inquiry into the nexus among in security education and development through the multidisciplinary framework of analyses secondly to provide policymakers and educators with tools and a framework to comprehend the complexity and magnitude of the issues to which they ought to be sensitive and respond and finally to provide caregivers and childcare agencies of the state a comprehensible framework of underlying multifaceted sources of trauma experienced by children in extraordinary circumstances It is organized in four sections theoretical conceptualization on security and

Russo,2013-07-11 The Handbook of Comparative Higher Education Law addresses legal issues from institutions of higher learning in seventeen countries on all six inhabited continents in a reader friendly manner All chapters follow the same outline on institutional issues faculty rights student rights and emerging issues so that similarities and differences can be compared An introductory chapter provides an overview on the legal status of higher education as selected in various international covenants In addition a concluding chapter draws the themes addressed throughout the book together and centers on the concept of best practice management This book serves as valuable resource for educational practitioners in higher education insofar as it provides them with an enhanced awareness of strategies that are being used to manage problems commonly faced in multiple educational settings **The Law, Policy and Politics of the UN Human Rights Council** Bertrand G. Ramcharan,2015-05-19 The UN Human Rights Council is the leading human rights organ of the United Nations and ten years after it was established it has attracted commendation as well as severe criticism Its universal periodic review is widely recognized as a valuable process of international cooperation to advance the universal implementation of human rights However it has been criticized for not acting effectively and fairly in dealing with situations of shocking violations of human rights in many parts of the world It is an international organ with the highest responsibilities to uphold universal values but at the same time it is a political organ of United Nations Member States and it shows the characteristics of both a values based body and a theatre of political drama It is the merit of this book to present the Human Rights Council in terms of its mandates roles and organization while seeking to remind the membership and the international community at large that the Council must be anchored in the modern human rights law of the Charter of which the author gives a superb presentation The book then proceeds to make the case that human rights are part of international constitutional law and this is exceedingly important at a time when universal values have come under stress from various quarters including from terrorist formations The argument of the book is essentially that the modern human rights law of the Charter and the human rights provisions of international constitutional law must take precedence for everyone everywhere The Teaching Profession A. Reis Monteiro,2014-11-03 This volume contributes to debates about the teaching profession by reviewing international and national reports on its status as well as on reforms of various education systems It proposes a global approach to the quality of the teaching profession as a decisive ingredient of education quality including a conception of its identity and a vision of its future Moreover it is suggested that professional self regulation may be the best way to achieve higher professional and social status for teachers since it allows educators collectively to assume the culture of the values that comprise the
