significant fraction of the global infectious disease burden indeed nearly half of the world s population is infected with at  
least one type of vector borne pathogen CIESIN 2007 WHO 2004a Vector borne plant and animal diseases including several  
newly recognized pathogens reduce agricultural productivity and disrupt ecosystems throughout the world These diseases  
profoundly restrict socioeconomic status and development in countries with the highest rates of infection many of which are  
located in the tropics and subtropics Although this workshop summary provides an account of the individual presentations it  
also reflects an important aspect of the Forum philosophy The workshop functions as a dialogue among representatives from  
different sectors and allows them to present their beliefs about which areas may merit further attention These proceedings
