Education For Our Time:

Time for Educational Poetics Xicoténcatl Martínez Ruiz, 2019-03-19 In *Time for Educational Poetics* the author addresses a discussion in the context of today's philosophy of education and educational research. Conceptually, educational poetics is not limited to a theoretical construction but rather focuses on the creative, imaginative, and poetic experience to being recreated in the teaching-learning process. Educational poetics is rooted in the philosophical and aesthetic thought of South Asia, specifically in how contemplative and creative practices re-introduced by Rabindranath Tagore. Educational poetics is the convergence of research in creative contemplation and poetic creation, practices of conscious attention and mindfulness, and practices of peace education and philosophy of non-violence. This book leads to a perspective in thinking about the risks that jeopardize the future of young generations. *Our Times: America finding herself* Mark Sullivan, 1927

EDUCATION FOR THE JOY OF IT Dr. Robert J. Pellegrini, 2014-07-01 This book is targeted to all current or prospective high school students, college students, or anyone else who aspires to strengthen the educational foundation upon which to build the rest of her/his life, with the hope that it is especially helpful to people who might otherwise become or have already been formal educational program dropouts or lockouts. I cannot guarantee that applying what is offered here will ensure an A grade or achievement of one's life goals. But I do guarantee that I have tried to summarize critical elements of thought, feeling, and action oriented to such objectives. Part I of this book is all about how to work both hard and smart to experience the joy of academic success. Hard work is necessary to achieve anything worthy of pride in our own creative effort. But it's not just how much or how hard we work at things. It is also how smart we work that determines our life outcomes. And what I mean by working smart is working efficiently and effectively. The goal here is to help all students reap as much as possible from their educational investment, whatever that investment may be in terms of time, money, energy, and self-disciplined personal sacrifices. Part II is about what it takes to achieve great success at anything in life. The format for this second part is essentially a psychological profile of outstanding achievers. From both my professional and personal experience, I've learned how vitally important education can be as an avenue to a professionally valued and personally satisfying life. And once again in 2014 I find myself championing an approach designed to facilitate human development through educational opportunity in a program I call Life Construction 101, designed not just to augment efforts to help at-risk students but to help every student enjoy academic success experiences. *Education For The Joy Of It* is the user's manual for that Life Construction 101 program. Accordingly, the Appendix to this book presents a brief structured exercise designed to provide a very preliminary template for initiating the construction or reconstruction of one's life. And that's it. A little book that I hope will be one of the biggest books its readers ever read. Education for Everyday Life Carl Anders Säfström, 2023-10-21 This book examines the role of teaching within public education It critiques its function in today's educational policies and theories and establishes an alternative way of understanding teaching It explores teaching from within a Sophist tradition of educational practice and thought The first part of the book discusses the vital link between public education and democracy the shifts in schooling's role in fostering competition and comparisons at the cost of social responsibility and democratisation It identifies the driving force of those shifts as forces of aggression and destruction central to a neoliberal ideology The second part of the book argues for a practice of Sophistical teaching rather than Socratic teaching It explores in depth what it could mean to be teaching in an up to date sophist tradition of educational thought and practice The book also includes insights for teaching to counter aggressive forces of nationalism racism and late capitalism's violence and the escalating climate crisis Readers will be able to understand teaching within educational thought and precisely how different teaching forms can contribute to education as democratisation

Curriculum, and the Politics of Educational Justice Wayne Au, 2025-09-26 This one of a kind collection will help today's educators feel and understand the power that communities can harness through organizing and solidarity. This volume highlights some of Wayne Au's most impactful essays and articles across his 25 years as an educator, activist, and scholar. In this carefully curated collection, Au traces the development of his politics and analyses of schooling, education policy, curriculum, and racialization. Featuring concrete examples, chapters address antiracist education and the politics of knowledge, the racial politics of high stakes testing and neoliberal education reforms, and the racialization of Asian Americans as a model minority and its connection to anti-Blackness. Importantly, this book illustrates the power of writing for different audiences by placing scholarly essays alongside those written for teachers, parents, and community members, while also linking educational activism with educational research. In addition to providing a broad examination of the politics of curriculum and educational policy in America, the book features:

- Written by an internationally known scholar in the areas of curriculum, multicultural, and antiracist education; high stakes testing and neoliberal reforms; racial justice and critical education.
- Provides a model for how to translate educational research and analysis between academic and public discourses, embodying the intersections of theory, practice, and justice.
- Combines searing political analysis of education with the hope offered through activism, solidarity, and educational justice.
