Segregation Hurts Pavan John Antony, 2013-02-11 Segregation Hurts is a book that explores the stories of six families who have children with disabilities. The families who reside in the south west of India shared their daily experiences living with a child with a disability. Irrespective of the diverse socio economic statuses and religious beliefs, families shared common challenges raising a child with a disability in the Indian society. These children faced exclusion and denial of admission to local public schools due to their disability and they were forced to seek admission to a special school in their neighbouring community. Public schools in India continue to deny admission to millions of children due to their disabilities and are an invisible minority in the society. This book provides a novel and unique perspective about the nuances and daily struggles of families who are silenced and shut out due to the shortcomings and oppressive nature of the education system. Further, an in-depth analysis and critique is made of the treatment and education of children with disabilities in India. Dr Antony is a strong advocate of inclusive schooling and this book will share his expertise within international contexts. I highly recommend Dr Antony's book. It gives a new insight into the life and lessons of Gandhi. Arun Gandhi, President, Gandhi Worldwide Education Institute, Rochester, NY, USA. Pavan Antony has written a compelling overview of the education of children with disabilities in India through six stories. There are commonalities in the families' experiences even though they come from different backgrounds. The candid conversations the researcher had with the families brings their hopes, fears, and dreams to life. The move to inclusive practices in a developing country is difficult and Pavan Antony captures the macro and micro challenges through this powerful narrative. Dr Vianne Timmons, President and Vice Chancellor, University of Regina, Canada. Pavan Antony has given us deeper insight into the lives of families that include people with disabilities in India. Through the stories of six individuals, their parents and siblings, the variables of class, religious tradition, cultural identity, and human resilience are explored. Pavan's book provides an enriching cultural lens with which to explore disability, humanity, and the dignity of each person. Barbara Trader, Executive Director of TASH, Washington. **Encyclopedia of Disability** Gary L Albrecht, 2006. Presents current knowledge of and experience with disability across a wide variety of places, conditions, and cultures to both the general reader and the specialist. **DISABILITY AND DEVELOPMENT** Misa Kayama, Wendy Haight, 2014. This book examines how the concept of disability is starting to take root in the Japanese school system and what the implications are for parents, teachers, policy makers, and other stakeholders. The Sociology of Disability and Inclusive Education Madeleine Arnot, 2013-09-13. Len Barton's intellectual and practical contribution to the sociology of disability and education is highly significant and widely known. The leading scholars in this collection, including his long-term collaborators, offer both a celebration and a reassessment of this contribution, addressing the challenge that the social model of disability has presented to dominant medicalised concepts, categories, and practices, and their power to define the identity and the lives of others. At the same time, the authors build upon some of the key themes that are woven through Len Barton's work, such as

his call for a politics of hope This collection explores a wide range of topics including difference as a field of political struggle the relationship of disability studies disabled people and their struggle for inclusion radical activism organic intellectuals and the disability movement discrimination exclusion and effective change inclusive education the politics of hope resilience and transformative actions universal pedagogy human rights and citizenship debates The Sociology of Disability and Inclusive Education highlights Len Barton s humane vision of academic work of the nature of an inclusive and non discriminatory society of the role of an education system which addresses the rights and potential of all participants It indicates how such a society could be achieved through the principles of social inclusion human rights equity and social justice This book was originally published as a special issue of the British Journal of Sociology of Education
