*A Sourcebook of HIV/AIDS Prevention Programs* Alexandria Valerio, Michael Beasley, Donald A. P. Bundy, 2008 Abstract This Sourcebook aims to support efforts by countries to strengthen the role of the education sector in the prevention of HIV/AIDS. It was developed in response to numerous requests for a simple forum to help countries share their practical experiences of designing and implementing programs that are targeted at school age children. The Sourcebook seeks to fulfill this role by providing concise summaries of programs using a standard format that highlights the main elements of the programs and makes it easier to compare the programs with each other. *A Sourcebook of HIV/AIDS Prevention Programs* 2nd Edition documents 13 education based HIV/AIDS prevention programs targeting children and youth from 7 sub-Saharan African countries. It is sponsored by UNAIDS, UNICEF, UNESCO, UNFPA, DFID, USAID, Ireland Aid and the World Bank. The Sourcebook represents the work of many contributors and was developed by the Partnership for Child Development with the World Bank. *Education and HIV/AIDS : a sourcebook of HIV/AIDS prevention programs* Alexandria Valerio, Donald A. P. Because school health and nutrition programs

specifically benefit poor sick and hungry children they can make a key contribution to achieving EFA's goals. However, children can benefit only if the programs reach them. *Rethinking School Health: A Key Component of Education for All* describes how schools have been used as a platform for delivering familiar, safe and simple health and nutrition interventions to hard-to-reach children in low-income countries. The book's foreword was written jointly by Elizabeth King of the World Bank, Susan Durston of the United Nations Children's Fund (UNICEF) and Qian Tang of the United Nations Educational, Scientific and Cultural Organization (UNESCO), indicating the interagency support for this approach. The book will be of particular interest to those working in the fields of education, health and nutrition and early childhood development.

*Tools for Building Culturally Competent HIV Prevention Programs* Julie Solomon, Jacquelin Berman, 2007-11-01 A comprehensive guide to creating, implementing and evaluating culturally competent HIV prevention programs. Recent literature on effective HIV/AIDS prevention programs underscores the importance of cultural sensitivity and cultural competence in the delivery of services and care. Successful prevention interventions must be tailored for their target populations. Yet many HIV/AIDS prevention professionals struggle to meet the specific needs of their communities. *Tools for Building Culturally Competent HIV Prevention Programs* contains a variety of well-informed, evidence-based approaches to HIV prevention programs. It offers all the tools practitioners need to launch an effective prevention program, from identifying program goals and objectives to developing program models, to recruiting and retaining staff and finally to conducting evaluations and reporting results. All material is filtered through a cultural perspective and methods are tailored to specific racial, ethnic and socioeconomic groups. Additional resources are included to assist in the preparation and development of your prevention program, such as Federal standards and guidelines for culturally competent health care and social service provision. True-life case studies that show how other HIV prevention programs succeeded. Checklists, worksheets and templates to create, monitor and manage your program. The CD includes Customizable checklists and worksheets that you can use in your program. A demonstration of the Virtual Program Evaluation Consultant (VPEC) software program, a program evaluation service offered by Sociometrics Corporation. Purchasers of this book will get a three-month license to VPEC free. Use the companion volume *The Complete HIV/AIDS Teaching Kit with CD-ROM* in your prevention program to assist you in providing an overview of the incidence, prevalence, prevention and treatment of HIV/AIDS to all your students, patients or clients.
