**Education and the Quest for Modernity in Turkey** Andreas M. Kazamias,1969      **Education and the Quest for Modernity in Turkey, By Andreas M. Kazamias** Andreas M. Kazamias,1969      *Education and the Quest for Modernity in Turkey* Eustace Anthony Evans,1966      The Politics of Education in Turkey Zühre Emanet,2023-06-15 Control over education has been a keenly contested area since the Justice and Development Party AKP came to power in Turkey Central to this contest has been the question of whose values would be passed down to future generations with the inculcation of gender segregation in primary schools a key marker in ongoing cultural battles over Turkey s secularist founding principles and the growing dominance of Islamist political movements This book offers an in depth analysis of gender inequality in action in the Turkish schooling system by examining changes in education provision and culture in the years since 2012 Based on two school ethnographies conducted in an AKP dominated district of Istanbul where the author worked as a teacher and researcher it examines neoliberal education policies and their co option by the AKP and other Islamist movements to promote their own agendas while also considering the effects of the struggle between rival Islamist groups Grounding its theoretical approach with empirical evidence of ideology in action it provides an important analysis of the way in which boys and girls are socialized in Turkey s public schooling system      **Education in Turkey** Arnd-Michael Nohl,Arzu Akkoyunlu-Wigley,Simon Wigley,2008 This book represents a major study of the development and present state of education in Turkey Turkey offers a unique context for studying education because of the tensions that exist between secularization and Islam top down social engineering and democratization and economic growth and social justice Education in Turkey brings together some of the leading educationalists in Turkey as well as a number of scholars from other disciplines The topics covered include the development and structure of primary secondary vocational and adult education the role of education in shaping citizenship and national identity human capital economic growth and educational inequalities This significant volume will be of particular interest to policy makers as well as researchers and students in education economics politics and Turkish studies      *Education and Social Change in Egypt and Turkey* Bill Williamson,1987-06-18      *The Educational System of Turkey* Karen L. **International Handbook of Urban Education** William T. Pink,George W. Noblit,2008-09-03 It is evident that urban education has become the central focus of educators at the present time In the U S for example almost one third of all school age children attend schools in large urban school districts It is in these urban schools where the diversity of cultures and languages is highest and where student learning is most problematic What has emerged from recent work to improve urban

schools is the insight that there is no one size fits all panacea Rather we have discovered that the local context shapes in critically important ways what will be effective at the school level The universality of the problematics with urban education together with the importance of understanding the local or situated context of improvement interventions brings into sharp focus the importance and timeliness of an undertaking like the International Handbook of Urban Education An important focus of the International Handbook of Urban Education will be the interrogation of both the social and political factors that lead to different problem posing and subsequent solutions within each region An important question to be answered for example is what it takes in terms of resources political will and policy actions to improve urban education

*Curriculum Studies in Turkey* Sümer Aktan, 2018-08-21 This book analyzes curriculum studies in Turkey from the perspective of three paradigms religion science and ideology since the early 19th century Using Islam as a guiding point Turkish curriculum theory later evolved to become the classical curriculum theory In this book the author presents a historical account of the long complex and contested evolution of the Turkish curriculum as shaped by the intellectual and international forces of the day This interplay is designed to inform international curriculum studies across national borders

**Reproducing Class** Henry Rutz, Erol M. Balkan, 2009-02-01 Middle classes are by definition ambiguous raising all sorts of paradoxical questions perceived and real about their power and place relative to those above and below them in a class structured society Focusing on families of the new middle class in Istanbul the authors of this study address questions about the social construction of middle class reality in the context of the rapid changes that have come about through recent economic growth in global markets and the global diffusion of information technology After 1980 Turkey saw a structural transformation from state owned and managed industry banking and media and communications to privatization and open markets The idea of being middle class and the reality of middle class practices became open for negotiation and interpretation This study therefore offers a particularly interesting case study of an emergent global phenomenon known as the transnational middle class characterized by their location of work in globalizing cities development of transnational social networks sumptuary consumption habits and residences in gated communities As the authors show this new middle class associates quality education followed by property and lifestyle issues with the concept of a comfortable life
