Education Groups For Men Who Batter The Duluth Model:

Education Groups for Men Who Batter Ellen Pence, Michael Paymar, 1993-04-06 Pence and Paymar are right on target again. Their analysis of battering is excellent and their approach is straightforward, useful, and clear. The book tells you what to do with abusive men and how to do it well. The authors challenge practitioners to do their work in a manner that is compassionate yet never colluding. Accountability and safety to battered women and creating a process of change for abusive men are central to its success. Susan Schechter, author of *Women and Male Violence*, drawing upon years of experience, Pence and Paymar have written a practical and conceptually sound curriculum for batterers' groups. This book offers an effective guide to both the beginning facilitator and the experienced clinician for engaging batterers in the lifelong process of changing their intimate relationships from those based on coercive control to those based on equality. They accomplish this task without compromising their commitment to advocacy with battered women. Anne L. Ganley, PhD, Domestic Violence Program, Seattle Veterans Administration Medical Center, presents the most comprehensive and successful methods for working with men who batter. Mixing discussion, self-analysis, and opportunities for learning new behaviors, this well-mapped-out intervention strategy helps counselors hold men accountable while teaching non-abusive behaviors. Fernando Mederos, Executive Director of Common Purpose, Boston, MA, states that *Education Groups for Men Who Batter* is a curriculum and a methodology which unequivocally identifies the exercise of violent and coercive tactics against women in intimate relationships as intentional strategic behavior. It is an essential training tool for all actors in the justice and human services systems. Only when tactics of control are seen as intentional intimate terrorism can these systems construct responses effectively to end the violence. Barbara J. Hart, Esq., Pennsylvania Coalition Against Domestic Violence, presents the leading approach to undoing men's abuse of women. The Duluth Model has pioneered an approach based on the experiences of abused women and consequently tailored to their circumstances. It tackles the social dimensions of woman abuse more directly and decisively than any of the psychological or skill-building approaches circulating in the field. Edward W. Gondolf, author of *Men Who Batter Battered Women as Survivors and Psychiatric Response to Family Violence*, states that the Duluth Model has inspired activists all over the world and its principles are being followed in programs in several countries. We predict that this book will become the standard text for those who work with men who batter. Rebecca Emerson Dobash and Russell P. Dobash, authors of *Violence Against Wives: Women's Violence and Social Change* and *Women Viewing Violence*. **Education Groups for Men Who Batter** Ellen Pence, Michael Paymar, 1993-04-06 This book describes a major component of what has become known as the Duluth model: an educational curriculum which confronts batterers' behaviour and questions their beliefs. It explains the methods used and outlines the group process techniques for facilitators of men's groups. **Programs for Men who Batter** Etiony Aldarondo, Fernando Mederos, 2002 **Home Truths About Domestic Violence** Jalna Hanmer, Catherine Itzin, 2013-09-13 While men's violence to women is an everyday culturally supported activity, this reader demonstrates that

men's violence can be curtailed and that women and children can be assisted effectively that state policies and provision can be improved and that women can actively participate in the resolution of their difficulties Bringing together new work and key papers *Home Truths About Domestic Violence* provides a comprehensive overview and up to date account of the progress so far and identifies what still needs to be done Areas covered include women's experience of violence children's experience of violence personal experiences of the justice system state policies on violence in the US and UK educational programmes and initiatives This substantial Reader makes a significant contribution to the understanding of domestic violence from both a policy and a practice perspective Together with its companion volume *Home Truths About Child Sexual Abuse* it provides an in depth resource for a wide range of teachers students and professionals highlighting the diverse and complex dimensions of the problem of domestic violence

The Empathy Gap William Collins, 2021 From the ebook Preface This book majors on the presentation of empirical evidence in the form of data The most digestible form for communicating such material is through the use of Tables and Figures generally graphs Consequently the book has a great many Tables and Figures and the latter are often in colour Viewing on a device capable of rendering colours is therefore recommended although monochrome will be adequate in most cases The Empathy Gap proposes the thesis that men and boys are extensively disadvantaged across many areas of life including in education

healthcare genital integrity criminal justice domestic abuse working hours taxation pensions paternity homelessness suicide sexual offences and access to their own children after parental separation The claim is justified in the book by empirical evidence mostly but not exclusively from the UK involving nearly 1 000 references 179 Figures and 49 Tables To most people of both sexes this will appear to be a perverse perspective as disadvantage has become the province of women girls and minorities not males Yet the empirical case supporting the disadvantages suffered by men and boys is undeniable to the objective mind But if this is so why is the popular perception that males are privileged whereas disadvantage is the province of the opposite sex Why do the male disadvantages go largely unremarked by both sexes if they are so pervasive Presenting the case for widespread and substantial male disadvantage is also a challenge to the usual hegemonic paradigm of feminist theory These issues are addressed within *The Empathy Gap* by presenting an entirely different orientation on the social psychology of relations between the sexes Out goes the idea of an oppressive patriarchy Instead a man's participation in the human pair bond is seen to be altruistic a phenomenon arising originally from evolution and enacted in the individual via the emotional psyche This is the origin of an asymmetry in the perception of the sexes which normalises the preferencing of females and therefore inevitably disadvantages males as a corollary The successful evolved strategy involves male utility and relative male disposability the latter being facilitated by a muted empathy for males by both sexes the empathy gap Rather than working to overcome this male disposability as a true egalitarian movement would have done feminism has fed upon it and amplified it The feminist project relies upon the true state of affairs remaining unacknowledged and the empathy gap is instrumental in its own invisibility In respect of this theory the author makes no claim for originality The ideas presented have been circulating within the sub culture for decades However the focus of the book is to show how these ideas are manifest in practice

Women, Abuse, and the Bible Catherine Clark Kroeger,James R. Beck,2019-08-08 Why are spouse and child abuse so frighteningly common in the church According to the findings of this book s contributors the main reason stems from misuse and misunderstanding of the Bible s teachings on headship and submission Based on a Christians for Biblical Equality conference Women Abuse and the Bible shows that many abusers see no conflict between their behavior and their Christian beliefs Some abusers even justify their behavior by citing biblical passages and religious principles With input from counselors biblical scholars an abuser and survivors this eye opening book will Compel Christians to recognize the existence of domestic violence Offer practical and creative pathways to healing Challenge churches to honestly address the issues of domestic verbal and clergy abuse emotional cruelty sexual harassment and rape This book speaks frankly of the way that the

Bible can be used to hurt or to heal to disperse God's grace or to obstruct it. It serves as a sourcebook for all Christians courageous enough to address the problem.

Moving in the Shadows Liz Kelly, Yasmin Rehman, Hannana Siddiqui, 2016-04-15 In the UK the number of people who came from a minority ethnic group grew by 53 per cent between 1991 and 2001 from 3.0 million in 1991 to 4.6 million in 2001. Whilst much has been written about the impact of these demographic changes in relation to policy issues, black and minority women and children remain under researched. Recent publications have tended to focus on South Asian women, forced marriage and honour related violence. *Moving in the Shadows* brings together for the first time in a single volume an examination of violence against women and children within the diverse communities of the UK. Its strength lies in its gendered focus as well as its understanding of the need for an integrated approach to all forms of violence against women whilst foregrounding the experiences of minority women, the communities they are part of and the organizations which have advocated for their rights and given them voice. The chapters contained within this volume explore a set of core themes: the forms and contexts of violence, minority women experience the continuum of violence, the role of culture and faith in the control of women and girls, the types of intervention within multi-cultural and social cohesion policies, the impacts of violence on British born and migrant women and girls and the intersection of race, class, gender and sexuality, highlighting issues of similarity and difference. Taken together they provide a valuable resource for scholars, students, activists, social workers and policy makers working in the field.
