Political Economy of Social Change and Development in Nepal Jeevan R. Sharma, 2021-09-30 Political Economy of Social Change and Development in Nepal is an accessible contemporary political economic analysis of social change in Nepal. It considers whether and how Nepal's political economy might have been transformed since the 1950s while situating these changes in Nepal's modern history and its location in the global economic system. It assembles and builds on the scholarship on Nepal from a multidisciplinary and synoptic perspective. Focusing on local discourses, experiences, and expectations of transformations, it draws our attention to how powerful historical processes are experienced and negotiated in Nepal and assess how these may at the same time produce ideas of equality, human rights, and citizenship while also generating new forms of precarity.

The Status of Social Studies Jeff Passe, Paul G. Fitchett, 2013-10-01 A team of researchers from 35 states across the country developed a survey designed to create a snapshot of social studies teaching and learning in the United States. With over 12,000 responses, it is the largest survey of social studies teachers in over three decades. We asked teachers about their curricular goals, their methods of instruction, their use of technology, and the way they address the needs of English language learners and students with disabilities. We gathered demographic data too, along with inquiries about the teachers' training, their professional development experiences, and even whether they serve as coaches. The enormous data set from this project was analyzed by multiple research teams, each with its own chapter. This volume would be a valuable resource for any professor, doctoral student, or Master's student examining the field of social studies education. It is hard to imagine a research study, topical article, or professional development session concerning social studies that would not quote findings from this book about the current status of social studies. With chapters on such key issues as the teaching of history, how teachers address religion, social studies teachers' use of technology, and how teachers adapt their instruction for students with disabilities or for English language learners, the book's content will immediately be relevant and useful.

Son Preference Navtej K. Purewal, 2010-04-01 The preference for male children transcends many societies and cultures, making it an issue of local and global dimensions. While son preference is not a new phenomenon and has existed historically in many parts of Asia, its contemporary expressions illustrate the gendered outcomes of social power relations as they interact and intersect with culture, economy, and technologies. Son Preference brings together key debates on the subject of son preference by assessing existing work in the field and providing new insights through primary research. The book covers a broad range of social science discussions and draws upon textual

and ethnographic material from India Son Preference will be useful to students scholars activists and anyone interested in the issues surrounding gender inequity sex selection and skewed sex ratios

[The Quality of Practitioner Research](#), 2007-01-01 This book contains different perspectives on the quality of practitioner research or action research and focuses specifically on questions of the relation between the researcher and the field of the researched The collaborative characteristic of research by practitioners is seen by many as crucial for the better understanding and transformation of practices Those who are included in these practices are expected to be part of the research The distance between researcher and researched should therefore be small in fact this distance is absent when practitioners do research within their own field without the interference of researchers from outside the school This raises fundamental questions about the relationship between the researcher and the researched or the field of the researched The authors of this book share a concern about the popularity of uncritical and rather technical approaches to practitioner research or action research The book offers inspiring and thought provoking ideas to all involved in research by practitioners especially in education researchers and facilitators in the field of practitioner research action research and qualitative research teachers and other practitioners philosophers of education and postgraduate students Most chapters in the book are proceedings from the joint International Practitioner

Research Conference and the Collaborative Action Research Network Conference 2005 in Utrecht the Netherlands organized by Fontys University dept of Inclusive Special Education and Leiden University Graduate School of Teaching ICLON

Storying the Public Intellectual Pat Sikes, Yvonne Novakovic, 2019-10-17 Storying the Public Intellectual Commentaries on the Impact and Influence of the Work of Ivor Goodson offers a critical commentary on Goodson s work that avoids hagiography whilst recognising the global reach of his scholarship With contributors from around the world those who have collaborated with him or those who have taken up his work the book provides the sort of social and historical contextualising that Goodson has always advocated The accounts in this collection highlight how Goodson s integration of moral imperatives into strategically responsive scholarship can provide a useful roadmap when negotiating a path through the contemporary academic research landscape By using his historian s orientation and sensibilities he is able to get to the heart of the logics of schooling By connecting with other scholars and researchers around the world he exposes how the global neo liberal project plays out in particular settings and so challenges pervasive understandings about the meaning of global and the power of the neo liberal project itself This book is ideal reading for academics scholars and researchers in the field of education including those involved in initial and in service teacher education

The Routledge Research Companion to Popular Music Education Gareth Smith, Zack Moir, Matt Brennan, Shara Rambarran, Phil Kirkman, 2017-01-20 Popular music is a growing presence in education formal and otherwise from primary school to postgraduate study Programmes courses and modules in popular music studies popular music performance songwriting and areas of music technology are becoming commonplace across higher education Additionally specialist pop rock jazz graded exam syllabi such as RockSchool and Trinity Rock and Pop have emerged in recent years meaning that it is now possible for school leavers in some countries to meet university entry requirements having studied only popular music In the context of teacher education classroom teachers and music specialists alike are becoming increasingly empowered to introduce popular music into their classrooms At present research in Popular Music Education lies at the fringes of the fields of music education ethnomusicology community music cultural studies and popular music studies The Routledge Research Companion to Popular Music Education is the first book length publication that brings together a diverse range of scholarship in this emerging field Perspectives include the historical sociological pedagogical

musicological axiological reflexive critical philosophical and ideological Fabricating Quality in Education Jenny Ozga, Peter Dahler-Larsen, Christina Segerholm, Hannu Simola, 2011-12-22 This book argues that data and their use constitute a form of governance of education. It highlights the ways in which education is steered and managed so that a European education policy space is fabricated through data which travel across national systems and which enter and restructure provision to make it measurable, comparable and governable.

Handbook of Early Childhood Literacy Nigel Hall, Joanne Larson, Jackie Marsh, 2003-10-18 This volume examines early literacy research on a global scale and puts social, cultural and historical analyses in the front seat without losing sight of individual and family level matters in the process. It is comprehensive, ground breaking and provocative and should help literacy researchers to think differently about the field.

Marjorie Faulstich Orellana, School of Education and Social Policy, Northwestern University. No other publication that I am aware of brings together views from such diverse disciplines contributing to a comprehensive statement about early childhood literacy. The Handbook not only reviews the current field of situated literacy but presents some important and exciting new research. It is a significant resource that promises to become a landmark text.

Eve Bearne, University of Cambridge, Faculty of Education, U.K. This handbook brings together an astonishing array of writers who explore contemporary political, cultural and cognitive understandings of early childhood literacy. Literacy and literacy acquisition are broadly defined here to encompass not just traditional notions of reading and writing but multimodalities, multiliteracies and critical literacies. It is rich and comprehensive, an invaluable resource for scholars, educators and students of early childhood literacy.

Elsa Auerbach, Professor of English, University of Massachusetts Boston. This book is unique in its broad consideration of topics and its global focus. I particularly appreciate how the editors have situated current research in an historical context. They have also included development issues, pedagogy research and the newest areas of interest: critical literacy and popular culture.

Diane Barone, University of Nevada, Reno. In recent years there has been a virtual revolution in early childhood studies with a mass of books and papers seeking to re-examine and reposition childhood. At the same time, an equally significant area has developed within literacy studies reflecting a growing interest in the nature of literacy as a socially situated phenomenon. There is increased interest in literacy as a multimodal concept in which symbolic meaning is a central concept rather than more conventional and narrower notions of literacy.

The Handbook of Early Childhood Literacy is central in providing access to all these different perspectives. The Handbook offers a way through the vast diversity of publications on early childhood literacy by providing comprehensive and up to date reviews of research and thinking in early childhood literacy. The arrangement of chapters reflects a contemporary perspective on research into early childhood literacy. Major sections include the global world of early childhood literacy, childhood literacy and family, community and culture, the development of literacy in early childhood, pedagogy and early childhood literacy and researching early childhood literacy. Contributions by leading authorities focus on literacy as a socially situated and global experience, one that is evolving in relation to changes in

contemporary culture and technological innovation
