same time explores the rich human context of sand Interwoven with tales of artists mathematicians explorers and even a vampire the story of sand is an epic of environmental construction and destruction an adventure in staggering scales of time and distance yet a tale that encompasses the ordinary and everyday Sand in fact is all around us it has made possible our computers buildings and windows toothpaste cosmetics and paper and it has played dramatic roles in human history commerce and imagination In this luminous kinetic revelatory account we do indeed find the world in a grain of sand
