Genesis Unveiled The Lost Wisdom Of Our Forgotten Ancestors:

Genesis Unveiled Ian Lawton, 2004 Our oldest texts and religious writings from the Bible to the Vedic scripts all speak of a golden age when our earliest forebears dwelt in utopian bliss before losing their way and suffering annihilation in a worldwide catastrophe In a stunning reappraisal of the sacred texts of antiquity Ian Lawton uncovers what he believes is the key to deciphering the true origins of our antediluvian ancestors The comparative history community has for some years argued over who this forgotten race may be and high profile books such as Graham Hancock's *Fingerprints of the Gods* and Andrew Collins *Gateway to Atlantis* have found a huge audience who are prepared to look beyond the orthodoxy Lawton argues that the evolution of the modern human race received its most supreme cultural impetus around 100 000 years ago when the first advanced souls incarnated in human form giving a philosophical interpretation of the universal stories of fallen angels With chapters on mythology evolution archaeology geology and science this scholarly work bravely combines history and philosophy to spectacular effect The result is a groundbreaking book that will change not only the way we look at the past but even more so the future

Genesis Unveiled Ian Lawton, 2004 Our oldest texts and religious writings speak of a golden race dwelling in utopian bliss before losing their way and suffering annihilation In a reappraisal of the sacred texts of antiquity Ian Lawton uncovers what he believes is the key to deciphering the origins of our antediluvian ancestors

Re-Education - Wisdom - Evolution Liborio Altamore, 2017-06-29 In *Re education Wisdom Evolution* Liborio Altamore stands on the shoulders of the giants of history philosophy and metaphysics to discover what light the past can shed on the problems of the twenty first century By digging deep into history religion philosophy and culture Altamore traces a path for how we can improve the future Kristine Morris *Re education Wisdom Evolution* opens up the mind to what life really is It is a journey in which the past is revealed through the eyes of perceived history As a student about to take my GCSE exams this book has cleared my mind as to what subjects I want to take and answers questions regarding religion philosophy education science the mind the world around us and many other subjects that aren't taught in school but are vital for understanding ourselves and life itself For me this book isn't life described through one mind but hundreds It is a collection of evidence from great books and people through the ages I enjoyed reading it as it is detailed but not difficult to understand It has added depth to my knowledge and understanding of most things and is therefore a must read for anyone looking to learn Jessica Spigler

Digging Up the Past Again Liborio Altamore, 2012 I have always been intrigued by the fact that most of the ancient people including very famous philosophers politicians army generals and even kings and emperors never doubted or questioned the existence of the gods Nowadays someone who admitted to believing in the gods would be considered stupid or absolutely crazy If we consider personalities such as Socrates Aristotle Epicurus or Alexander the Great to mention just a few as they all believed in many gods can they for this reason be classified as stupid or even crazy Man as the most intelligent creature on Earth has always been aware of an extraordinarily powerful being creator of the world God This

awareness has inseminated in Man's mind the religious feelings If there is only one God why have men believed in many gods Weren't the gods only myth Did the gods really exist On Earth existed also other beings superior to humans They claimed to own Heaven and Earth and to have created Man the gods If there is only one God why there are so many religions Is the God in which we firmly believe only one of the many gods of the ancient past Can it be proved that they really existed Have the gods been confused with the real God the Creator Could they have manipulated the genetic structure of mankind How could that have happened I want to find explanations that withstand intellectual scrutiny and clarify many arguments created by such issues I am presenting an alternative way in an effort to avoid the errors of the past Consider this book as a journey to the top of the highest mountain at the end you will be astounded by the extraordinary view *Apocalypse or a Golden Age?* ,
