Guide To Family Reading In Two Languages:

A Guide to Family Reading in Two Languages Theodore Andersson,1981 This book concerns a neglected aspect of the education of bilingual children namely their potential desire and ability to learn to read before age 5 The basis of the study is considered in the chapter on children as early learners which provides accounts of children being taught to read from the age of 6 months to 4 years The next part of the study is presented in the chapter on preschool reading and the bilingual child Here accounts are given of how three families taught their children to read in two languages before the children entered kindergarten It is noted that generally the parent teacher s task consists of reading the child s wishes inventing games to stimulate this interest and including the child in their conversations and activities It is also observed that early reading seems to be related to establishing a sense of personal and social values The final chapter uses these accounts to develop specific methods and techniques for parents who wish to guide their children to early reading in two languages
