 American Book Publishing Record ,1999 *The Genius Frequency* John J. Falone, 2000-09-01 I Am Cosmic Mind Michael Mathiesen, 2025-04 I Am Cosmic Mind is the third book in the Save The World Series The total knowledge gained

here provides us with a new pathway through the evolution of the human species because our present species Homo Sapiens has led us to the verge of extinction A Cosmic Mind lies within us all and is helping our next iteration emerge Homo Planetae or Man of The Planet begins humanity's next branch of Evolution The first book in the series How To Turn Back Time describes how Time flies about the universe in waves for which I hope to win the Nobel Prize in Physics someday Everyone experiences waves of good and bad events the crests and the troughs of the time waves in our lives The only question left in my mind was Where do these waves originate For ocean waves we know they come from the other side of the planet where the wind whips them up and they travel all around the planet For Time Waves they must originate somewhere in the middle of the universe where other forces whip them up and blow them all over the place until they land in the events that make up our lives The answer to this question came to me in I Am Cosmic Mind and are published here for all to see Then more recently I discovered that within our lives Time Waves are things I call Time Point Certainties These can be likened to the subatomic particles that carry up all other forces in the universe So now we know that there are Time Waves that create a Time Field that is the flux that holds all other fields together in a Layer Cake kind of assembly Inside all of this are points in time like the one you are witnessing now that are the most important points of time you can recall All of this was designed by and is always maintained by a Cosmic Mind who speaks to us all here In this book I give the world an actual Owner's Manual for the most auspicious operation of the machinery of life I attempt to define how the new species of human should be designed and how each of us can literally think about this magic point in history where we have a chance to actually participate in the most important event in Evolution ever recorded This is the point in my career where I conceive of the notion of the next species of human being that must be taking place right in front of us except for the fact that we are all too close to the problem to see it accurately Reading this book as the third in this series will make it all come together for the reader in a more logical and memorable flow of information However it also stands on its own and can be read first
