Designing Modern Britain Cheryl Buckley, 2007-10-01 British culture is marked by indelible icons red double decker buses large oak wardrobes and the compact sleekness of the Mini But British industrial and product design have long lived in the shadows of architecture and fashion Cheryl Buckley here delves into the history of British design culture and in doing so uniquely tracks the evolution of the British national identity *Designing Modern Britain* demonstrates how interior design ceramics textiles and furniture craft of the twentieth century contain numerous hallmark examples of British design The book explores topics connected to the British design aesthetic including the spread of international modernism the eco conscious designs of the 1980s and 1990s and the influence of celebrity product designers and their labels Buckley also investigates popular nostalgia in recent times considering how museum and gallery exhibitions have been instrumental in reimagining Britain s past and how the heritage industry has fueled a growing trend among designers of employing images of British culture in their work A thoughtful look at the aesthetic heritage of a nation that has left its footprint around the globe *Designing Modern Britain* will be a valuable text for students and professionals in design

*Gender and Careers in the Legal Academy* Ulrike Schultz, Gisela Shaw, Margaret Thornton, Rosemary Auchmuty, 2021-02-25 In the past fifteen years there has been a marked increase in the international scholarship relating to women in law The lives and careers of women in legal practice and the judiciary have been extensively documented and critiqued but the central conundrum remains Does the presence of women make a difference What has been largely overlooked in the literature is the position of women in the legal academy although central to the changing culture To remedy the oversight an international network of scholars embarked on a comparative study which resulted in this path breaking book The contributors uncover fascinating accounts of the careers of the academic pioneers as well as exploring broader theoretical issues relating to gender and culture The provocative question as to

whether the presence of women makes a difference informs each contribution      *Global Labour in Distress, Volume II* Pedro Goulart, Raul Ramos, Gianluca Ferrittu, 2023-01-01 This book the second of two volumes explores the transformations to the labour market observed since the official end of the Cold War in 1991 This period is defined by the retreat of the state and a move towards more market based economies followed by a State comeback with the Great Recession These bumpy decades for labour and changing labour policies are analysed thematically The second volume focuses on labour earnings and inequality underemployment in decent work and labour market policies This book aims to examine how labour institutions both in developed and developing countries have responded to the challenges faced over the last 30 years It will be relevant to students and researchers interested in labour economics political economy and development economics      *Transnational Religious Spaces* O. Sheringham, 2013-04-16 This book explores the role of religion in the lives of Brazilian migrants in London and on their return back home Working with the notion of religion as lived experience it moves beyond rigid denominational boundaries and examines how and where religion is practiced in migrants everyday lives      **Me, Me, Me** Jon Lawrence, 2019-09-01 Many commentators tell us that in today's world everyday life has become selfish and atomised that individuals live only to consume But are they wrong In Me Me Me Jon Lawrence re tells the story of England since the Second World War through the eyes of ordinary people including his own parents to argue that in fact friendship family and place all remain central to our daily lives and whilst community has changed it is far from dead He shows how in the years after the Second World War people came increasingly to question custom and tradition as the pressure to conform to societal standards became intolerable And as soon as they could millions escaped the closed face to face communities of Victorian Britain where everyone knew your business But this was not a rejection of community per se but an attempt to find another new way of living which was better suited to the modern world Community has become personal and voluntary based on genuine affection rather than proximity or need We have never been better connected or able to sustain the relationships that matter to us Me Me Me makes that case that it's time we valued and nurtured these new groups rather than lamenting the loss of more real forms of community it is all too easy to hold on to a nostalgic view of the past      **From Rail to Road and Back Again?** Colin Divall, 2016-03-03 The coming of the railways signalled the transformation of European society allowing the quick and cheap mass transportation of people and goods on a previously unimaginable scale By the early decades of the twentieth century however the domination of rail transport was threatened by increased motorised road transport which would quickly surpass and eclipse the trains only itself to be challenged in the twenty first century by a renewal of interest in railways Yet as the studies in this volume make clear to view the relationship between road and rail as a simple competition between two rival forms of transportation is a mistake Rail transport did not vanish in the twentieth century any more than road transport vanished in the nineteenth with the appearance of the railways Instead a mutual interdependence has always existed balancing the strengths and weaknesses of each system It is that interdependence that

forms the major theme of this collection Divided into two main sections the first part of the book offers a series of chapters examining how railway companies reacted to increasing competition from road transport and exploring the degree to which railways depended on road transportation at different times and places Part two focuses on road mobility interpreting it as the innovative success story of the twentieth century Taken together these essays provide a fascinating reappraisal of the complex and shifting nature of European transportation over the last one hundred years **Handbook of Rural Studies**

Paul Cloke, Terry Marsden, Patrick Mooney, 2006-01-05 This book raises the theoretical level of rural studies to new heights the Handbook of Rural Studies will likely become a key resource on the bookshelves of the next generation of graduate students Gary Paul Green University of Wisconsin Madison This Handbook powerfully demonstrates that rural spaces rural societies and rural natures are at the very forefront of critical social science endeavour Read this book become a rural social scientist Henry Buller University of Exeter An outstandingly comprehensive review of theory research and the study of rural questions an essential reference for students scholars politicians developers and rural activists Imre Kovach Institute for Political Sciences Budapest This collection is an essential addition to any rural scholar s library and will be a critical resource for both established rural scholars and rising graduate students interested in rural research topics Peter B Nelson

**Geography and Vision** Denis Cosgrove, 2012-11-25 Leading geographer Denis Cosgrove provides a series of personal reflections on the complex connections between seeing imagining and representing the world geographically In a series of eloquent essays he draws upon pictorial images including maps sketches cartoons paintings and photographs to explore and

elaborate upon the many and varied ways in which the vast and varied earth and at times the heavens beyond have been both imagined and represented as a place of human habitation The essays include reflections upon geographical discovery urban cartography and utopian visions ideas of landscape and the shaping of America wilderness and masculinity conceptions of the Pacific and the imaginative grip of the Equator Extensively illustrated this engaging work reveals the richness of the geographical imagination as expressed over the past five centuries

**Bringing Home the Housing Crisis** Mel

Nowicki,2023-04-27 Often portrayed as an apolitical space this book demonstrates that home is in fact a highly political concept with a range of groups in society excluded from a right to home under current UK policies Drawing on resident interviews and analysis of political and media attitudes across three case studies the criminalisation of squatting the bedroom tax and family homelessness the book explores the ways in which legislative and policy changes dismantle people s rights to secure decent and affordable housing by framing them as undeserving

**Bachelors of a different sort** John

Potvin,2021-01-07 The bachelor has long held an ambivalent uncomfortable and even at times unfriendly position in society This book carefully considers the complicated relationships between the modern queer bachelor and interior design material culture and aesthetics in Britain between 1885 and 1957 The seven deadly sins of the modern bachelor queerness idolatry askesis decadence the decorative glamour and artifice comprise a contested site and reveal in their respective ways the distinctly queer twinning of shame and resistance It pays close attention to the interiors of Lord Ronald Gower Alfred Taylor Oscar Wilde Charles Shannon and Charles Ricketts Edward Perry Warren and John Marshall Sir Cedric Morris and Arthur Lett Haines No l Coward and Cecil Beaton Richly illustrated and written in a lively and accessible manner Bachelors of a different sort is at once theoretically ambitious and rich in its use of archival and various historical sources
