Geographies And Moralities International Perspectives On Justice Development And Place:

Geographies and Moralities Roger Lee, David M. Smith, 2011-07-22 This topical book addresses contemporary concern with the interconnections between geography and morality. Covers both the geographical context of morality and moralities in geographical methods and practices. Contains up to date case studies based on original research. Deals with controversial issues such as problems of globalization, European integration, human rights in Nigeria, territorial conflict in Israel and land reform in post apartheid South Africa. The editors are well published leading international authorities. The contributors are drawn from Australia, Eastern Europe, Israel, South Africa, the UK and the US. *Interrogating Alterity* Roger Lee, Mr Andrew E G Jonas, Mr Duncan Fuller, 2012-11-28

Alternative ways of thinking, analysing and performing economic geographies have become increasingly significant in recent years, partly due to the recent financial crisis which has had social and political consequences throughout the world. Yet there is a danger that the debate about alternatives may become simply a way of fixing global capitalism in its present crisis-ridden form. Instead, the analysis of alternative economic spaces must continue to offer a critique of the very notion of capitalism as a universal if variable set of social relations. This important book brings together critical analyses of alterity from across the social sciences and humanities, refining and advancing what alternative economies and polities are, how they are formed, what difficulties and problems they face, and how they might be sustained. A central theme is the need to examine critically both the material contexts and the conceptual categories deployed in the making of alternative economies. **Taking Care of the Future** Oliver Pattenden, 2018-03-06

Taking Care of the Future examines the moral dimensions and transformative capacities of education and humanitarianism through an intimate portrayal of learners, volunteers, donors and educators at a special needs school in South Africa and a partnering UK based charity. Drawing on his professional experience of inclusive education in London, Oliver Pattenden investigates how systems of schooling regularly exclude and mishandle marginalized populations, particularly exploring how street kids and poverty-afflicted young South Africans experience these dynamics as they attempt to fashion their futures. By unpacking the ethical terrains of fundraising, voluntourism, Christian benevolence, human rights, colonial legacies and the post-apartheid transition, Pattenden analyzes how political, economic and social aspects of intervention materialize to transform the lives of all those involved. *Competitiveness and Solidarity in the European Union* Paolo Chiocchetti, Frédéric Allemand, 2018-12-07 Starting in the 1980s, competitive pressures and the ideology of competitiveness have shaken and transformed traditional models of development, public policy and governance in Europe. This edited book carries out a comprehensive interdisciplinary and innovative analysis of the relationship between competitiveness and solidarity in the contemporary European Union. It offers an original contribution to the scholarly debates on the current developments and challenges of welfare states, social and economic policies and forms of governance in the European Union. Bringing together an international team of cutting-edge scholars in the social sciences and the humanities, *Competitiveness and Solidarity in the European Union* sheds light on the

conceptual richness and policy relevance of these relationships pointing to important avenues to make the European Union more economically successful and socially fairer This book will be of key interest to scholars and students of European Union studies and more broadly of EU Law Public Policy Economics Sociology Political Science Geography and Contemporary History
