No es fácil entender qué es lo que sucede en Euskadi: las raíces de la violencia y su aceptación por una parte de la sociedad; las actitudes muchas veces ambiguas del PNV; la posición de los ciudadanos no nacionalistas en una comunidad que en ocasiones parece querer excluirlos... No es fácil entenderlo, es cierto, pero la cuestión vasca es el problema político más complicado que tiene hoy nuestro país.

Para ayudar a su comprensión nace este libro, una edición revisada y ampliada del que fuera publicado con éxito en el año 2000. Mario Onaindia, uno de los pensadores y políticos vascos más respetados, se autocalifica con humor como «guía indio». Un guía que entiende el lenguaje de los «chaquetas azules esparoliestas» y el de los «pijamas rojos independentistas». Un guía que sabe seguir la pista en lo más entrañable de la *Aule borroka* y en los confusos proyectos de la Asamblea de Municipios Vascos, en las amenazas y los atentados de ETA, en los proyectos soberanistas y en la historia de la burguesía de Neguri.

Onaindia ha escrito una obra imprescindible, en la que incluso apunta las posibles tendencias de futuro, las salidas de este laberinto peligrosamente enmarcado que muchas veces nos parece Euskadi.

ETA, terrorismo y voto en España Mata López, Teresa,2020-10-29 Este libro se basa en la segunda parte de la tesis doctoral Terrorismo y comportamiento político en España y el caso de ETA centrada en las consecuencias y no en las causas de este fenómeno Su contribución no se limita a este giro de 180 grados en el enfoque La investigación parte de la idea de que para una correcta comprensión de las consecuencias de este problema es necesario prestar atención tanto a los efectos directos provocados por las propias acciones terroristas como a los indirectos derivados de las actuaciones de los partidos en este campo Sobre la base de estas premisas esta segunda fase de la investigación analiza las consecuencias del terrorismo de ETA sobre el voto en España a lo largo de treinta años 1982-2011 Los resultados muestran que sus efectos han sido limitados y que con el paso del tiempo los atentados han ido cediendo terreno en favor de la valoración de la política antiterrorista como principal condicionante Una valoración en la que no parecen haber tenido peso alguno las estrategias desarrolladas por determinados partidos centradas en convertir a ETA en uno de los principales ejes de la contienda política Una estrategia de crispación que tal y como reflejan estos resultados solo consiguió aumentar la preocupación por ETA sin obtener a cambio político alguno

Fernando Buesa, una biografía política Eduardo Mateo Santamaría,Antonio Rivera,2020-10-07 El 22 de febrero del año 2000 ETA asesinó al político socialista Fernando Buesa Blanco y a su escolta el ertzaina Jorge Díez Elorza En el momento de su asesinato Buesa era el líder parlamentario de la oposición cuando un gobierno nacionalista encabezado por Ibarretxe había pactado con la izquierda abertzale una estrategia de Frente Nacional Aquello trajo consigo un acuerdo de fuerzas nacionalistas el de Estella Lizarra que dividió por completo a la sociedad vasca así como una tregua por parte de ETA que sin embargo no cesó la actividad de la kale borroka violencia callejera En ese escenario de fractura social Buesa se destacó defendiendo los valores del Estado de derecho y la pluralidad de la sociedad vasca así como la necesidad de establecer acuerdos de consenso amplios entre diferentes soportados sobre

criterios democráticos A la vez se enfrentó radicalmente con la palabra tanto al giro soberanista que llevaban a cabo sus anteriores socios nacionalistas como al corolario de agresión terrorista y exclusión política contra quienes no lo eran Al final su asesinato evidenció la fractura social que se venía produciendo y dio paso a dos años de violencia y de reacción ciudadana donde la comunidad vasca estuvo más cerca que nunca de romperse Esta es así la biografía de un político singular que trascendió el marco de la política vasca y la historia de un país en unos meses en que todos vivimos peligrosamente

Cambio y continuidad en el discurso político Leonisio Calvo, Rafael, 2016-10-25 Esta investigación analiza desde un punto de vista cuantitativo y cualitativo el discurso del Partido Socialista de Euskadi desde su fundación en 1977 hasta el año 2011 utilizando tres tipos de documentos elaborados por el propio PSE discursos de investidura en el Parlamento Vasco discursos de política general y resoluciones congresuales Para ello se utiliza como metodología el análisis de contenido tanto manual como computerizado técnica muy empleada en la actualidad en investigaciones en ciencia política Partiendo de la influyente teoría de los cleavages elaborada por Lipset y Rokkan 1967 este trabajo se pregunta cuál de las principales líneas de fractura de la política vasca centro-periferia e izquierda-derecha ha sido la predominante desde un punto de vista cuantitativo en el discurso de los socialistas vascos a lo largo de su historia tanto en general como por períodos concretos de la misma La conclusión principal es que en todas las pocas veces que el Partido Socialista de Euskadi ha prestado atención a la denominada cuestión nacional quedando subordinados a esta los temas relacionados con el eje izquierda-derecha Sin embargo este trabajo no se limita a lo meramente cuantitativo sino que da el salto también a lo cualitativo para analizar el contenido específico de cada uno de los cleavages dividiéndolos en subcategorías e ideas fuerza viendo si ha habido cambio o continuidad en las diferentes cuestiones abordadas por el discurso político del PSE ETA Leonisio, Rafael, Molina Aparicio, Fernando, Muro, Diego, 2021-06-13 ETA forma parte de la memoria colectiva de las españolas y españoles que han cohabitado en sus diversas generaciones en los últimos setenta años La investigación científica sobre esta organización su práctica de la violencia y el terror su sustrato sociológico y su influencia en la política española es ingente y este libro demuestra que sigue en construcción Durante décadas esta organización terrorista fue contemplada como virtualmente imbatible en un curso de estrategias terroristas y contraterroristas cambiantes y en un contexto en el que su violencia afectó extraordinariamente la convivencia política en España y muy especialmente en el País Vasco Sin embargo ETA fue derrotada policialmente y en la actualidad el debate público se centra en definir su curso histórico las razones de su derrota y la naturaleza de su recuerdo colectivo ETA Terror y terrorismo es un libro que tiene pocos precedentes en su ambición por abordar buena parte de las variables que caracterizaron a esta organización y a su historia Este libro escrito por reconocidos especialistas en la violencia política en el País Vasco procedentes de diversas disciplinas constituye un esfuerzo colectivo por interpretar la ingente producción científica y el estado actual del debate sobre una de las organizaciones terroristas más influyentes y letales de la Europa del tiempo reciente **Luces y sombras de la democracia española** Paloma Otaola González, 2013-02-28T00:00:00Z El 20 de

noviembre de 1975 tras la muerte de Franco se inicia en España un nuevo proceso democrático. A partir de junio de 1976 comienza la fase decisiva para la reforma política que desembocar en la actual monarquía parlamentaria. Desde 1977 fecha de las primeras elecciones democráticas hasta la época actual, España ha sufrido grandes cambios sociales y de mentalidad paralelos a los de los demás países europeos occidentales. La alternancia de gobiernos de orientación política diversa a lo largo de nueve legislaturas es manifestación de la madurez del sistema democrático español. Por otro lado, la sociedad española está marcada por cuarenta años de terrorismo de ETA que ningún gobierno democrático ha conseguido eliminar. Este trabajo aporta una síntesis historiográfica que ayude a comprender el proceso de transformación política de la dictadura a la democracia y los cambios sociales de la España reciente. El libro aborda a lo largo de siete capítulos los momentos clave de la historia de España desde el final de la guerra civil hasta las últimas elecciones del 20 de noviembre de 2011. La mirada al pasado aclara en muchos casos la problemática del presente. La actualidad del debate sobre la memoria histórica muestra que la sociedad española vive aún confrontada a toda una parte de su historia del siglo XX.

Traducción Le 20 novembre 1975 après la mort de Franco un nouveau processus démocratique commence en Espagne. A partir de juin 1976 la phase décisive pour la forme politique d'arriver ayant comme résultat l'actuelle monarchie parlementaire. Dès 1977 date des premières lections démocratiques jusqu'à nos jours l'Espagne a connu de grands changements de société et de mentalités semblables ceux des autres pays européens occidentaux. L'alternance de gouvernements d'orientation politique diverse tout au long de neuf législatures est une manifestation de la maturité du système démocratique espagnol. Par ailleurs la société espagnole est marquée par quarante ans de terrorisme de l'ETA qui aucun gouvernement n'a réussi à radier. Ce travail apporte une synthèse historiographique permettant de mieux apprendre le processus de transformation politique de la dictature à la démocratie ainsi que les changements sociaux de l'Espagne moderne. Il aborde en sept chapitres les moments clés de l'histoire d'Espagne de la fin de la guerre civile jusqu'aux dernières lections du 20 novembre 2011. Le regard vers le passé clarifie le problème du présent. L'actualité du début de l'ère contemporaine.

El carácter es el destino Carmen Iglesias, 2024-02-28

Durante toda su vida la labor historiográfica periodística y pedagógica de Carmen Iglesias ha girado sobre el principio del compromiso cívico y la convivencia. En sus escritos, lecciones o conferencias la historia es un magnífico recreo que nos ilustra y nos enriquece pero también es un saber imprescindible para avanzar en los principios del humanismo y la tolerancia es decir en la tarea de comprender con vocación ética la complejidad y la ambivalencia de toda vida humana en todo tiempo y circunstancia. Estas páginas reúnen algunos de los textos más queridos de la autora: reflexiones de plena actualidad sobre ensayos, discursos, entrevistas, sus homenajes a maestros y amigos, cuestiones capitales como la lucha por la igualdad y la libertad ciudadana y de las mujeres, la pasión por la cultura y la enseñanza o la Constitución y la Monarquía. Las humanidades no son un lujo minoritario sino que cumplen una necesidad social práctica. Contribuyen de manera decisiva a nuestras instituciones y nuestros valores sostienen un espacio intangible pero muy real donde se hace posible una existencia libre.

Resisting Terror Javier Argomaniz, 2025 Civil resistance campaigns have led to some of the most important international developments in recent years yet little is known of the role that civilian actors can play in challenging the use of violence by militant groups This book examines the role that social mobilization in the Spanish region of Basque Country played in the decline and end of the Basque armed separatist group Euskadi Ta Askatasuna ETA For more than four decades ETA waged a bloody campaign against the military and the Spanish and Basque police forces while causing a large number of civilian deaths The Basque case demonstrates that civil resistance can work against terrorism and this book will show that social mobilization is one of the factors that contributed to the failure of ETA's violent campaign It reflects on how activism by the peace movement helped to delegitimize the armed struggle in society explores the role civil society actors played in the construction of ideas that challenged ETA's political project and highlights how civil resistance to the armed group undermined the prestige of militants and helped to limit the social reach of violent extremist narratives Resisting Terror raises awareness of the importance of collective action not only against regimes but also non state militants and highlights the significance of civil activism as a tool to mitigate political violence

El reinado de Juan Carlos I. La presidencia de Felipe González 1982-1996. Mercedes Rivas Arjona, 2022-05-20 A lo largo de las páginas de este libro la autora analiza con detalle esos años en que los socialistas con Felipe González como presidente de gobierno marcaron el destino de los españoles La llegada de los socialistas al poder en 1982 generó un gran entusiasmo en buena parte de la población española si bien su abrumadora mayoría en las elecciones generales de ese año engendró también recelos en los sectores sociales más conservadores del momento El miedo a una política de expropiaciones y al establecimiento de una economía demasiado intervencionista estuvo sin duda presente en los primeros momentos del gobierno socialista A la hora de hacer balance de la gestión de Felipe González es indudable que el mejor momento se producir durante los primeros años de gobierno en los cuales se centraron las grandes reformas que permitieron el gran crecimiento económico y desarrollo del estado del bienestar de los últimos años de la década de los ochenta y los inicios de los años noventa Sin embargo la corrupción y la política de rodillo consecuencia de las tres mayorías absolutas obtenidas por el socialismo vendrán a desdibujar un periodo marcado por

Spain's transition from the Franco dictatorship to a democratic state has been widely regarded as exemplary. However, as modern court proceedings have exposed the first post-transition government's attempt to destroy the Basque separatist group ETA adopted the very policies of indiscriminate terror which characterised both the Franco regime and ETA's own strategy. In this narrative, Woodworth disentangles a complex conspiracy through documentary evidence and first-hand interviews. He analyzes what happens when a democracy abandons the rule of law showing how state terror has strengthened revolutionary terrorism and raising questions about post-Franco Spain. [Endgame for ETA](#) Teresa Whitfield, 2014-07-01 A sober analysis of the risks and benefits of engaging with armed groups proscribed as terrorist and the sometimes contradictory impact of counterterrorism policies.

[Territory and Terror](#) Jan Mansvelt Beck, 2004-11-10 All Basque interpretations of national power have resulted in an uneasy mix of often fragmented and conflicting territorial identifications. Basques can identify themselves with France, Spain or an imagined Basque nation-state. Territory and Terror confronts the imagined and actual territorial dimensions of nationalism, shedding new light on the Basque conflict. The study provides a rich description of territoriality analysed from a comparative perspective and explores the relation between territoriality and regional differences in conflict intensity. It supplies an account of the oft-overlooked internal struggles between Basques, arguing that overestimation of Basque nationalism as the ideological force behind the conflict often leads to a disregard of the identification of many with France or Spain. In addition, the author investigates the conflicts between Basque nationalists themselves over key issues such as terrorist activity. Territory and Terror will appeal to students and researchers of nationalism and territoriality in particular to those with an interest in the Basque country.

[El fascismo vasco y la construcción del régimen franquista, 1933-1945](#) Iñaki Fernández Redondo, 2021-03-12 El fascismo fue un movimiento político que surgió en la Europa del primer tercio del siglo XX y que encontró acomodo tanto en España como en el País Vasco, así que a diferencia de la imagen que se ha trasladado, esta región no resultó impermeable a su atracción sino que desempeñó un papel fundamental en el desarrollo del fascismo español. Destacados intelectuales acuciados por el contexto político que se abrieron con la aparición de la sociedad de masas y sus desafíos contribuyeron a la formación de esta cultura política en nuestro país. Además, los principales partidos fascistas entre los que destacó la Falange Española se implantaron en las ciudades vascas de manera similar a como lo hicieron en otras regiones. La Guerra Civil supuso un punto de inflexión para este movimiento, si bien en un primer momento en dos de las provincias vascas leales a la República hubo de hacer frente a la violencia de retaguardia, su integración en la coalición golpista le abrió las puertas a un crecimiento exponencial. Paradójicamente, como se verá durante la institucionalización de la dictadura, el fracaso del fascismo para conquistar el Estado por sus propios medios lo condujo a unas cuotas de influencia y de poder que nunca hubiese alcanzado de otra manera.
